Thursday, October 5, 2017

5:30 PM

1000 Central Avenue, Room 110

1. CALL TO ORDER / ROLL CALL

The October 5, 2017 Transportation Board Meeting was called to order at 5:30 p.m.

Members present:

Sriram Swaminarayan, Vice Chair, Eileen Lime, James Nesmith, and David Schiferl.

Members Absent:

Brian O'Neil, Chair, Nancy Barnes and Don Machen.

Staff in attendance:

Philo Shelton, Public Works Director, Jon Bulthuis, Deputy Public Works Director, Dan Erickson, Traffic & Streets Division Manager, Annette Granillo, Transit Division Manager, Eric Martinez Engineering Manager / County Engineer, Audoro Espinoza, Project Manager, Councilor Chris Chandler, Louise Romero, Office Manager, and Amy Danforth, Senior Office Specialist.

Members of the public in attendance: Julie Bennett, 4256 Urban B, Wendy Swanson, 1874 Camino Manzana, Doris Roberts, 1332 La Mirada Circle, Patricia Wilde, 1338 47 Street, Rey Gonzales, Project Manager with Wilson & Company.

2. APPROVAL OF AGENDA

A motion was made by Member Schiferl, seconded by Member Nesmith, that the October 5, 2017 agenda be approved as presented; motion passed unanimously.

3. PUBLIC COMMENT

Patricia Wilde 1338 47th St.
Doris Roberts 1332 La Mirada Circle

4. LIAISONS' REPORTS

Member Machen was absent.

5. APPROVAL OF MINUTES

A motion was made by Member Nesmith, seconded by Member Schiferl, that the September 7, 2017 meeting minutes be approved as presented; motion passed unanimously.

9960-17

Attachments: [A - DRAFT Meeting Minutes - September 7, 2017](#)

6. OLD BUSINESS -Possible Action

9962-17

[Route 2 Service Expansion](#)

Attachments: [A - Route 2 Service Expansion - Alignment Alternatives](#)

Jon Bulthuis, Deputy Public Works Director presented two alternatives for the Route 2 Service Expansion.

- Alternative 1: Services Grand Canyon Dr. and Aragon Ave. Proven route with known ridership.
- Alternative 2: Services Meadow Lane and Rover Blvd. Pilot trial with boarding data presented to Transportation Board after three months of service.

Member Schiferl moved that the Transportation Board approve Alternative 2 as presented. Member Nesmith seconded. Motion passed unanimously.

9965-17

[North Road - Urban Street Update](#)

Attachments: [A - North Road - Urban Street Update - Presentation](#)

Dan Erickson, Traffic & Streets Division Manager gave an update on North Road / Urban Street.

- Recorded speeds in excess of 25mph over the posted limit.
- Study Dates: 10/26/16 - 11/06/16, 10/26/16-11/13/16, 1/26/17-3/21/17, 8/24/17-9/26/17, 8/15/17-9/26/17
- Path Forward
 - o North Road: Allow committee to continue to monitor traffic habits. Appears to be working well
 - o Urban Street: Publish Neighborhood Speed Awareness

Letter (page 16 Neighborhood Traffic Management Guideline). Collaborate with Parks and Recreation regarding parking for Urban Park.

Public Comment

Julie Bennett, 4256 Urban B Urban Street spoke regarding law enforcement letter.

7. NEW BUSINESS - Possible Action**9964-17****Approval of the FY18 Snow and Ice Control Plan****Attachments:** [A - DRAFT FY18 Snow and Ice Control Plan](#)

Dan Erickson, Traffic & Streets Division Manager presented the FY18 Snow and Ice Control Plan

- Purpose

- Project Schedule
- Public Input

Public Comment

Wendy Swanson, 1874 Camino Manzana, spoke regarding plan.

Doris Roberts, 1332 La Mirada Circle, spoke regarding plan

Patricia Wilde, 1338 47 Street, spoke regarding plan.

8. PROJECT UPDATES

Public Works Project Updates were briefly discussed.

9967-17

Attachments: [A - Public Works Update for September 2017](#)

9. CHAIRPERSON'S REPORT

Vice-Chair Swaminarayan reminded the Board about the upcoming webinar Countermeasures for Reducing Collisions at Pedestrian Crossings. October 13, 2017, 10:00 AM - 11:30AM

10. FUTURE AGENDA ITEMS

November

- Bus shelter plans
- NM DOT - 502 Update
- SR4 (2020)
- Golf Course Mid-Block Crossing

Other

- LANL Trail map
- Tour of the Traffic Management Center
- Central Avenue. On street parking with Main Street Future Group
- Update White Rock 2 Peak for Transit

11. ADJOURNMENT

A motion was made by Member Nesmith, seconded by Member Schiferl that the September 7, 2017 meeting be adjourned at 7:30 p.m.

If you are an individual with a disability who is in need of a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing or meeting, please contact the County Human Resources Division at 505-662-8040 at least one week prior to the meeting or as soon as possible.

Public documents, including the agenda and minutes can be provided in various accessible formats. Please contact the personnel in the Public Works Division at 505-662-8150 if a summary or other type of accessible format is needed.

Notice of Award!

4/21/2017

Ms. Desirae Lujan
Los Alamos County
1000 Central Ave
Los Alamos, NM 87544

Dear Ms. Lujan,

It is my pleasure to inform you that the New Mexico Department of Transportation (NMDOT) has selected the Los Alamos County to receive a Transportation Alternatives Program (TAP) funding award for the project "Canyon Rim Trail Underpass." The project award amounts for Federal Fiscal Year (FFY) 2018, 2019 and 2020 are displayed below. Please note the breakdown of the federal (reimbursable) portion, local match and non-match, and total project cost.

	Federal	Local Match	Local Non-Match	Phase
FFY 2018	\$273,408	\$46,592	NA	Design
FFY 2019	NA	NA	NA	NA
FFY 2020	\$1,725,888	\$294,112	NA	Construction

Total Project Cost	\$2,340,000
--------------------	-------------

Congratulations on your award! NMDOT looks forward to working with you to develop a successful project. Please immediately review, sign and return within two weeks, the attached Award Form. Additionally, please review the attached document containing information about what is required from you as an award recipient.

If you have any questions, please contact Dan Watts, NMDOT TAP Coordinator, at (505) 470-8545 or Danial.Watts@state.nm.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tamara P. Haas".

Update - Americans with Disabilities Act (ADA) Transition Plan

...Body

In March, Wilson & Company was hired to assemble an ADA Transition Plan. The transition plan includes several components including establishing an ADA policy, performing a self-evaluation of existing pedestrian infrastructure to identify physical barriers that limit accessibility, establishing grievance/complaint procedures, identifying methods to improve accessibility, and designating a responsible official or ADA Coordinator to implement the plan.

Work on the transition plan began upon being notified by the New Mexico Department of Transportation (NMDOT), working on behalf of the Federal Highway Administration, as an effort to ensure compliance with federal ADA statutes. NMDOT is requiring all local agencies comply with federal statute on ADA transition plans as a condition of receiving federal transportation funding. This is a statewide effort by NMDOT that affects all municipalities. NMDOT must also meet the same requirement by drafting their own transition plan for state facilities. State highways under NMDOT jurisdiction like NM 502 (Trinity Drive) and NM 4 in Los Alamos must be included in NMDOT's transition plan.

A first draft of the plan was presented to the Transportation Board during its October 5th meeting. A second draft will be presented to the Transportation Board at its November 2nd meeting, where the public will have an opportunity to provide feedback again. The deadline to submit the plan for NMDOT review is December 22, 2017.

EXECUTIVE SUMMARY

This report documents the Americans with Disabilities Act (ADA) Transition Plan established for Los Alamos County (LAC), New Mexico. The intent of this report is to document the current ADA needs in LAC relative to the transportation infrastructure, specifically the roads, streets, and sidewalks. This plan provides an effective improvements program, optimizes the pedestrian experience, provides safe and usable pedestrian facilities, and assures County compliance with all federal, state, and local regulation and standards. This ADA Transition Plan contains a detailed evaluation and analysis of the existing curb ramps and sidewalk facilities throughout the two principal communities of LAC: Los Alamos and White Rock.

Federal ADA legislation and implementing regulations require all public agencies to develop an ADA Transition Plan to guide installation and improvements of curb ramps, sidewalks, and other walkway areas to ensure non-discrimination towards persons with disabilities. The ADA Transition Plan must include a schedule for improvements necessary to achieve a program of accessibility for persons with disabilities. It must describe the curb ramp and sidewalk improvements needs throughout LAC, outline recommended actions for implementation to mitigate deficiencies, and provide an estimate of costs associated with recommended improvements.

The current ADA Accessibility Guidelines (ADAAG) promulgated by the United States Access Board (USAB) were amended in 2002. These guidelines, in conjunction with *Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* (PROWAG) of 2011 (or the latest edition) establish the current enforceable standards utilized for the basis of this report. These sources of information and guidance contain scoping and technical requirements for creating and maintaining accessibility to public buildings and facilities by individuals with disabilities under the ADA of 1990 and the necessity of the transportation infrastructure, as public facilities, to support unimpeded access to these buildings and facilities. The technical requirements are to be applied during all new design, construction, and alterations of buildings and facilities covered by Title II of the ADA.

LAC has a wide variety of pedestrian facilities within a total of 109 center lane miles of public right-of-way (ROW), which is maintained for the community's transportation infrastructure. LAC is responsible for developing and maintaining the transportation infrastructure within this ROW and reasonable accessibility thereto by all residents and visitors regardless of age or physical ability. Key elements of the LAC transportation infrastructure include, but are not limited to: streets, roadways, curb ramps, sidewalks, bridges, traffic signal equipment, on-street parking, alleys, roadway medians, roadway refuge islands, public walkways, public buildings, street furniture, and multi-use trails. Existing curb ramp and sidewalk elements associated with the public ROW were evaluated against current ADA guidelines and standards to identify any deficiencies. Additional LAC facilities to be evaluated at a later time, may include, but will not be limited to: signal equipment, transit facilities, alleys, public driveways, and public buildings.

For this report, data collection was performed for curb ramps and sidewalk, and compiled into a Geographic Information System (GIS) database for LAC use. A desktop evaluation was performed on the curb ramp and sidewalk data to flag deficient facilities and identify needed ADA-related improvements. Findings and recommendations derived through this survey are summarized as part of this ADA Transition Plan. Although LAC has made significant progress toward improving pedestrian facilities and accessibility for person with disabilities, the County will continue to work to attain County-wide ADA compliance. This ADA Transition Plan will be instrumental in providing a rational framework for implementing required curb ramp and sidewalk improvements needed in the County, specifically within the Los Alamos townsite and White Rock.

LOS ALMAOS COUNTY ADA POLICY

1. POLICY STATEMENT

Los Alamos County (LAC) is committed to full compliance with Title II of the Americans with Disabilities Act of 1990 as amended (ADA), Section 504 of the Rehabilitation Act of 1973 as amended (Section 504), and all related regulations, laws, executive orders, and directives.

The purpose of the County's ADA Policy is to provide guidance for requesting modifications to ensure safe access to County programs, services, and activities; and submitting a grievance when the possibility of discrimination may have occurred due to a disability.

2. REFERENCES

Title II of the Americans with Disabilities Act of 1990, as Amended Section 504
of the Rehabilitation Act of 1973, as Amended
Code of Federal Regulations Title 23
Code of Federal Regulations Title 28, Part 35 Code of
Federal Regulations Title 36
Code of Federal Regulations Title 49
NMDOT Standard Drawings for Sidewalks, Drive Pads, and Concrete Median Pavement Pedestrian
Access Details (ADA)

3. POLICY OVERVIEW

This Policy discusses non-discrimination on the basis of disability in LAC programs, services, or activities under ADA and Section 504. Within this Policy, a program, service, or activity is any LAC function administered, operated, or contracted with LAC.

The ADA Coordinator is responsible for administering department-wide compliance with ADA and Section 504, and other state and federal Disability discrimination laws. The ADA Coordinator's contact information is on the LAC Website.

When multiple Policies exist, the LAC ADA Coordinator will evaluate the discrepancies and provide a determination as to which Policy will govern within a reasonable timeframe.

This Policy does not address the obligation of LAC's programs to comply with ADA in terms and conditions of employment or the hiring process.

4. PUBLIC FACILITIES

The County is also responsible for ADA accessibility to their public facilities. The ADA Coordinator will work to prioritize evaluation of public facilities and corrective actions. Public facilities include:

- Pedestrian facilities within the LAC ROW; and
- Facilities where LAC's programs, services, or activities are delivered.

5. GRIEVANCE

An individual who feels discriminated against in violation of ADA or Section 504, may file a grievance with the ADA Coordinator for further investigation and resolution. Grievances can be submitted by letter, e-mail, phone call, or by completing the ADA Grievance Form included on the LAC Website. The grievance process is detailed within Section 3.5 of the LAC ADA Transition Plan located on the LAC Website.

1.0 Background

The American with Disabilities Act (ADA) of 1990 was preceded by two important pieces of Federal Legislation: Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, religion, sex, or national origin; and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability. The ADA is, in effect, an “equal opportunity” law ensuring people with disabilities are afforded full protections and advantages intended by the previous two laws. The ADA, Title II prohibits discrimination on the basis of disabilities through, by, or within programs, services, or activities operated by public entities, specifically state and local governments. Title II of the ADA identifies what state and local governments must do to attain compliance with regulations developed at the Federal level, including: engaging in self-evaluation and planning; making reasonable modifications to policies, implementing practices and procedures, where necessary, to avoid discriminating conditions, such as identifying architectural barriers and providing means for effectively communicating conditions to those people with hearing, vision and speech disabilities.

It is important that Los Alamos County (LAC) comply with all applicable laws and regulations, including those protecting persons with disabilities. To accomplish this with respect to the County’s roadway infrastructure (streets and sidewalks), LAC has developed this ADA Transition Plan by conducting a self-evaluation as codified in Federal law. The self-evaluation reviewed the accessibility by persons with disabilities within and to public facilities via roads and streets, sidewalks, and other appropriate means. It identified issues of accessibility that need to be addressed in the County, including, but not limited to; upgrading/updating County programs focused on improving accessibility to public facilities via the roadway infrastructure; identifying for correction deficiencies that are not consistent with regulations promulgated to implement of Title II of the ADA; and assuring future compliance with ADA-mandated standards. The intent of this ADA Transition Plan is to assure progressive and timely removal of physical barriers to accessibility to public facilities.

