Subject: BabyNet Update
Date: Friday, September 11, 2020 4:03:03 PM

Dear Health Council Members,

I wanted to share a quick BabyNet update with you. It was confirmed at BabyNet in August that Dr. Brenda Pereda has accepted a position at Los Alamos Medical Center as a full time OB/GYN. The Women's Clinic is set to open mid-October and will start scheduling appointments a couple of weeks prior to opening. A formal announcement from LAMC is expected soon.

Dr. Pereda has been tasked with rebuilding women's health services in Los Alamos and is very interested in hearing from the community about what is needed. She is asking for opportunities to hear from the community through multiple forums. She will be introducing herself at BabyNet on September 15 at 1:00 and discussing her views on women's health. BabyNet will be scheduling a public forum in the near future as well.

I would like to request that she be invited to present at a Health Council meeting in the near future.

Also, as information becomes available about the Women's Clinic please share where you can to help get the word out.

Best regards,

Carie Fanning
