9295-17**Discussion - Budget Request for White Rock 2T Route.**

Council budget presentations are scheduled on April 17 and 18 and April 24 and 25.

Two additional full time employees are needed to replace service on Route 2T - (White Rock) that was reduced in January 2016. This service is particularly important in preparation for the New Mexico Department of Transportation's NM502 construction project that is anticipated to cause

severe delays to Route 2M which currently provides hourly service. The anticipated construction will affect the current service level due to anticipated traffic congestion as the construction zone is the only road available for Route 2M service. In addition, customers utilizing the 2M may have difficulty making service connections to other existing routes or other service providers like Park & Ride or NCRTD Blue Bus.

The Transit Management team proposes adding an additional service to Route 2T, which does not pass through the identified construction zone, to assist in the anticipated shift of users from Route 2M to Route 2T. This additional 2T service will assure that the current service level, which provided service every half hour to White Rock, will be maintained.