1.1 Need for an ADA Transition Plan

Realizing that geometric, infrastructure, and structural changes will take time and money to upgrade the existing facilities, the LAC ADA Transition Plan includes provisions to correct existing physical barriers and includes specifications for incorporation in all upcoming roadway design projects to assure compliance with ADA regulations. The ADA further requires each state and local ADA Transition Plan to, at a minimum:

- (i) Identify physical obstacles in the public entity’s facilities that limit the accessibility of its programs or activities to individuals with disabilities;*
- (ii) Describe in detail the methods that will be used to make the facilities accessible;*
- (iii) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and*
- (iv) Indicate the official responsible for implementation of the plan.¹*

¹ Americans with Disabilities Act Title II Regulations – Nondiscrimination on the Basis of Disability in State and Local Government Services, US Department of Justice, September 15, 2010.

Further, guidelines for an ADA Transition Plan state specifically regarding the roadway infrastructure that: “If a public entity has responsibility or authority over streets, roads, or walkways, its transition plan shall include a schedule for providing curb ramps or other sloped areas where pedestrian walks cross curbs, giving priority to walkways serving entities covered by the Act, including State and local government offices and facilities, transportation, places of public accommodation, and employers, followed by walkways serving other areas.”²

1.2 Los Alamos County Practices and Standards

Los Alamos County currently references Standard Drawings prepared and adopted by the New Mexico Department of Transportation (NMDOT) and abides by guidance provided therein. The Standard Drawings, published in January, 2015, apply to new and altered public access routes (PAR) standards and provide guidance for compliance with *Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* (PROWAG), Advisory R209, published by the United States Access Board (USAB), July 26, 2011 (or the latest edition). The Standard Drawings address the following ADA-related improvements:

- Sidewalks and Pedestrian Refuge Islands
- Curb Ramps – Perpendicular, Parallel, **Diagonal**, and Combination Designs
- Ramps at Crosswalks and Sidewalk/Driveway Transition Aprons
- Detectable Warning Surface and Accessible Pedestrian Signals (APS) and Pedestrian Pushbuttons
- Pedestrian Parking and Passenger Loading Zones
- Stairway and Handrails
- Alterations to Existing Facilities (General Notes)³

LAC routinely sends plans and specifications to the NMDOT for review and approval prior to letting projects for bid. This procedure allows comments and corrections to be made to ensure all ADA regulations are being satisfied to the best of the County’s ability.

The NMDOT Standard Drawings specifically note that design/construction variances may be encountered during efforts to comply with ADA regulations. Should a variance be considered necessary or a solution is technically infeasible, the design/construction specifications should be submitted for approval. Two conditions are highlighted wherein variance or technical infeasibility may apply:

Exception: *in alteration work, if compliance is technically infeasible, the alteration shall provide accessibility to the maximum extent practicable. Any elements or features of the building or facility (which includes roads, streets, and sidewalks) that is being altered and can be made accessible shall be made accessible within the scope of the alteration.*

Technical Infeasibility: *means, with respect to an alteration of a building or a facility, that it has little likelihood of being accomplished, because existing structural conditions would require removing or altering a load-bearing member which is an essential part of the structural frame; or because other existing physical or site constraints prohibit.*⁴

In addition, LAC follows New Mexico and International Building Codes as they apply to facilities supporting the County’s transportation infrastructure as well as all entry to and exit from all County facilities. All new construction and any major renovation projects to existing facilities are subject to review for ADA

² Ibid.

³ Standard Drawings – New Mexico Department of Transportation at http://dot.state.nm.us/content/dam/nmdot/Plans_Specs_Estimates/Standard_Drawings/608.pdf.

⁴ Ibid.

compliance, including direct access to the facility from/to avenues of approach to the facility. The latter includes pedestrian-oriented facilities and the ramps necessary to accommodate the safe and secure transition of persons with disabilities to County facilities via sidewalks, parking lots, transit stops, and other elements integral with the County's transportation infrastructure.

2.0 County Characteristics

Los Alamos County is located in the North Central portion of the State of New Mexico. It is recognized as the birthplace of the first atomic bomb—the primary objective of the Manhattan Project carried out at the Los Alamos National Laboratory during World War II. Still today, the County has a worldwide reputation for scientific and technological developments.

2.1 Physical and Social Characteristics

2.1.1 Location/Topography

Los Alamos County is the smallest county in New Mexico, encompassing only 109 square miles at an elevation of 7,355 above mean sea level (AMSL) (**Figure 1**). It is located approximately 35 miles northwest of Santa Fe, the State Capital of New Mexico. The Los Alamos townsite and White Rock community are located on flat mesa tops integrated within the Pajarito Plateau, which is located at the foot of the Jemez Mountains. A series of steep, parallel canyons trending east-southeast toward the Rio Grande has been created by runoff on the east side of the Jemez Mountains.

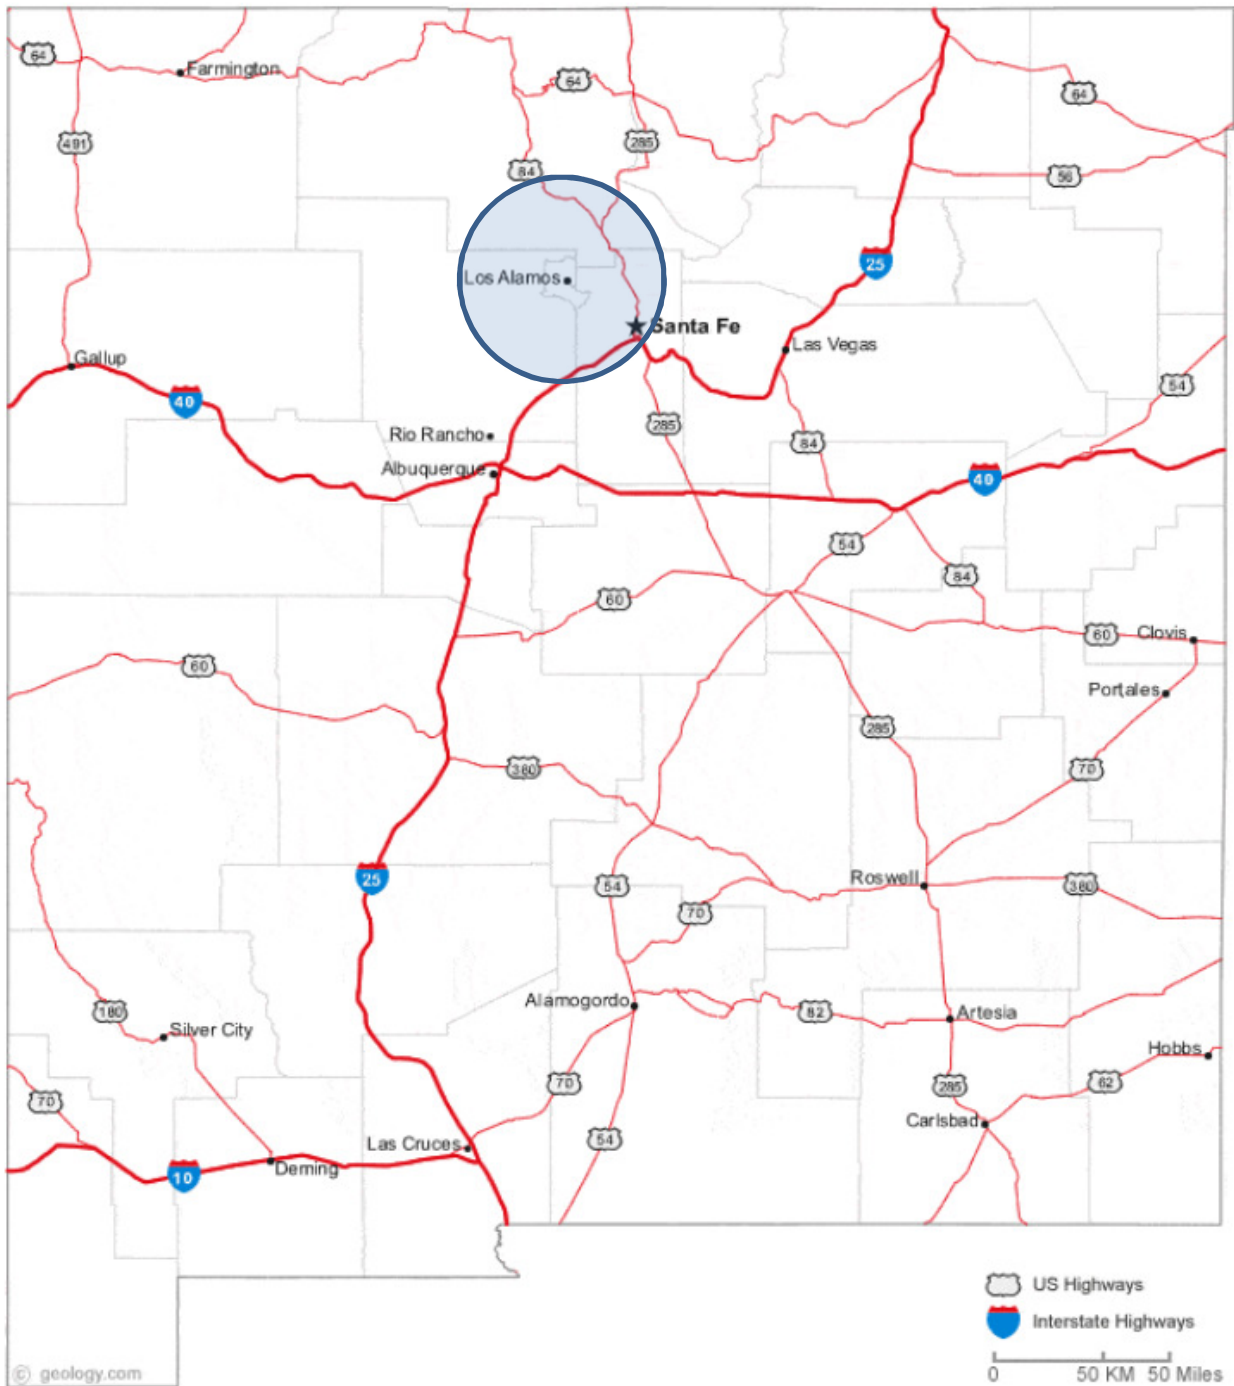

Los Alamos County was created March 16, 1949, subsequent to World War II from portions of Sandoval and Santa Fe counties. Formation of the county was an outgrowth of the Los Alamos National Laboratory (LANL), which for several years was the site for top secret scientific studies and testing of bomb designs. Its establishment in this remote, mountainous location and its relative inaccessibility were directly related with the determined need to help protect the secret activities as early as 1942 associated with the Manhattan Project, which resulted in creation of the first atomic bomb. The general area of the LANL and townsite now universally are referred to as Los Alamos.

The LANL and townsite of Los Alamos were built on four mesas—Barranca Mesa, North Mesa, Los Alamos Mesa and South Mesa—along with connecting communities at the base of the mountain. The LANL occupies one-half of South Mesa plus Two Mile Mesa, Frijoles Mesa, Mesita de Buey, and several nearby areas in the region (in the valleys and at the base of the mountain), encompassing almost one-third of Los Alamos County. The rugged topography raises a number of challenges to meeting slope and grade criteria established in the ADA regulations and supporting guidelines. Many roads and streets have been established with grades exceeding 8.3 percent. The ADA requires the running slope of sidewalk adjacent a roadway to be no greater than five percent, or less, of the same grade as the roadway; however, sidewalks may follow the slope of the adjacent roadway, if less this standard is technically infeasible (as noted above).

2.1.2 Geology

Identifiable soils in the area are present on mesa tops and include Carjo loam and the Mirand-Alanos complex. Carjo soils occur on mesa tops, ridges, hills, and mountainsides with slopes from 0-20%. Carjo

Figure 1 | Los Alamos County Location

soils are formed from tuff and sandstone, and are moderately deep and well drained. The Mirand-Alanos complex consists of deep, well drained soils occurring on slopes of 1-50%, primarily on hillsides and mountain slopes. The soils are derived mainly from tuff and rhyolite.

Potential rockfall areas are located along the southern cut slopes of NM 502, between the turnoff to NM 4 and the Los Alamos/Santa Fe County Boundary. Within the townsite of Los Alamos, pedestrian facilities located at the intersections of San Ildefonso/Diamond Drive and North Road/Quemazon potentially could be impacted by rock fall

2.1.3 Climate

Situated at over 7,000 feet AMSL, Los Alamos County generally is cool in the summer and cold in the winter. High temperatures in the summer average around 80 degrees Fahrenheit, and the average winter temperature is around 40 degrees Fahrenheit. The area receives more rainfall than other parts of the New Mexico, due to the combined effects of a more northern latitude and effects of orographic lift caused by the Jemez Mountains. Average annual precipitation is 19 inches, including over 30 inches of snow.

2.1.4 Vegetation

Vegetation primarily is Lower Montane Coniferous Forest, dominated by ponderosa pine, pinon pine, and juniper with several species of oak. Broadleaf shrubs and grasses constitute the vegetative understory.

2.2 Regional Access

Los Alamos County, being located in an isolated, mountainous area, has limited roadway access to the rest of New Mexico. Interstate 25 (I-25) is the nearest major interstate highway, passing through the southern portion of Santa Fe, the State Capital (**Figure 2**). I-25 is approximately 38 miles to the southeast of the Los Alamos townsite via NM 502, an east-west Minor Arterial on the State Highway System (SHS), and US 84/285, a north-south Principal Arterial on the SHS. Access from the townsite to the western part of the state is provided by NM 501 via NM 4, both Minor Arterials. Regional Access for the community of White Rock is provided by NM 4, which connects with NM 502 north of the community and loops south around the LANL, a large area set aside for scientific and testing purposes, to the northwestern part of the State.

2.2.1 Los Alamos Townsite

The elevation at the Los Alamos post office is 7,320 feet, and the total land area of the townsite is 11.14 square miles. The townsite of Los Alamos serves as the county seat. It is connected to the State Highway System (SHS) by three State Routes – NM 4, NM 501 (Jemez Road), and NM 502, referred to the “Main Hill Road” (**Figure 3**). Although being located in a very isolated mountainous area approximately 10,000 commuters use NM 502 daily from various locations to the east. NM 502 connects downtown Los Alamos and Los Alamos Airport directly with the north-south US 84/285 approximately 18 miles to the east. US 84/285 provides connectivity with the communities of Española and Santa Fe, located north and south of the NM 502 interchange with US 84/285, respectively. The Pueblo of Pojoaque is located at this interchange, and several smaller pueblos are located along NM 502 between Los Alamos and US 84/285. NM 4, which connects with NM 502 in Santa Fe County to the east, providing access to the community of White Rock. NM 501 also connects with NM 4 in Santa Fe County, as well as south of Los Alamos, providing access via NM 4 to communities in neighboring Sandoval County to the west.

Figure 2 | Regional Access

Figure 3 | Los Alamos Townsite

2.2.2 White Rock

White Rock, is a small isolated community, located on the western side of the Rio Grande overlooking White Rock Canyon. White Rock, like Los Alamos is a CPD, is largely a bedroom community for employees of LANL and their families (**Figure 4**). Residents must rely on NM 4 for access to regional destinations other than Los Alamos. Access between White Rock and Los Alamos accommodated via three roadways: NM 501, NM 502, and Pajarito Road. All three roads are all-weather, paved, two-lane facilities with paved shoulders. Since the attacks of September 11, 2001, Pajarito Road for security reasons has been restricted to LANL badge holders; check/access control points are manned at both ends of the roadway.

Pajarito Canyon splits the community into two very different types of residential development. Medium-density urban-type subdivisions (4-5 dwelling units per acre) characterize the northern half of the community – north of Pajarito Canyon. Low-density (one dwelling unit per acre) residential development characterizes the southern portion of the community – south of Pajarito Canyon. Administratively, the community of White Rock is a neighborhood of Los Alamos; locals refer to Los Alamos (read not White Rock) as "the Townsite," or "the Hill."

The commercial center of White Rock, established mostly on the south side of NM 4, has been in decline since approximately 1990, due in part to loss of retail revenues to the Internet and to "big box" stores in nearby communities. Los Alamos County recently began a major effort to revitalize the White Rock commercial center by improving infrastructure and seeking to attract new businesses. Part of the motivation for this effort is the transfer to Los Alamos County of Department of Energy lands just north of NM 4. The revitalization effort has emphasized community input and, presently, is being driven by the White Rock Master Plan Implementation Committee with support of the County Council.

2.2.3 Transit System and Airports

A countywide transit system is operated and maintained by Los Alamos County. The system links with an NMDOT Park-and-Ride (P&R) located within Los Alamos. The system also serves the transit needs of Bandelier National Monument from the White Rock Visitors Center.

Los Alamos County Airport, located at the eastern edge of Los Alamos on the north side of NM 502, is the only airport in the County. The main source of air traffic activity is small private aircraft, with intermittent commercial commuter service.

2.3 Social Characteristics

2.3.1 Population

According to the County's Web site, the current population is approximately 17,000 people residing in two communities areas recognized as census-designated places. The "townsite" of Los Alamos (the community is not incorporate) has about 10,500 residents and experienced slight growth in population from 2000 to 2010 or 0.9 percent. The community of White Road approximately seven miles the southeast with a population of 6,500 residents. Between 2000 and 2010, the community experienced a 5.3 percent reduction in population.

2.3.2 Principal Employers

LOS ALAMOS NATIONAL LABORATORY

Los Alamos National Laboratory is the area's largest employer (10,500 employees) and foundational to the economy of Los Alamos County. LANL currently operates on an annual budget of about

Figure 4 | White Rock

\$2.45 billion, and expectations are the current level of activity at the Laboratory will be sustained for the near future. Approximately 40% of the laboratory's employees live in Los Alamos at the Los Alamos townsite and in White Rock. The remaining employees commute from Santa Fe, Española, Taos, and Albuquerque.

OTHER MAJOR EMPLOYERS

Other major employers in Los Alamos County include: Smith's Food and Drug, Los Alamos National Bank, Los Alamos Medical Center, National Security Technologies, **Los Alamos County**, Los Alamos Public Schools, and Del Norte Credit Union.

LOS ALAMOS COUNTY PUBLIC WORKS DEPARTMENT

Los Alamos County's Public Works Department has various divisions to serve the needs of the County and its two communities. It effectively maintains a high quality of life for County residents and businesses. The Department continually develops innovative ways to deliver services in a cost-effective manner and follows environmentally sound practices with a focus on strategic planning and the use of new technology to meet the needs now and into the future.

Nine divisions – Administration, Airport, Custodial, Environmental Services, Engineering and Project Management, Facilities, Fleet, Traffic & Streets, and Atomic City Transit – comprise the full responsibilities of the Department. Department responsibilities also include operating and maintaining the County's Transportation System, waste collection and recycling processes, and county facilities. Activities include: planning, designing, and construction of the County's infrastructure; managing the County's environmental program; operation and maintenance of the County's streets and traffic control network; and operation of the Airport and Atomic City Transit. The department also is responsible for providing maintenance services (custodial and preventative) for the forty-five County buildings.

Engineering and Project Management, Traffic & Streets, and Facilities specifically oversee the installation and maintenance of pedestrian facilities within the County. Each division operates under their separate budget program plans. Generally, projects under each of these divisions may include installation and maintenance of pedestrian facilities within the County.

3.0 ADA Program

To ensure accessibility throughout the community for people with disabilities, this ADA Transition Plan is based on best practices for accessible public Right-of-Way (ROW). The commitments set forth herein are focused on making the County's curb ramps, sidewalks, and crosswalks established for pedestrian movements fully accessible in accordance with ADA guidelines. To implement this program, this ADA Transition Plan considers the following elements essential for compliance.

3.1 Responsible Official – ADA Coordinator

Effective communication is essential to addressing all concerns of complaints of all individuals (residents and visitors) in the County. Therefore, the LAC Public Works Director (Director) is designated as the ADA Coordinator for Los Alamos County and is directed to maintain open and effective lines of communication among and between all interested parties. The Director is responsible for development and implementation of the LAC ADA Transition Plan. As the ADA Coordinator, the Director shall coordinate the County's efforts to comply with and carry out its responsibilities under Title II of the ADA, including any investigations of any complaint communicated or submitted to the County. Such

complaints may take the form of alleging noncompliance with ADA mandates or alleging any actions that would be prohibited under the ADA. The Director shall make available to all interested individuals the name, office address, and telephone number of the employee(s) designated as support for ADA compliance and shall adopt and publish procedures for the prompt and equitable resolution of complaints.

Any complaint(s) relating to ADA regulations or compliance with such requirements must be directed to the LAC ADA Coordinator. The grievance procedure is described in the next section of this report. Los Alamos County establishes with this ADA Transition Plan the following understanding: If there a complaint arises that is not directly attributable to a curb ramp or sidewalk or any other roadway infrastructure the is part of the County transportation system, but relates to an accessible path to these facilities, the complaint will be forwarded to the agency or private party with responsibilities within their ability to address the complaint. This cooperative practice is considered instrumental in addressing compliance questions and concerns by reducing the confusion relating to jurisdiction and ownership of pedestrian facilities.

3.2 Internal Review

In June 2004, LAC conducted an inventory of the County's roads and streets. Most recently, in May, 2017, LAC evaluated for ADA compliance curb ramps associated with the roads and streets and established a commitment to upgrade and implement ADA regulations. Furthermore, LAC will annually review its fiscal allocation for ADA compliance with the intent to (1) improve facilities with existing deficiencies that present physical barriers to individuals with disabilities and (2) assure implementation of ADA regulations in conjunction with new transportation infrastructure projects.

3.3 Self-Evaluation

LAC conducted an inventory of all curb ramps and sidewalks considered integral to the County transportation infrastructure during May, 2017. The results of the inventory can be found **Appendix A** and **Appendix B**, respectively. The visual assessment was performed using imagery available through Google Earth and other appropriate Internet-based sources, ArcMap GIS mapping database, and input from the LAC Department of Public Works staff. The inventory identifies any physical barriers (actual and potential) to accessibility by persons with disabilities.

LAC recognizes pedestrian facilities and compliance with ADA regulations are the responsibility of the County and the Department of Public Works, as cited above. Some pedestrian facilities, subject to ADA and within County ROW, may connect to the County-owned facilities. Together, the ADA Coordinator, working cooperatively with other public agencies, plays a key role in assuring safe and secure pedestrian access to government programs and services provided by these agencies. The inventoried curb ramp and sidewalk pedestrian facilities under County jurisdiction and responsibility are addressed by this ADA this Transition Plan. The LAC commitment is as follows:

- All new construction, reconstruction, or alterations of the County transportation infrastructure, including Federal projects under the control and/or inspection of the NMDOT or LAC Department of Public Works, will be accomplished in compliance with ADA regulations; and
- In setting timelines for implementing this ADA Transition Plan for existing curb ramp and sidewalk enhancements, the actual number of ADA-related pedestrian facility improvements accomplished in any given year is understood to be a function of LAC Department of Public Works Maintenance Program and is limited by the Department's financial and administrative

constraints. Missing or individual ADA-related pedestrian facilities in need of improvement shall be prioritized, based on surrounding land use(s), potential for positive impact to the community, and availability of land for improvements.

An Action Plan subsequently was completed by LAC, listing specific upcoming projects and/or facilities modifications needed. The target dates by which LAC will make necessary changes, modifications, and improvements will be consistent with projects listed in the 5-year Capital Improvement Plan (CIP), Annual Concrete Replacement Budget, and 5-year Major Facilities Maintenance (MFM) Program Plan.

3.4 Public Review and Comment Process

ADA regulations require LAC to “...provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the development of the transition plan by submitting comments. A copy of the transition plan shall be made available for public inspection.”⁵ Clearly, public input is necessary and desirable to assure those directly affected by ADA-related facilities and improvements understand the scope of work and the responsibilities held by the LAC. LAC residents had the opportunity to review this ADA Transition Plan through the following outreach efforts as outlined in the Public Information and Involvement Plan included in **Appendix C**:

- **Online Access:** A draft of this report was uploaded in the County FTP Web site on September 30, 2017. The following organizations were contacted and made aware of the report’s availability for review and comment:
 - All Individuals First (Adult Care Facility)
 - LA Walks (Walking Advocacy Group)
 - Senior Care Facilities
 - Los Alamos Medical Center
 - Los Alamos Public Schools
 - General Public Notification via Local News Media
- **Transportation Board Meeting/Presentation:** Presentation to the Transportation Board with an invitation to all other organizations identified. The Transportation Board meeting is open to the public and, therefore, serves as a Public Meeting. Two Transportation Board meetings/presentations are to be held for this report. A project presentation will be given at the beginning of the meeting and the agenda and recorded meeting can be found at the follow link: <http://losalamos.legistar.com/Calendar.aspx>. At the end of the presentation, attendees were given the opportunity to ask any questions or provide comments.
 - First of two Transportation Board Meetings/Presentations – Scheduled on October 5, 2017. Public comment was due by October 19, end of business day. All comments and concerns were addressed with changes/modifications to draft ADA Transition Plan completed by October 27. Revised draft ADA Transition Plan subsequently was resubmit for uploading to the County FTP Site for review. A newspaper add was included in the LA Daily Post for the meeting and a follow up article was written in the paper about the ADA Transition Plan and T-Board meeting. These have been included in **Appendix C**.
 - Second of two Transportation Board Meetings/Presentations – Scheduled on November 2, 2017. Any additional public comments or concerns relating to the Draft ADA Transition

⁵ Title II Regulations, 28 CFR Part 35, US Department of Justice, pg 43.

Plan with changes were required to be submitted before the Final LAC ADA Transition Plan was transmitted to NMDOT in December, 2017.

- **The Final LAC ADA Transition Plan** document is a living document, which can be amended by the County at any time, subsequent to public review or proposed changes/modifications. In any case, LAC Department of Public Works shall review the ADA Transition Plan on a yearly basis or whenever new ADA mandates require updating elements of the plan.

3.5 Grievance Procedures

ADA regulations require LAC to adopt and publish grievance procedures that effectuate prompt and equitable resolution of complaints or grievances alleging any action that would be prohibited by Title II of the ADA. Any person with a disability or any parent or guardian, who represents a minor person with a disability, who believes that they have been the subject of disability-related discrimination on the basis of the denial of or inability to access public facilities, programs, or services, may file a grievance or complaint. The complaint should be in writing and contain pertinent information regarding the alleged discrimination, such as: name, address, phone number of complainant, location of the incident, date of incident/event/occurrence, and description of the problem(s) encountered. A Grievance Form is provided in **Appendix C** of this document.

Contact may be made with the LAC ADA Coordinator, as shown below:

Department of Public Works
Attention: Public Works ADA Coordinator
1000 Central Avenue, Suite 160
Los Alamos, NM 87544
LACPW@lacnm.us

The email address cited above may be used to submit the complaint electronically. It also may be used and transmitted, through the US Postal Service, or hand carried. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available upon request for persons with disabilities that preclude their use of the aforementioned methods.

The complaint should be submitted by the grievant and/or his/her designee as soon as possible but no later than 30 calendar days following the alleged incident. Within 15 calendar days after receipt of the complaint, the LAC ADA Coordinator or his/her designee will contact and meet with the complainant to discuss the complaint and the possible resolutions. Within 15 calendar days of the meeting, the LAC ADA Coordinator or his/her designee will respond in writing, and, where appropriate, in a format accessible to the complainant, such as large print, Braille, or audio tape.

If the response by the LAC ADA Coordinator or his/her designee does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision to the LAC ADA Coordinator or his/her designee within 15 calendar days after receipt of the response.

Within 15 calendar days after receipt of the appeal, the LAC ADA Coordinator or his/her designee will contact and meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the LAC ADA Coordinator or his/her designee will provide a response in writing and, where appropriate, in a format accessible to the complainant, explaining the position of LAC and offer options for substantive resolution of the complaint with a final resolution.

All written complaints received by the LAC ADA Coordinator or his/her designee, appeals, and responses will be retained by the LAC ADA Coordinator for at least one year after the grievance has been resolved.

4.0 ADA Transition Plan

4.1 Prioritization

LAC is responsible under ADA regulations to identify barriers and impediments to accessibility and implement a corrective program. The inventory completed to support preparation of this ADA Transition Plan resulted in identification of 941 curb ramps in the Los Alamos townsite and 327 in White Rock for a total of 1,268 curb ramps. Although curb ramps are present almost everywhere in the two LAC communities, there still are locations where: no ramps exist when sidewalks/pedestrianways are present; connecting sidewalks/pedestrianways are not present for curb ramps to be installed; and curb ramps are present, but there are no connecting sidewalks/pedestrianways.

To fulfill LAC responsibilities with respect to the ADA regulations, the County has used the current inventory to prioritize the siting and installation of curb ramps to improve accessibility and connectivity. The County will commit, upon fund availability, the implementation of ADA-compliance projects. Actions to install new ramps and upgrade existing ramps will be determined according to criteria set forth herein. In addition, future development projects involving impacts on public ROW will not be approved without inclusion of plans to further enhance pedestrian facilities in accordance with this ADA Transition Plan and applicable ADA regulations. The following criteria will guide further development and enhancement of accessibility associated with the LAC transportation infrastructure:

1. "High" priority –
 - a. Funded Projects and projects to be funded within the next 5-10 years.
 - b. Intersections along Arterial roadways
 - c. Intersections within a 500' radius of public facilities, including, but not limited to: schools, colleges, County facilities, or Downtown Districts
2. "Medium" priority –
 - a. Collector roadways
 - b. High-density residential areas
3. "Low" priority –
 - a. No curb and gutter
 - b. No sidewalk
 - c. Low-density residential areas

As noted earlier, **Appendix A** and **Appendix B** present the results of the LAC Self Evaluation and identify priorities for curb ramps and sidewalks, respectively. Projects were given a high priority based on their access to public facilities. Medium-priority designations were assigned to other Collector roads and low-priority designations were given to roadways that had no existing curb and gutter. Additional criteria were utilized to identify curb ramp characteristics determined priorities, including visual survey results, presence of a pedestrian actuated signal device, presence of physical obstructions, and presence of a detectable surface.

The Medium- and Low-Priority projects will be completed as money becomes available. The proposed funding and timeline for available funding will be driven by Construction Projects and Major Facilities Maintenance Schedules (see Section 6.0).

4.2 Targeted Barrier Removal Projects

Sidewalks, street crossings, and other elements or features in the public ROW can pose challenges to accessibility by persons with disabilities. Many of these elements have been integrated with the public ROW over time, due to the lack of adequate and clear guidance from public agencies. Barriers to access may include: lack of curb ramp; inconvenient location of signal control at crosswalk; a lip at the toe of a ramp; an inordinately narrow walkway/pedestrianway, creating tenuous travel conditions for those with disabilities; obstructions; inaccessible parking area (e.g., van parking) or constrained parking area; and inadequate boarding and alighting area for public transit access.

Most of the existing deficiencies within the LAC public ROW are associated with the presence of physical barriers that cannot be addressed through other options, such as Policy Changes or alternative methods. Therefore, public ROW can only be made accessible via realistic and fundable strategies, such as, curb and gutter modifications, wheelchair ramp construction, some sidewalk modifications, and accessible drop-off zones for vehicles of persons with disabilities. The current inventory and prioritization process permits LAC to target critical deficiencies and program/schedule modifications/solutions as funding becomes available.

LAC is responsible for developing and implementing the ADA Transition Plan relative to the County's transportation infrastructure and, in particular, public ROW and accessibility to same. The purpose of this ADA Transition Plan is to ensure the County's existing transportation infrastructure is accessible, barrier-free, and promotes the mobility of its residents and visitors. All ADA-related improvement projects must comply with all applicable ADA regulations and other Federal and State laws relating to non-discrimination, specifically those protecting persons with disabilities. When appropriate, LAC will replace existing facilities in non-compliance with ADA regulations and require the provision of accessible facilities in design submissions for projects affecting public ROW.

In general, the LAC transportation infrastructure has been developed to support travel and access to public buildings as well as other quasi-public and private services. There are, however, instances where access has not been fully afforded for those persons with disabilities. Sidewalks are the primary pedestrianway; therefore, access to public and private destinations in the County, specifically in relation to streets and parking areas, needs to be convenient, uninterrupted, and barrier-free. Unfortunately, there are instances where certain facilities and areas are not easily accessible for persons with disabilities. The listing below highlights certain critical aspects of the County's transportation infrastructure that need focus with respect to presence and type of barriers to accessibility:

1. On-street parking and parking facilities (surface and structured) can lack accessible areas allowing persons with disabilities to safely merge into and out of the necessary pedestrian facilities.
2. Signage may be missing or non-existent; audible instructions may be needed where signage is of no use to a blind individual or one who is visually challenged.
3. Stairs and handrails do not meet the shape and height requirements spelled out in applicable ADA regulations. Visual warnings at tread nose (e.g., yellow highlighting) are not provided or inadequate.

4. The location of fire hydrants and other obstructions (e.g., utility pole, traffic signal pole, trash receptacle, trees and shrubbery) often create barriers to safe, secure, and convenient movement by persons with disabilities, especially persons utilizing a wheelchair or persons who are blind or visually challenged.
5. Landscaping and hardscaping projects have provide beautification to the many areas, but the location, size, and maintenance of project elements can create non-compliant conditions.
6. Curb Drop Inlets and other stormwater drainage features associated with LAC roads and streets may present certain challenges to persons with disabilities, who do not perceived these features properly. Upgrading these facilities may require structural considerations and utility relocation that can only be determined with additional study.
7. Crosswalks and street medians or islands offer pedestrian a safe location for crossing roads and streets. Medians and islands, especially, are important places of refuge, particularly for those persons not capable of completing the full crossing during a single cycle of the intersection traffic signal. There are locations where these features may be warranted and not provided in the past. Creation of pedestrian refuges can only be determined with additional study.
8. Utility poles often are placed near intersections or within sidewalks on roadways with restricted ROW and must be at least 36 inches from the back of curb to assure adequate width for safe, secure, and convenient pedestrian movements.

4.3 Inventory

Table 1 summarizes the types of deficiencies associated with the LAC transportation infrastructure in the Los Alamos townsite and White Rock. A detailed inventory of curb ramps and priorities established for each is presented in **Appendix A**.

Table 1 | Summary of ADA Priorities

LAC District	Number of Curb Ramps	Priority		
		High	Medium	Low
White Rock	327	32	157	7
Los Alamos	941	216	336	91
Total	1,268	248	493	98

Source: Appendix A, Detailed Inventory of Curb Ramps – LAC Self Evaluation

4.4 ADA Standards/Guidelines

The standards/guidelines presented in this section are intended to apply to all curb ramp and sidewalk construction undertaken by the LAC within public ROW and/or where private land easements exist. The NMDOT PROWAG design guidelines and standard drawings will serve as the primary guidelines and standards used to evaluate existing facility compliance in this plan and assess design submission presented in relation to future developments in LAC that impact the public ROW. Other standards, as may be necessary and appropriate, will be applied at the discretion of the LAC ADA Coordinator. Guidelines and standards set forth by the USAB, *Chapter R3 - Technical Requirements*, are to be used to conduct assessments of ADA compliance and evaluate drawings and other submissions for

modifications to existing ROW and plan for future ROW within LAC. The relevant USAB documentation can be found using the following hyperlink:

<https://www.access-board.gov/guidelines-and-standards/streets-sidewalks/public-rights-of-way/proposed-rights-of-way-guidelines/chapter-r3-technical-requirements>

Standards and guidelines relating to curb ramps, sidewalks, and accessible pedestrian signals are presented in **Appendix D**.

5.0 STRATEGY

The LAC Public Works Department and its various divisions operate as one entity to serve the community's needs and effectively maintain a high quality of life for LAC residents and businesses. LAC emphasizes its efforts in several areas to meet the requirements of the ADA Transition Plan. The following strategy has been established to assure LAC transportation officials and the ADA Coordinator will have the most appropriate and effective framework for: (1) assessing ADA compliance issues, (2) engaging in actions to mitigate non-compliance, and (3) evaluating plans, drawings, and other submissions associated with new development-related actions that impact accessibility associated with the public ROW.

5.1 New Development and Substantial Improvements

LAC, through its permitting process of new residential and commercial construction includes assessment of submitted plans for compliance with ADA regulations, and assures appropriate curb ramps are incorporated in accordance with ADA standards (refer to Section 4.4). Furthermore, the Department of Public Works, in conjunction with LAC Community Development Department, also inspects and enforces adherence to the County Development Code during construction and reconstruction projects. The permit review and inspections/enforcement activities ensure curb ramps and sidewalk placements are appropriately located and installed in compliance with ADA regulations and standards. A Certificate of Acceptance is granted, when all work is completed to the County's satisfaction.

5.2 In-House Repair and Replacement of Curb Ramps and Sidewalks

The LAC Traffic and Streets (T&S) Division of the Department of Public Works performs curb ramp and sidewalk repair and replacements as part of its regular and ordinary mission to maintain the County's roads and streets. Whereas, the Facilities Division performs similar work in its building facilities and within its grounds. All related work is performed yearly through program planning or as the critical need dictates. Both departments often utilize the Annual On-Call Concrete Replacement Services Contract when workload is high and manpower is insufficient to meet their scheduled objectives. The LAC Capital Projects and Facilities Department (CPFD) performs curb ramp and sidewalk repair and replacements. Depending on high workload, the County utilizes the annual on-call concrete contract.

5.3 Annual On-Call Concrete Contract

LAC contracts for installation of new ramps, sidewalk, and bus stop pads on an annual basis, through its *On-Call Concrete Replacement Services* contracting process. The Department of Public Works utilizes a Professional Services Agreement (PSA) to engage qualified firms in public improvement projects with the experience and qualifications to fulfill ADA regulations. The PSA permits the Department to select

the most qualified-responsive-responsible offeror/bidder through an established selection process in accordance with the County's procurement code.

5.4 Utilities

Whenever a utility relocation involves road reconstruction or alteration, the County ensures ADA regulations are implemented as part of any permit or design submission. Because the removal or modification of sidewalks and curb ramps can occur during these types of projects, LAC strives to ensure good communications between the County Utilities Department, Private Utility Entities, and Department of Public Works. The LAC permitting process ensures ADA regulations are followed at the time of activity. Weekly Utility-Public Works (UPW) coordination meetings open to private utility entities provide status briefings relating to preconstruction actions. The County's coordination/communication methods occur routinely to reinforce the mutual understanding of proper implementation of the LAC Transition Plan procedures and requirements.

5.5 County Infrastructure Projects (Roadway/Drainage)

LAC creates individual projects based on pavement and roadway asset condition and funding availability. When a street reconstruction project or is undertaken or other modifications are implemented that directly impact pedestrian access, the County ensures ADA ramps regulations are implemented as part of any permit or design submission. When street reconstruction or new constructions occurs or there are major modifications to an intersection, the County requires installation of appropriately designed curb ramps in accordance with ADA regulations.

5.6 Curb Cut and Driveway Placement Permits

Business and residential construction development plans for a project are required to obtain curb cut permits for new driveway placements. Permitting fees cover the cost of initial and final site inspections conducted by Department of Public Works staff. The inspections ensure curb cuts and driveway (i.e., apron area where the driveway from/to an abutting property meets the street) design and placement, particularly those adjacent to or crossing sidewalks, are constructed in compliance with ADA regulations and conform to current ADA standards.

6.0 FUNDING

The LAC Department of Public Works has three Divisions dedicated to maintaining and improving, as appropriate, pedestrian facilities that are part of the County's transportation infrastructure – Engineering and Project Management (EPM) Division, T&S Division, and the Capital Projects and Facilities (CPF) Division. Each of these divisions is funded in accordance with the Department's overall budget which is part of the County's the 5-year Capital Improvement Plan (CIP), Annual Concrete Replacement Budget, and 5-year Major Facilities Maintenance (MFM) Program Plan, as noted earlier.

The EPM Division oversees major pavement rehabilitation, reconstruction projects (including pedestrian facilities within the project envelope), and the study, design, and construction of capital improvement projects. EPM funding sources are drawn from the 5-year CIP. The CIP derives from the County's General Fund comprised of revenues derived through the States Gross Receipts Tax, Gas Tax, and Grants. Specific grants may include those from the Local Government Road Fund (LGRF) administered by NMDOT District 5.

The T&S Division oversees traffic and street operations, including maintenance of roadway elements, such as signage, pavement markings, street lighting, signalization with pedestrian push-button stations (some with audible technology), crosswalks, sidewalks, drivepads, curbs, and gutters. This Division is instrumental in assuring that accessibility within the LAC transportation infrastructure is maintained in good repair. T&S operates under an annual budget, requiring year to year monitoring to ensure funding levels are adequate; if any amount is not spent by the end of fiscal year, they are considered as surplus and are returned to the County's General Fund. T&S concentrates on spending its remaining sources towards addition concrete replacement on top of what it already scheduled through its pedestrian facility improvement practices under its pavement preservation and maintenances program.

The CPF Division provides preventive maintenance for County buildings & grounds, initiates major repairs, provides work space planning support, supports emergency facilities and services, reviews contract documents for contracted capital facilities construction and maintenance projects, and performs small construction projects with its licensed contractor staff. CPF funding sources may be drawn from approved bonds to support major capital outlay projects. Other funding sources include those from County's General Fund generated from local GRT which may be carried over from the prior fiscal year(s).

LAC continues to commit funding towards the primary missions of these three Divisions. Projects to create new and improve existing ADA-related facilities are integrated with the activities of the three Divisions. The responsibilities of the three Divisions include assuring developer impacts on the public ROW do not compromise the objectives of ADA legislation and published regulations. The Divisions constantly review actions to improve existing facilities and new construction to assure enhance accessibility of pedestrian facilities.

Table 2 identifies the schedule of upcoming CIP projects for Fiscal Years (FY2018 – FY 2022) with the respective funding. Total CIP funding through the next five years (FY2018 – FY2022) equals \$18,442,080.

The scope of roadway reconstruction projects listed in Table 2 includes the replacement of all curbs, sidewalks, and curb ramps. The table also identifies three (3) stand-alone trail projects scheduled within the first three years of the current CIP; trail design will incorporate the latest ADA standards to assure multi-use by County residents and visitors. If budget shortfalls occur during this period, EPM is responsible to make termini adjustments with appropriate phasing, assuring successful completion of project goals.

T&S typically has a \$600,000/FY fixed budget to handle general roadway maintenance including pavement preservation, pavement maintenance, roadside maintenance and snow removal. T&S allocates approximately \$200,000/FY of this budget to replace curb ramps and sidewalk. These replacement and repair actions are conducted county-wide on a prioritized basis.

Table 3 shows the FY 2018 – FY 2022 budget for maintenance projects associated with major County facilities. The total budget of \$2,646,666 includes \$806,619 carried over from prior years. These projects will include reviews for ADA compliance and additions and/or modifications of ADA-related facilities will be made, as appropriate.

Table 2 | Road Construction Projects: FY 2018 – FY 2022

Street Priorities Based on Average Pavement Condition Index (PCI)			
Description	Location	Avg. PCI	Budget Amount
FY2018			
North Mesa Phase 1B - Cumbres del Sol Subdivision	Camino Cereza	35	\$ 1,680,000
	Camino Mora		
	Camino Manzana		
Project Development, Standards & Guidelines	NA	N/A	\$ 200,000
Urban Multituse Trail (Possible Grant Match)	20th/Trinity to Canyon Road	N/A	\$ 70,000
FY2018 Adopted Budget			\$ 1,950,000
FY2019			
Deacon Street	20th to 15th	42	\$ 2,000,000
DP Road	Trinity to A-16-a	50	\$ 1,500,000
Canyon Rim Trail Phase 3	Knecht to 15th & 20th Street	N/A	\$ 427,080
Various Roads - Project Development	NA	N/A	\$ 20,000
FY2019 Projected Budget			\$ 3,927,080
FY2020			
Sherwood Boulevard	Grand Canyon to Aztec	41	\$ 2,500,000
Various Roads	TBD	N/A	\$ 815,000
Urban Multiuse Trail (Segments 1 & 2)	20th/Trinity to Canyon Road & Aquatic Center	N/A	\$ 750,000
FY2020 Projected Budget			\$ 4,065,000
FY2021			
North Mesa Phase 2 - Pueblo Canyon Cliffs 1	Capulin	43	\$ 2,600,000
	Oro Ct.		
	Big Rock Loop (San Ildefonso South)		
	Cedro Ct.		
	Alamo (& Tsankewi-Capulin to Alamo)	43	\$ 1,587,000
Barranca Mesa 3 Subdivision Phase 1	Turquoise		
	Kachina		
	Encino		
	Obsidian		
	Tecolote		
	Escondido		
FY2021 Projected Budget			\$ 4,187,000
FY2022			
North Mesa Phase 3 - Loma Linda Subdivision	Loma Linda Drive	47	\$ 1,800,000
	La Tierra		
	La Mirada		
North Mesa Phase 4 - Cumbres del Norte Subdivision	Camino Redondo	48	\$ 2,513,000
	Camino Medio		
	Cumbres Patio		
FY2022 Projected Budget			\$ 4,313,000

7.0 Unit Cost Estimate

Typical unit costs have been estimated for each of the NMDOT standard types of curb ramps inventoried in LAC (**Table 4**). The average cost of a curb ramp is approximately \$3,600. The highest unit cost is associated with the Combination Curb Ramps Type C \$8,552. The lowest unit cost is associated with the Parallel Curb Ramps (Blocked End) - \$1,594. The installation type for each curb ramp will need to be evaluated during the planning stage of any improvements and submitted for ADA Coordinator review and input. **Appendix E** shows the basic or typical concepts for perpendicular, parallel and combination curb ramps. A full description and layout for each of the NMDOT curb ramps can be found on the NMDOT website at:

http://dot.state.nm.us/content/dam/nmdot/Plans_Specs_Estimates/Standard_Drawings/608.pdf

Appendix C

PUBLIC INVOLVEMENT AND INFORMATION PLAN

LOS ALAMOS

PROJECT PUBLIC INFORMATION & INVOLVEMENT PLAN

Los Alamos County
Public Works Department
2017 ADA Transition Plan

Public Works Department - (505) 662-8150

Project Name: 2017 ADA Transition Plan

PIIP Revision #: 0

Department: Public Works

Project Manager: Audoro Espinoza

Department Director: Philo Shelton

PIO Assigned: Louise Romero

PIIP Phase: ___ Conceptual ___ Design ___ Construction X Administrative

Project Purpose and Scope: To comply with NMDOT and FHWA requirements for Los Alamos County to remain eligible to receive federal transportation funds. The ADA Transition Plan consists of a self-evaluation of county transportation and public facilities for ADA compliance and to identify and plan for ADA improvements for persons with disabilities.

- 1. Does this project support any of the Council's Strategic Goals? If so, which one(s)?** Yes, improve mobility and Economic Vitality.
- 2. Is this an approved CIP?** Yes, FY18. Portion of \$200K programmed for "Project Development, Standards & Guidelines.
- 3. What is the project location? Describe or supply map.** County wide.
- 4. Who will be affected by the project?** General public, particulars those interested with improving access for the disabled.
- 5. Who is your audience – who are you talking to?** General public.

6. **Explain the steps for accomplishing the project and provide estimated timeframes for each step.**
 - A. Transportation Board and Public presentation October 5, 2017.
 - B. Transportation Board and Public presentation November 2, 2017.
 - C. Final completion due to NMDOT – December 2017
7. **Does this project relate to projects in progress or in the future?** Yes, completion of the plan will help the County remain eligible to receive federal funding assistance for current and future federally funded projects.
8. **Project start and completion dates:** Anticipated start date March 2017 with an anticipated completion December 2017.
9. **Project cost and funding source:** Task 1: Self Evaluation - \$28,822; Task 2: Transition Plan \$31,656, excluding NNGRT.
10. **The intent is to inform, educate and involve the public.** Inform, educate and involve.
 - A Project webpage has been established; the draft plan is available online, a link to the Public Works inbox is provided for residents to submit comments.
 - Flyers were hand delivered to All Individuals First (Adult Care Facility).
 - Flyers were given to the LA Walks Group
 - Posters were provided to the Senior Care Facilities, Los Alamos Medical Center, Visiting Nurses, and the Los Alamos Schools
 - Posters were placed on the Atomic City Transit buses
 - Ads will be placed with information regarding the public meetings that will be held in conjunction with the Transportation Board meetings. The ads will have a link to the ADA Transition Plan webpage.
11. **Describe the issues the public may have regarding the project:** Intent of the plan is not to program funds for specific improvements, but to identify needs to assist in that regard.
12. **Describe constraints on the project (with regard to public information), such as critical timeframes, other.** Plan is due to NMDOT by December 2017.
13. **Will you be holding a public meeting/open house to solicit input or inform the public of a project?** Yes, conducted in coordination with a regular Transportation Board meetings scheduled for October 5th, and November 2nd, 2017.
14. **How many and at what stage of the project do you anticipate holding the meetings/open houses?** Two, see previous question.

15. Is public comment limited to this meeting? Public comment due date will be October 19th, 2017. However, the plan can be updated annually and comments are always welcome. Specific requests for improvements can also be provided to the Public Works Department at any time.

16. Will further *informational* opportunities be afforded to the public? Yes, through the project web page, and press releases (as necessary). Project staff are available to respond to questions and provide information as needed and upon request.

17. What is the detailed plan for the PIIP? For Informational Purposes only.

Estimated PIIP? \$1,000

Public Input Requested For ADA Transition Plan

Submitted by Carol A. Clark
on October 12, 2017 - 7:54am

The Los Alamos County Public Works Department is developing an ADA transition plan. The plan's initial focus includes sidewalks and curb ramps. Photo by Kirsten Laskey/ladailypost.com

By KIRSTEN LASKEY
Los Alamos Daily Post
kirsten@ladailypost.com

The Los Alamos County Public Works Department is seeking the public's input on its Americans with Disabilities Act (ADA) Transition Plan.

In March, Wilson & Company, an engineering firm from Albuquerque, was hired by the County to assemble the plan. A first draft of the plan was presented to the Transportation Board during its Oct. 5 meeting, but the public has more opportunities to provide feedback.

The plan can be accessed on the County website at <https://www.losalamosnm.us/cms/One.aspx?portalId=6435810&pageId=6503682> and input may be provided either by emailing the Public Works Department at lacpw@lacnm.us or calling 505.662.8150. A second draft will be presented to the Transportation Board at its Nov. 2 meeting.

County Engineer Eric Martinez explained the transition plan includes several components including establishing an ADA policy, performing a self-evaluation of existing pedestrian infrastructure to identify physical barriers that limit accessibility, establishing grievance/complaint procedures, identifying methods to improve accessibility, and designating a responsible official or ADA Coordinator to implement the plan. As the Public Works director oversees transportation and facility infrastructure and programs, Department Director Philo Shelton is the designated responsible official.

Work on the transition plan began upon being notified by the New Mexico Department of Transportation (NMDOT), working on behalf of the Federal Highway Administration, as an effort to ensure compliance with federal ADA statutes. Martinez said NMDOT is requiring all local agencies comply with federal statute on ADA transition plans as a condition of receiving federal transportation funding.

This is a statewide effort by NMDOT that affects all municipalities. NMDOT also must meet the same requirement by drafting their own transition plan for state facilities. State highways under NMDOT jurisdiction like N.M. 502 (Trinity Drive) and N.M. 4 in Los Alamos must be included in NMDOT's transition plan.

"Identification of physical barriers for all County owned facilities is a large effort, so our initial focus as recommended by NMDOT has been on the street right of way which includes features like sidewalks and curb ramps," Martinez said. "In this case, the community is our biggest resource with helping us identify needs to improve accessibility for the disabled, so we encourage folks to contact us."

The County does not have to start from scratch on this, Martinez said. He pointed out many County facilities are new and built to current codes including ADA. Martinez added new sidewalks and curb ramps are built to comply with ADA despite some challenging terrain in areas. In such cases, ADA allows achieving compliance to the maximum extent feasible.

"We plan projects on a yearly basis, and when we implement those projects, current ADA design and construction standards are utilized for both facilities and streets," Martinez said. "We do a great job with addressing ADA needs in maintenance and new construction projects, but understand there's still work to be done."

Some members of the public weighed in during the Transportation Board meeting. Wendy Swanson, a member of the advocacy group, LA Walks, said although she found some inconsistencies in the way the data appears in the plan, she was generally pleased with the plan.

"Overall the plan sounds good to me," Swanson said.

Doris Roberts, owner of All Individuals First, wondered about funding.

"I've been part of the ADA policy since 1973 ... I have deaf parents, I've taught deaf special needs students for 27 years, I have my business ... so I am very familiar with ADA. I'm also familiar with people saying we're adopting this and we do all this work but there's no funding that goes with it," she said.

Roberts added that while Public Works has been great to work with, she has a client who is in an electric wheelchair and must help her get from one sidewalk to another, at times by getting into the street to assist her. Ultimately, Roberts asked what the transition plan will ultimately bring.

"Where is this leading, I guess is my major question," Roberts said.

Martinez said the intent of this document is that it is not static and sets a path toward implementation of improvements, which can occur over time. It should be reviewed and updated as needed, Martinez said.

"The community is the department's eyes and ears. If there are things that need to be brought to Public Work's attention, then the department would like folks to make us aware of it," he said.

Many times an ADA concern, like a request for an audible indication at a signalized crossing could be addressed in relatively short order by the County's field crews while larger issues may take time to program. Public Works also is engaged with the NMDOT on larger pedestrian improvements like the N.M. 502 Reconstruction Project and have submitted grant requests to improve Trinity Drive between 15th Street and Oppenheimer.

Martinez said the plan needs to be finalized and submitted to NMDOT by Dec. 22 for its review.

Appendix D

ADA GRIEVANCE PROCEDURE

Introduction

The ADA states that a public entity is required to apprise the public of the protections against discrimination afforded to them by Title II of the ADA, including information about how Title II requirements apply to its particular programs, services and activities [28 C.F.R. § 35.106]. A public entity also is required to provide an opportunity for interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the development of policies and procedures that affect the implementation of an ADA transition plan by submitting comments and making specific recommendations.

A public entity that employs 50 or more persons is required by the ADA to adopt and publish grievance procedures providing for prompt and equitable resolution of complaints or grievances alleging any action that would be prohibited by Title II of the ADA. The County's grievance procedure is described below. Any person with a disability or any parent or guardian who represents a minor person with a disability, who believes that they have been the subject of disability---related discrimination on the basis of the denial of access to facilities, programs or services, may file a grievance or complaint.

Grievance Procedures

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 (ADA). It may be used by anyone, who wishes to file a complaint alleging discrimination based on disability in the provision of services, activities, programs, or benefits by LAC. (NOTE: The LAC's Employee Handbook governs employment-related complaints of disability discrimination.)

The Grievance Form provided in the Appendix should be used for the purposes of communicating any matter of concern regarding accessibility by persons with disabilities. The grievance or complaint pertaining to ADA concerns should be submitted by the grievant and/or his/her designee as soon as possible, but no later than 60 calendar days after the alleged violation. It should be submitted in writing and contain pertinent information about the alleged discrimination, such as name, address, phone number of complainant, location in question, date of incident/event/occurrence, and description of the problem(s) encountered. The Grievance Form will be available online at the LAC's website: www.losalamosnm.us.

The LAC has various options for the public to submit complaints. The email address cited below for the LAC ADA Coordinator may be used to submit the complaint electronically.

Department of Public Works
Attention: Public Works ADA Coordinator
1000 Central Avenue, Suite 160
Los Alamos, NM 87544
LACPW@lacnm.us

The Grievance Form also may be transmitted through the US Postal Service, or hand carried to LAC offices at the address above. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available upon request for persons with disabilities that preclude their use of the aforementioned methods.

The complaint should be submitted by the grievant and/or his/her designee as soon as possible but no later than 30 calendar days following the alleged incident. Within 15 calendar days after receipt of the complaint, the LAC ADA Coordinator or his/her designee will meet with the complainant to discuss the complaint and the possible resolutions. Within 15 calendar days of the meeting, the ADA Coordinator or

his/her designee will respond in writing, and where appropriate, in a format accessible to the complainant, such as large print, Braille, or audio tape. The response will explain the position of the LAC Public and offer options for substantive resolution of the complaint.

If the response by the LAC ADA Coordinator or his/her designee does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision within 15 calendar days after receipt of the response to the LAC ADA Coordinator or his/her designee.

Within 15 calendar days after receipt of the appeal, the LAC ADA Coordinator or his/her designee will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the LAC ADA Coordinator or his/her designee will respond in writing and, where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by the LAC ADA Coordinator or his/her designee, appeals, and responses will be retained by the LAC for at least one year after the grievance has been resolved.

**Title II of the Americans with Disabilities Act
Section 504 of the Rehabilitation Act of 1973
Discrimination Complaint Form**

Instructions: Please fill out this form completely, in black ink or type. Sign and return to the address below:

Complainant: _____

Person Preparing Complaint:
(if different from the complainant): _____

Relationship to the Complaint:
(if different from the complainant): _____

Address: City, State and Zip Code: _____

Telephone: Home: _____

Email: _____

Please provide specific location(s) related to the complaint or grievance (if applicable):

Please provide a complete description of the specific complaint or grievance:

Please state what you think should be done to resolve the complaint or grievance:

Have efforts been made to resolve this complain through the internal grievance procedure of the government, organization, or institution?

Yes _____ No _____

If yes: what is the status of the grievance? _____

☐ Please do not contact me personally

Signature: _____ Date: _____

Appendix E

ADA STANDARDS/GUIDELINES

Introduction

LAC standards are intended to apply to all curb ramp and sidewalk construction undertaken by LAC within public right-of-way (ROW) and/or wherever private land easements exist. NMDOT design guidelines and standard drawings, and the *Public ROW Access Guidelines* will serve as the primary standards and guidelines for this plan. LAC currently is updating the County's existing ADA Standard Drawings to comply with NMDOT Standard Drawings, published in January, 2015, as applicable to new and altered public access routes (PAR) standards. The County also is integrating the *Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* (PROWAG) – published July 26, 2011 (or the latest edition). Other standards, if necessary, will be applied at the discretion of the ADA Coordinator. Specifically, for this ADA Transition Plan, LAC relies on guidelines and standards set forth by the USAB, *Chapter R3 - Technical Requirements*, to conduct assessments to identify ADA-related deficiencies. USAB documentation can be found using the following hyperlink:

<https://www.access-board.gov/guidelines-and-standards/streets-sidewalks/public-rights-of-way/proposed-rights-of-way-guidelines/chapter-r3-technical-requirements>

The PROWAG technical guidelines for curb ramps and sidewalks have been utilized for preparation of this ADA Transition Plan. The requirements and standards for various pedestrian features to support accessibility by persons with disabilities are described in detail in this Appendix.

Sidewalk Standards

The USAB addresses every access of movement that may be associated with the travel and mobility of persons with disabilities. Fundamental requirements start with the definition/description of public access routes (PARs), the design of which is specific to the following:

- Sidewalks
- Pedestrian street crossings or at-grade rail crossings
- Pedestrian overpasses or underpasses
- Curb ramps and blended transitions

New construction, reconstruction, or roadway alterations impacting any of the above-listed PAR features must comply with specific technical parameters, as cited below:

- Clear Widths
 - A clear width of a PAR shall be minimum for four (4) feet, independent of the curb width
 - Where the clear width of the PAR is less than five (5) feet, spaces for passing shall be provided every 200 feet; passing spaces, where provided, shall be have minimum dimensions of five (5) feet by five (5) feet
- Median refuge islands shall have a minimum clear width of five (5) feet
- PAR within Roadway ROW
 - The running slope, or grade, of pedestrian facilities on PARs shall not exceed five (5) percent (The running slope, or grade, is defined as the slope parallel to the direction of travel of the roadway, defined as the average grade along a continuous grade)
 - Where a PAR is within a roadway ROW, the running slope, or grade, shall not exceed the grade of the roadway
 - Sidewalks may follow the slope of the adjacent roadway, if the five (5) percent grade maximum is technically infeasible

- Cross Slopes
 - Cross slope is defined as the slope measured perpendicular to the direction of travel
 - The cross slope grade of a PAR should be a minimum of one (1) percent to facilitate drainage
 - The cross slope grade of a PAR shall not exceed two (2) percent
- The grade of a PAR at a pedestrian street crossing shall not exceed five (5) percent
- Surfaces of a PAR shall be firm, stable, and slip resistant
- PAR Alignment
- Vertical alignment of a PAR shall be flush with discontinuities no greater than ½-inch
- Horizontal openings, such as grates and joints, and alignment variations shall not have an opening more than ½-inch in diameter

Curb Ramp Standards

There are two types of curb ramps recognized in the PROWAG standards – perpendicular curb ramps and parallel curb ramps. These two types of curb ramps and blended transitions are described below. Common features of curb ramps and blended transitions include the following:

- Ramps shall have a minimum width of four (4) feet
- Grade breaks shall be perpendicular to the direction of the ramp
- Cross slope shall be not exceed two (2) percent
- Counter slope of the gutter pan of roadway shall be no exceed five (5) percent
- A clear space with minimum dimensions of four (4) feet by four (4) feet shall be provided within the street crossing and outside the vehicle travel lane
- A detectable warning surface shall be installed, consisting of truncated domes

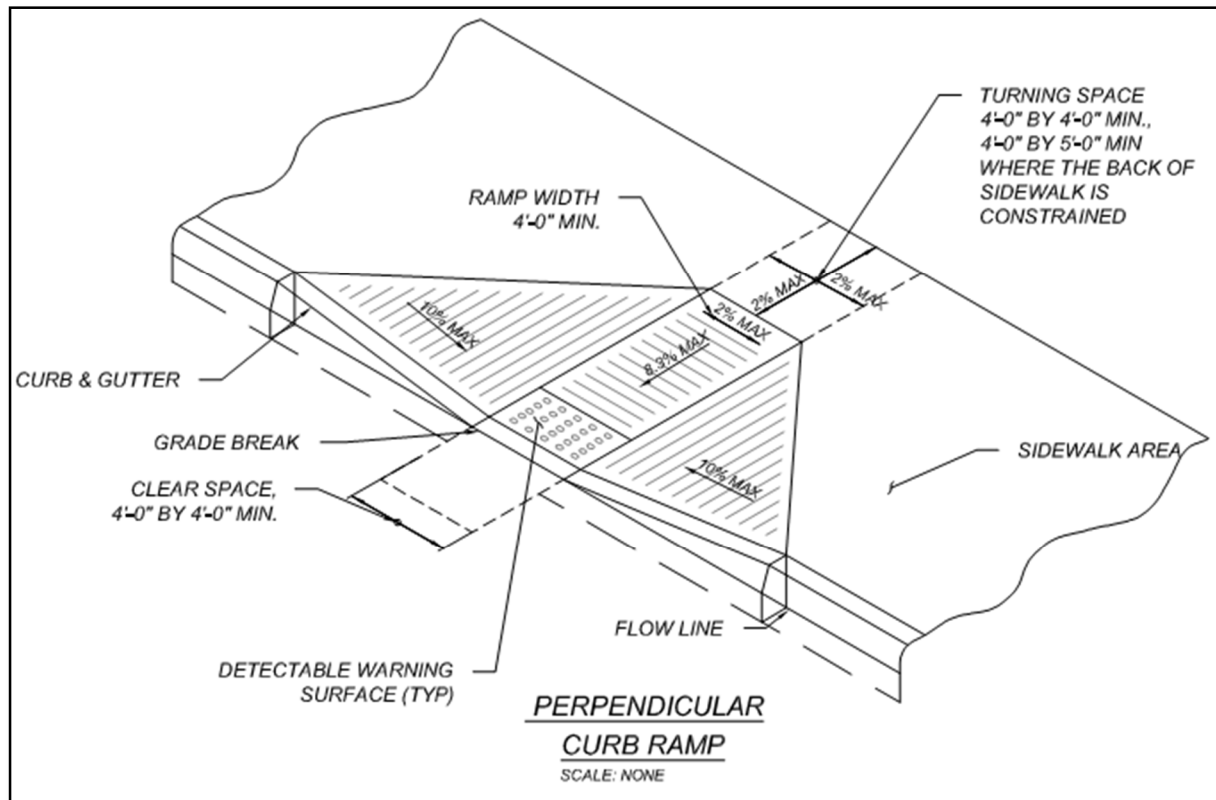

Perpendicular Curb Ramps

A perpendicular curb ramp has one ramp leading towards a level landing (**Figure 1**). The landing is located at the same elevation as the sidewalk at the top of the ramp. The path of travel and the running slope are aligned, ensuring the ramp meets at the curb or the roadway at right angles.

Technical requirements for perpendicular curb ramps include the following:

- Turning spaces or landings shall have minimum dimensions of four (4) feet by four (4) feet; where the area for the landing is constrained at the back of the sidewalk, the turning space shall have minimum dimensions of four (4) feet by five (5) feet, with the 5-foot dimension in the direction of the ramp
- The grade or running slope shall not exceed 8.3 percent and the ramp length shall not exceed 15-feet
- The grade or running slope of a turning space or landing shall not exceed two (2) percent
- The slope of flared sides shall not exceed 10% (recommended – 9%), measured parallel to the back of curb.

Figure 1 | Perpendicular Curb Ramp

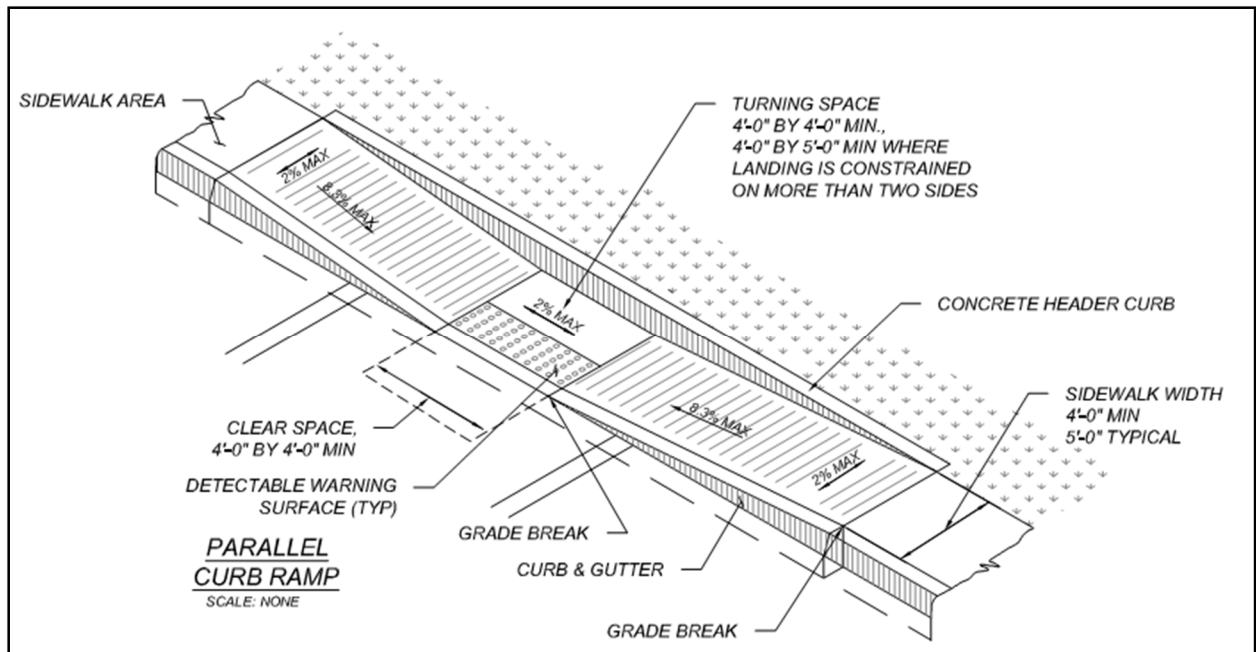

Parallel Curb Ramps

Parallel curb ramps have two ramps leading to/from a level landing (**Figure 2**). The landing is located at the bottom of the two ramps, at the same elevation as the roadway. The path of travel and the grade or running slope is parallel to both pedestrian on the sidewalk and vehicular traffic on the adjacent street.

Technical requirements for parallel curb ramps include the following:

- Turning spaces or landings shall have minimum dimensions of four (4) feet by four (4) feet; where the landing is constrained by more than two sides, the turning space shall have minimum dimensions of four (4) feet by five (5) feet, with the 5-foot dimension in the direction of the ramp
- The grade or running slope shall not exceed 8.3 percent and the ramp length shall not exceed 15-feet
- The grade or running slope of a turning space or landing shall not exceed two (2) percent

Figure 2 | Parallel Curb Ramp

Blended Transitions

A blended transition design may be applicable where the vertical alignment of the street and sidewalk fully integrated, i.e., either the entire sidewalk has been brought down to the street level (generally via two ramps) or the crosswalk level or the street has been brought up (raised) to the sidewalk level (**Figure 3**). Blended transitions do not require a landing at the top of the ramps, as the sidewalk acts as the landing. The grade or running slope of ramps connecting the crosswalk/street to the sidewalk shall not exceed five (5) percent.

Detectable Warning Surface

A detectable warning surface (DWS) consists of a surface of truncated domes (i.e., a dome-shaped protrusion with the top shaved off) aligned in a square or radial grid pattern (USAB, *R304 - Detectable Warning Surfaces*). A DWS (also referred to as tactile paving) provides a textured and visual (colored) surface installed at the base of a landing or on a blended transition at the back of curb or entrance to the roadway. A DWS allows the pedestrian and wheelchair user easily to detect underfoot a transition; the coloring provides warning to users with vision deficiencies – the most popular colors are yellow, black, gray, blue, brick red, and clay red. The following technical requirements for a DWS include:

- Installation
 - where a curb ramp, blended transition, or turning space provides a flush pedestrian connection to the street, or
 - where a PAR crosses a street, alley, traffic island, median, or railroad
- Design
 - Dome sizes shall be between 0.9 inches and 1.4 inches in diameter
 - Dome spacing shall have a center-to-center spacing of 1.6 inches to 2.4 inches.

Figure 3 | Blended Transition

- Warning surface shall contrast visually with the adjacent curb and gutter (e.g., light on dark or dark on light).
- The area of the DWS shall extend the width of the ramp in the direction of travel, with a 2-foot minimum depth between the curb and back edge of the DWS
- Placement
 - Placement of detectable warning surfaces varies by ramp type
 - Perpendicular curb ramps shall have a DWS where the ramp running slope meets the back of curb and gutter, at the location of the roadway
 - Parallel curb ramps shall have a DWS placed on the turning space, where the turning space meets the back of curb and gutter
 - Blended transitions shall have a DWS placed at the back of curb, where the ramp running slope meets the curb and gutter.
 - **Figure 4** shows examples of DWS placement.

Figure 4 | Placement of Detectable Warning Surface

Accessible Pedestrian Signal Standards

An accessible pedestrian signal (APS) with pedestrian pushbutton is an integrated device that activates the WALK and DON'T WALK cycles at signalized traffic intersections. These differ from standard pedestrian-actuated crossing signals in that the presentation of the device to the pedestrian is accomplished with non-visual formats (i.e., audible tones and vibrotactile surfaces). These formats assist persons with visual and hearing deficiencies. In addition, the devices are located so as to be accessible for persons in wheelchairs or walkers. Select features of APS installations are highlighted below. Additional details may be referenced in:

<https://www.access-board.gov/guidelines-and-standards/streets-sidewalks/public-rights-of-way/proposed-rights-of-way-guidelines/chapter-r3-technical-requirements>

- Each crosswalk with pedestrian signal indication shall have an APS that includes audible and vibrotactile indications of the WALK interval
- Location
 - APS devices shall be located so the vibrotactile feature can be contacted from the level landing serving a curb ramp, if provided, or from a clear floor or ground space that is in line with the crosswalk line adjacent to the vehicle stop line
 - APS devices shall be more than 10 feet from other APS devices at a crossing
 - The control face of the accessible pedestrian signal shall be installed to face the intersection and be parallel to the direction of the crosswalk it serves
 - APS devices located in roadway medians and islands shall not be more than five (5) feet from other APS devices
- Accessible pedestrian pushbuttons shall be located within specified clear spaces and reach ranges
- Clear Space
 - Clear space at accessible pedestrian signals, street furniture, and operable parts shall be provided
 - Unless otherwise specified, clear space shall be interpreted to include knee and toe clearance
 - Clear space shall be no less than 30 inches by 48 inches
 - Slope and cross slope of the clear space surface shall not exceed two (2) percent
 - Where a clear space is constrained on all or part of three sides:
 - Alcoves for a forward approach shall be no less than 36 inches wide and 24 inches deep
 - Alcoves for a parallel approach shall be no less than 60 inches wide and 15 inches deep
- Reach Range
 - An unobstructed Forward Reach/Forward Approach and Side Reach/Side Approach shall have a maximum high reach of 48 inches and the low reach shall not be less than 15 inches above the finish surface
 - When the reach is obstructed, other factors must be considered in accordance with USAB, *R404 - Reach Ranges*

LAC currently maintains signalized intersections throughout the County, where traffic operations warrant. Push buttons to activate pedestrian crossing cycles are located at many of these intersections. Pedestrian actuated signals are programmed into the signal timing cycles for all traffic movements at the intersection.

Accessible pedestrian signals were not inventoried and evaluated as part of this ADA Transition Plan. A future inventory and evaluation of existing signal equipment will be conducted as part of a future update to this ADA Transition Plan. In the interim, guidance provided above will be followed for new roadway construction and major reconstruction of existing roadways and shall comply with the USAB PROWAG.

County of Los Alamos

Staff Report

November 02, 2017

Los Alamos, NM 87544
www.losalamosnm.us

Agenda No.:

Index (Council Goals):

Presenters:

Legislative File: 10060-17

Public Works Staff/Project Update - October 2017

...Attachments

A - Public Works Update - October 2017

In the Works....

Public Works Update – October 2017

Administration Division

Transportation Board

The Transportation Board meets the first Thursday of the month at 5:30 p.m. Meetings are held at 1000 Central Avenue, Room #110.

Airport Division

Manager Hired for the Airport

The County has a new Airport Manager. Cameron “Cam” Humphres, will begin his new job with the County on November 6th. Humphres most recently worked at the City of Santa Fe. Prior to that he worked for eight years as executive director of South Dakota’s Rapid City Regional Airport.

In addition to his experience in airport management, Humphres brings accreditation from the American Association of Airport Executives, a commercial pilot’s license with multi-engine and instrument ratings, experience as a USAF commissioned officer, B-1 test pilot, and A-10 aircraft mechanic, and a Master’s Degree in Aviation Business Administration.

Remarkably, Humphres early interest in aviation began at the very same airport he has been hired to manage as his grandfather built an aircraft in Los Alamos that he flew here.

Fence Project

An updated Capital Improvement Plan has been submitted to the FAA with the estimated costs for the construction of the fence. Bids for construction of the fence will be solicited in early 2018 and, following the receipt of the bids, grant applications for the construction costs will be submitted to the FAA and the State. The actual construction of the fence will most likely take place in late 2018 after we receive the construction grants from the FAA and State.

New Hangars

The contractor is still working on another project for the County and has not been able to begin construction of the hangar as early as we had hoped. Staff is going to rebid the work and plan to start in December with a completion date in January.

Young Eagles Flight Rally

Thirty-nine children participated in the Young Eagles Flight Rally on Saturday, October 14th at the Los Alamos County Airport.

Deputy Public Works Director Jon Bulhuis supported Los Alamos Composite Squadron of the Civil Air Patrol, seven pilots, their general aviation aircraft, and eight ground crew members from the local Experimental Aircraft Association who volunteered their time and passion for aviation to provide free flights for children 8 to 17. There was a static aircraft display by the Civil Air Patrol as well as a flight simulator and an air-traffic control simulator available for all participants in the Terminal Building.

Custodial Division

The Custodial Division supported 249 events during the month of October.

The Golf Course patio dining area flooring is scheduled to be refinished in November.

Installation of the Green Cleaning chemicals and paper products is set to begin in November.

Carpet shampooing and tile waxing at the Police Department was completed this month prior to their recertification.

The Ice Rink floors were shampooed and waxed prior to their opening for the season.

Engineering & Project Management Division

Fire Station 3

Architectural design work is nearing completion. The project includes reroofing, as well as a new wall system, window replacement and HVAC system modifications to better insulate and control the temperature in the bunkrooms. A review set of plans and specifications is scheduled to be received at the end of October. Once the design work is completed, the project will be advertised and awarded later this year. This project is scheduled to be completed in 2018.

Fire Station 4

As of September 29th, CAC, Inc. has substantially completed Fire Station 4 renovations. The project consisted of replacing the rooftop units with combination heating and AC units, replacing the existing boiler with a more efficient unit, along with interior LED lighting, flooring improvements, and fresh paint in dwelling areas and exterior doors.

Kitchen

Day Room

Weight Room

Temp Trailers Removed, Doors Painted

Mesa Library Fire Panel Replacement

The project has been awarded to Great Western Specialty Systems in the amount of \$148,248.30. Work will start in late November or early December with substantial completion scheduled for late March 2018.

Ice Rink Equipment Maintenance

Project Management staff assisted facilities maintenance with drafting an RFP for continued maintenance of existing ice making equipment. It is to be a 7-year duration contract for under \$100k and scheduled for award thru the County Manager's Office in time for ice skating season.

Eco-station Push Wall Repair

Crews with Allied 360 continue work to replace and bolster the existing push wall at the northwest corner within the Transfer Station. The work will consist of the installation of some steel plate augmented by a new concrete support wall.

20th Street Extension Project

The contractor is continuing with the installation of the sanitary sewer line, water line and gas lines for the project. The utility improvements are nearing completion with roadway work ongoing. The contractor has installed about 75% of the project curb and gutter and continues to progress with these and other concrete improvements including sidewalks and ADA ramps.

ADA Ramp at Trinity

Curb and Gutter Machine

In addition to the construction work the County has contracted with Santa Fe Engineering, utilizing an on-call contract, to perform a traffic signal warrants analysis at the intersection of 20th Street and Trinity Drive. The intent of the study is to determine at what point of development along 20th Street south of Trinity Drive a traffic signal be warranted. Traffic count data was obtained by the Traffic and Streets division and was provided to the consultant. NMDOT has completed their review of the draft report and staff will be meeting with NMDOT to discuss their comments and finalize the report.

Canyon Rim Trail Phase 3

The County's consultant has submitted a preferred alignment to be discussed with LANL for easements necessary to construct the Canyon Rim Trail from Knecht St. to 20th Street. Coordination with LANL is ongoing.

Canyon Rim Trail Underpass

The County recently received a funding agreement for the design of the underpass project from the NMDOT. Upon approval, the agreement will be submitted to the NMDOT for final execution, anticipated in late 2017 or early 2018. Once the agreement is fully executed, County staff can move forward with procuring a design consultant to begin design development.

Future Projects...

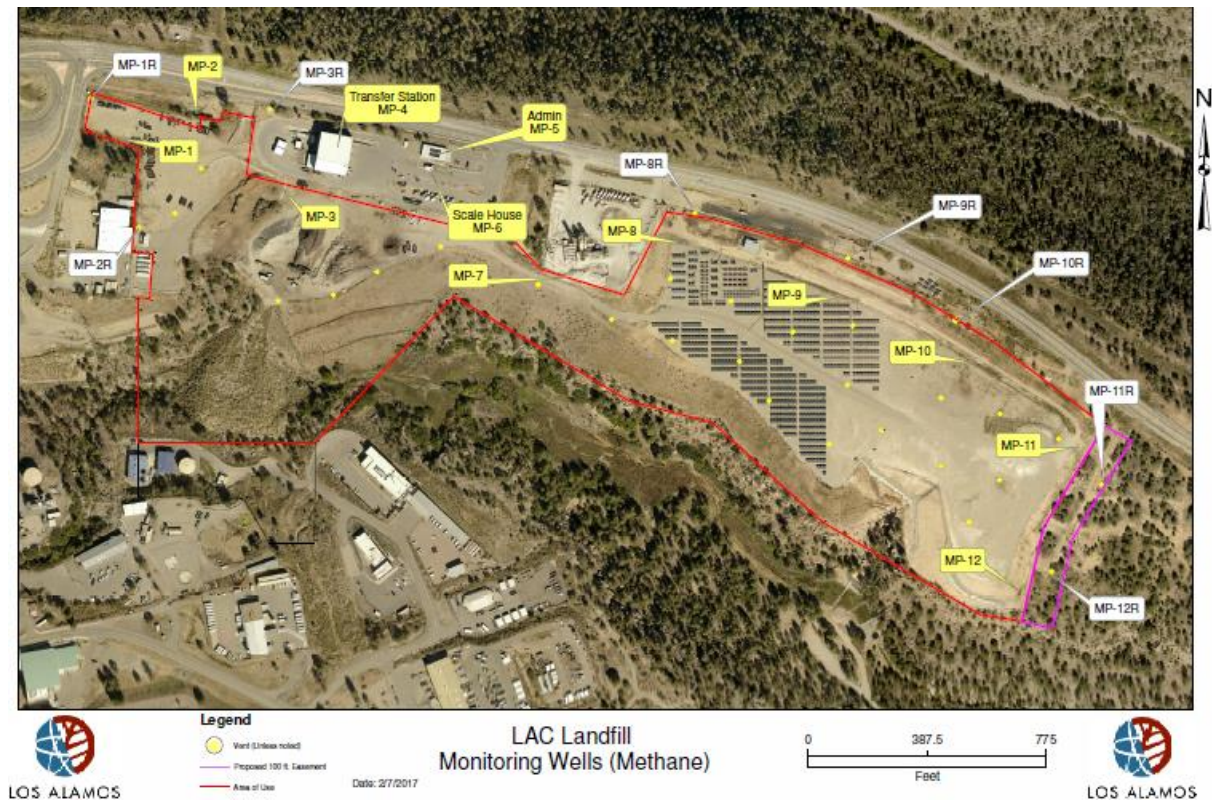

- NM 4/East Jemez Rd. (Truck Route) Intersection: Staff continues to work with DOE, NMDOT Bandelier, and Army Corps of Engineers to program, design and construct intersection upgrades to improve capacity and safety.
- NM 502 Reconstruction, Knecht St. to Tewa Loop: Staff continues to coordinate with NMDOT on this state lead project. NMDOT bid the project for a second time and again received only one bid that was several million dollars over the programmed budget. NMDOT has rejected the bid and disposition of the project is presently being considered by NMDOT management.
- Facility Condition Assessment for the Senior Center: Work will include review the 2010 assessment using an on call architectural firm and update the report as needed for future planning of work at the Senior Center. A facility study needs to be accomplished and then a grant application made to potentially fund part of the renovation project.

Environmental Services Division

Los Alamos County Landfill Gas (LFG) Update

This is a summary of results for September 2017 methane monitoring for the Los Alamos County closed landfill.

1. The LFG Vents ranged in methane concentrations from 30.6 (LFG Vent – 7) to 56.7 (LFG Vent – 1) percent gas in air.
2. The gas probes near the toe of the landfill materials ranged in methane concentrations from 2.6 (MP-12) to 46.0 (MP-8) percent gas in air.
3. The gas probes near the boundary of the landfill ranged in methane concentrations from 0.0 (MP-8R and MP-10R) to 2.0 (MP-11R) percent gas in air.

Training

Environmental Services Scale Operator Joseph Baca completed his certification in Landfill Operations as required by NMED Solid Waste Bureau. In an effort to improve operations, Environmental Services staff had training on October 9th, staff received training in the role of Environmental Services, sustainability goals, the importance and proper use of PPE as well as training on customer service. The team also participated in a CDL skills refresher.

New Rates and Services

New Environmental Services Rates went into effect on September 1, 2017, the ESB and Environmental Services worked diligently and received public input on the new rates. A new paid bulk collection program started on September 1st where residents can call to schedule a pickup of bulk items for a reduced fee of \$25.00 per pick up. As of October 24th, Environmental Services has had ten (10) residents request a scheduled bulk collection.

Recruitment

Environmental Services would like to welcome Victor Trujillo who recently joined the Environmental Services Team as our new Environmental Services Trainee.

Green Team

The Los Alamos County Green Team meets monthly to discuss how the county can work to be more environmentally friendly. This month they hosted the 3rd Annual Green Team event in the lobby of the Municipal Building.

Outreach

Environmental Services strives to share the importance of recycling and sustainability. On October 3rd, Environmental Services Staff had the opportunity to show this to Cub Scout Pack 27. These young recyclers had a great time touring the Eco Station and seeing how all the material is processed.

Environmental Services Office Specialist Tiffany Pegoda chats with Robert Martinez at customer service week about Environmental Services new information flyer about what can and can't be recycled in the blue roll-carts. The flyer was mailed out to residents this month.

Environmental Services Office Specialist Tiffany Pegoda gave a presentation to the United Methodist Women's Group.

Summer 2017 Brush Collection Schedule

Summer brush collection started on August 14th and staff has collected over 69.95 tons of brush material to date.

Brush Collection Summer Schedule 2017

Area	Set out no sooner than	Collection starts
Barranca Mesa, Ponderosa Estates, Loma Linda & Hawks Landing	Aug. 4 th	Aug. 14 th
Quemazon, Sandia, Trinity, Orange & Nickel	Aug. 11 th	Aug. 21 st
North Mesa	Aug. 18 th	Aug. 28 th
Walnut, Yucca, Urban, Arizona, Town Site	Aug. 25 th	Sept. 4 th
Rover, Old Town, Meadow Lane, Aragon, Bryce Avenue	Sept. 1 st	Sept. 11 th
La Vista, Canada Way, Canada Circle, Barcelona, Canyon Vista, Sierra Vista, Monte Vista, La Paloma	Sept. 8 th	Sept. 18 th
La Senda & Piedra Loop	Sept. 15 th	Sept. 25 th
Pajarito Acres, Monte Rey, Rio Bravo, Potrillo, Estante Way	Sept. 22 nd	Oct. 2 nd

Please Remember:

- ✓ One pickup per household, piles no larger than 8 cubic yards or 6 feet x 12 feet x 3 feet.
- ✓ Set items close to curb – do not place items under power lines, trees, or next to cars or utility boxes.
- ✓ Available to residents with weekly curb side refuse collection.
- ✓ All leaves, pine needles and yard clippings must be placed in paper yard waste bags.
- ✓ Items that will be picked up: brush, pine needles, leaves and yard clippings
- ✓ Place trash in your trash roll cart.

Items that will NOT be collected: Mattresses, large appliances/large furniture, televisions, refrigerators/freezers, glass, trash bags, construction material, lumber, tires, concrete, railroad ties, fencing materials, or paints/chemicals

For more information call Environmental Services 662-8163.

****DO NOT set items out before listed date or Code Enforcement will be notified**

August Diversion Rate: 20%

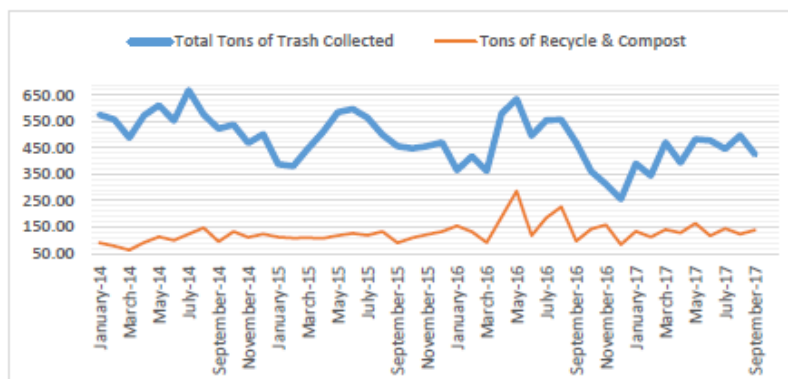

September Diversion Rate: 25%

A 24% Increase in Diversion

The *diversion rate* is the percent of materials recycled and composted.

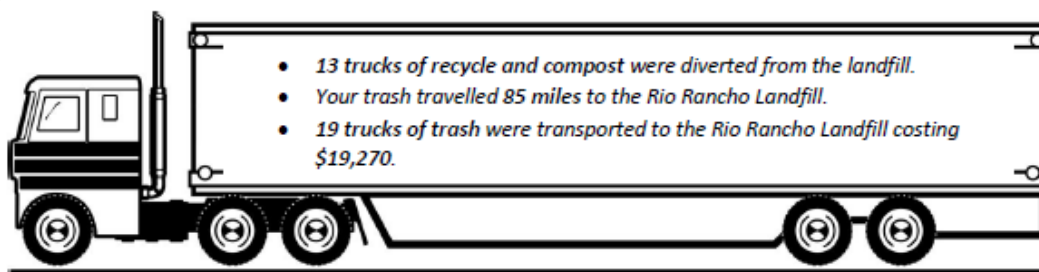

Month by Month Recycling Comparison

Recycling a single run of the Sunday New York Times would save 75,000 trees.

If every American recycled just one-tenth of their newspapers, we would save about 25,000,000 trees a year.

The average household throws away 13,000 separate pieces of paper each year. Most is packaging and junk mail-all of which can be recycled!

Facilities Division –

Crews are working on counter tops and lockers installation at Fire Station 4.

Crews are working on concrete and header trench at the Ice Rink.

Crews are shutting down air conditioners and turning on heaters.

Fleet Division

New 2017 Peter-built refuse truck for Environmental Services.

New Ford 4X4 truck - ½ ton extended cab for Parks.

Traffic & Streets Division

Crews replaced a section of buckled sidewalk at 316 Meadow.

Crews removed a large section of sidewalk, and reinforced a new section of sidewalk with a retaining wall along San Ildefonso Road.

Crews cleaned a drain off North Mesa Road.

Crews repaired an embankment that washed away adjacent to the Canyon Rim Trail near the Smiths Market Place.

Traffic Electricians trenched along Canyon Drive to relocate a street light near a transit stop.

A gate was recently installed by a County contractor on Camp May Road near the base of the ski area to avoid the placement of boulders in the roadway during the winter months.

Traffic Electricians installed a 4 section signal head at Trinity Oppenheimer. This fixture replaces a 3 section signal head adding a 2nd red to help motorists with visibility issues associated with the fall sunshine during the morning commute.

Crews assisted San Bar with their striping operation around Los Alamos. The “skip” lines on Barranca Road by the Elementary were eradicated and replaced with double yellow lines.

Transit Division

The Transit Division was quite busy this month.

Bandelier National Monument in partnership with Atomic City transit provided shuttle service to and from Frijoles Canyon May through October. Without the shuttle system parking at peak times would be impossible to find and visitors to the park might be turned away.

Use the following link view the recent KOB news story concerning the valuable partnerships for Bandelier.

<http://www.kob.com/albuquerque-news/bandelier-national-monument-among-park-relying-on-private-partnerships/4633608/>

Atomic City Transit provided service to Bandelier – Opera on the Rocks September 30, 2017. A total of 459 passengers braved the rain and wind to see the performance. The driver's provided warm shelter in the buses during intermission which was much appreciated. Atomic City Transit drivers were able to have a little fun while waiting for customers to finish up the performance.

Training

All Transit employees attended First Aid and CPR training on October 9, 2017.

Operators Fermin and Corrine

ATOMIC CITY TRANSIT

Providing Exceptional Service

Atomic City Transit celebrates 10 Years of Exceptional Service this month. ACT will have a few events to celebrate. County Council proclaims October 25, 2017 as Atomic City Transit Day.

Staff provided customers with bottled water and cookies to celebrate this occasion.

Washington, D.C., Monday, March 31, 2008 Volume 66, No. 13

PASSENGER TRANSPORT

The Weekly Newspaper of the Public Transportation Industry

Los Alamos, NM, Welcomes 'Atomic City Transit'

Los Alamos County, NM, recently celebrated the official launch of Atomic City Transit with a ribbon-cutting ceremony in honor of the arrival of its first new bus.

The county's bus service operates on five fixed routes, along with dial-a-ride paratransit service and an additional after-school service. Atomic City Transit currently has a fleet of 14 vehicles, with three

more vehicles scheduled to arrive soon.

In the past, public transit in Los Alamos has operated at a minimal level, according to a city spokesperson. Los Alamos Transit Operations, a private corporation with two buses, introduced service in 1980, and for the past 25 years a nonprofit organization named Los Alamos Bus System Inc. has operated as LA Bus, providing most of its service to a major employer in the county and little community-wide operation. LA Bus and Los Alamos County reached an agreement last year for the county to assume all public transportation operations.

The Los Alamos County Council marked the event with a proclamation declaring "Atomic City Transit Day," noting that the transit system fulfills three of the council's adopted goals: to improve transportation and mobility, to maintain environmental quality, and to diversify the economy and revitalize the White Rock and Los Alamos downtowns.

While the system began operating limited peak-hour neighborhood service and 20-minute downtown service this past fall, it has already seen its ridership almost double in the first four months, from 7,015 in October 2007 to 13,069 in February.

Cutting the ribbon at ceremonies marking the launch of Atomic City Transit in Los Alamos, NM, are, from left: front row, Gloria Zamora, representing U.S. Sen. Jeff Bingaman (D-NM); county council members Frances Berting and Nona Bowman; New Mexico state Rep. Jeannette Wallace; Robert Gibson, county vice chair; Josette Lucero, North Central Regional Transit District; Frank Sharpless, New Mexico DOT; Nancy Talley, transportation division manager; and Miko Davis, transit manager; back row, Michael Wheeler, county council; Veronica Rodriguez, representing U.S. Sen. Pete Domenici (R-NM); Max Baker, county administrator; and Anthony Mortillaro, assistant county administrator.

Atomic City Transit would like to say "Thank You" to Pinon Elementary School, 3rd Grade, Ms. Muziani-Holland's class for participating in our coloring contest – What Atomic City Transit means to me and our community?

We received fourteen (14) entries and the Transit division employees selecting the winning entry to be placed on a wrap in the back of one of our buses. All entries will be displayed inside different buses for everyone to enjoy. Thank you once again Pinon Elementary 3rd Grade class for helping us out.

October is Breast Cancer Awareness month and Atomic City Transit employees' support the Los Alamos Fire Department efforts for awareness.

Nanette De La Torre, Armando Rodriguez, Annet Acomb

Atomic City Transit struggles with the hard water. The lime build-up on the windows was becoming excessive as our vehicles are on the road 12 to 14 hours a day. Transit Division has begun a bus detailing program, so look out for our beautifully clean and safe vehicles.

Atomic City Transit attended two events promoting use of public transportation. On Wednesday, October 4, 2017 staff participated in Customer Service Week sponsored by Los Alamos County. We also participated in the Green Team event on Tuesday, October 17, 2017. Representing eco-friendly services.

With our continuous efforts to improve the bus stops, the Transit Division made stop improvements to the Canyon Road. bus stop by adding additional concrete.

Subject: Young Eagle Thank You!

All, thank you for participating in the Young Eagle flight rally yesterday. Your talents and passion for aviation were very much appreciated by a great group of local kids. Special thanks to the Civil Air Patrol Cadets for assisting with parent escorts on the ramp and to Jon Bulthuis from the County for his support of the event. Due to your efforts, there were so many Young Eagles excited about aviation and positively influence by their flight experiences. We could fly 39 happy kids on Saturday.

I have gotten some feedback from a few of you and welcome any input on what went well and suggestions for how to improve the event.

It would be especially good to hear about what you thought of the approach of having kids reserve flights in advance. A day before the event, we had 60 seats available and 48 kids signed up, giving us 12 excess seats, or a 20% contingency. Unfortunately, we lost 8 seats due to the removal of a back seat in one aircraft and another 12 seats when one aircraft had mechanical problems. We had 3 kids not show up and 7 more walk ins without reservations. Amy made one more flight than planned and we could get one walk-in on a flight. We will be having a makeup session next Saturday, as the EAA insurance will cover us for our planned backup weekend as well. We tentatively have 3 pilots that will be able to fly the remaining 14 kids that have requested flights (8 rescheduled from yesterday and 6 walk ins). I am hoping to have a 33% contingency on the makeup session. I will be communicating separately to the three pilots about the plans for next Saturday.

I will be preparing a report to the EAA on our event after our flights next Saturday, so please provide me with your feedback by next weekend. Thanks again for your support of Young Eagles. Tina

Subject: Angelo Lujan

Dear Bob,

I want to let you know that Angelo Lujan was absolutely magnificent in the support he gave to me on Saturday during my two events. First, he was incredibly polite. Second, he was an incredibly hard worker and was there Johnny on the spot whenever we needed him. And third, he was adaptable. And he was all of these things for both of our events that day.

Please extend our deep appreciation to him for his impeccable service and support.

Best regards,
Jim Nesmith

Jon –

I was glad to meet you as well and to have your support for the Young Eagles event!

I can't tell you how important the Los Alamos Airport has been to our organization. Not only because so many of our members base there, but because of the strong support we receive.

Whether it's been helping us to host the Young Eagles events or as a place for one of our monthly meetings or helping to integrate aviation into the STEM program; the Los Alamos airport has been with/for us every step of the way.

You and your staff have worked hard to develop friendships with the community and with aviation.

Thank you for all the tireless efforts,

Bob Hassel

The pre-Christmas Craft Fair at the jr high is a huge event. And the parking lot is always packed. Would it be possible to run the Circulator on that day? We could park down town and just bus out and back. (Jr high → Trinity → Central → Jr high)

And thanks so much for the new 2T stop at Rovers + Longview, close to my house and senior center. So easy to 2T up, catch the Circulator, buy food, etc., and then 2m home. ♡ Celeste
