#### 1. CALL TO ORDER

A. <u>10615-18</u> Approval of Minutes from the March 8, 2018 meeting

**Presenters:** Stephanie Nakhleh

Attachments: <u>A - March 8, 2018 Minutes</u>

A motion was made by Member Pesenson and seconded by Member Harris that the Minutes be approved as presented. The motion was passed by a unanimous vote of 6-0.

#### 2. PUBLIC COMMENT

No public comment was given.

#### 3. BUSINESS

A. 10616-18 New Board Member Introductions

Presenters: Christopher Wilson

New and existing Board Members introduced themselves.

B 10677-18 Subcommittee Liaisons

**Presenters:** Stephanie Nakhleh

Board Members assessed the current subcommittee roles and voted on role assignments.

Member Dattelbaum motioned to approve this set of subcommittee liaisons:

- 1. GCAS Dana Dattelbaum
- 2. OSAS Donald Ulrich
- 3. IRRAS Dina Pesenson
- 4. ACAS Trey Ramiro

Member Ramiro seconded the motion. The motion passed with a unanimous approval of 6-0.

#### C. <u>10664-18</u> "Flow Trail" Project Update

Presenters: Eric Peterson

Chris Wilson provided an update to the Board on the Flow Trail Project. Discussion was held among the Board Members.

D. <u>10617-18</u> CIP Projects Update

Presenters: Christopher Wilson

Chris Wilson updated the Board on the CIP Projects, and thanked Public Works and the Project Management team

E. <u>10670-18</u> Discussion Regarding Modification of Overlook Ballfield Paint Colors

Presenters: Christopher Wilson

Attachments: <u>A - Overlook Park Colors and Windscreen Example</u>

Chris Wilson and Jeff Humpton updated the Board on a request from Little League to modify the current colors at Overlook Park to the Los Alamos High School Hilltopper colors. Discussion was held by the Board.

Subcommittee Application **Recommended Action** I move that the Board approve the following Subcommittee Application **..Attachment** A - Amy Rogers - Open Space Advisory Subcommittee (OSAS) Parks Office Use Only:

Date Appointed by Parks & Recreation Board\_\_\_\_\_

Parks, Recreation and Open Space

#### LOS ALAMOS COUNTY

#### PARKS AND RECREATION BOARD

#### APPLICATION Open Space Advisory Subcommittee

Please be aware that as a public entity, the County of Los Alamos is obligated to furnish this information to the media, if so requested.

| Name: Amy Rogers | Date: <u>1/25/2018</u> |
|------------------|------------------------|
| Address: _       |                        |
| Home Phone:      | Work Phone: <u>N/A</u> |
| E-mail:          |                        |
| x First Term     | Second Term            |
|                  |                        |

#### PLEASE NOTE: If you reside outside Los Alamos County, you are not eligible for appointment.

Briefly state your reason(s) for wanting to serve on this committee and please give any background information and/or prior experience pertinent to this position.

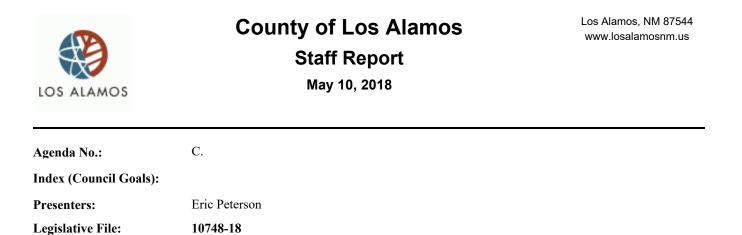

I would like to serve on this committee in order to help gather public input and to participate in providing suggestions to the Parks and Recreation Board concerning policy issues related to Open Space and Trails programs and resources. I am a hiker, equestrian and snowshoer. I use the open space and trails on a consistent and frequent basis. I have also attended several recent OSAC meetings and would like to participate in the OSAC in a more active capacity. I have also been encouraged to participate by members of the equestrian community in order to enhance communication between the OSAC and local equestrians.

#### Briefly state your understanding of the key issue(s) facing this subcommittee.

Key issues facing this subcommittee include: the review of the County Trails Management Plan in order to develop recommendations for additions, deletions and realignments to the County Trail Network; assisting in safeguarding the preservation of access to the County Trail Network; developing recommendations with reference to improvements and maintenance to facilities, trails, and/or equipment.

CIP Projects Update

#### Body

Wayne Kohlrust will present an update to the on the Ice Rink Shade Study (Attachment A), and Brian Brogan will present an update on the remaining CIP Projects.

Ice Rink Improvement Pinon Park Splash Pad Golf Course Irrigation System Kiddie Pool Project

#### **Attachments**

A - Ice Rink Shade Study

# LOS ALAMOS COUNTY ICERINK -SHADE STUDY

March 29, 2018 L\16-0093.001LosAlamosBondProjects\Design\ExistingFacIlitiesProjects\CeRinkImprovements\ShadeStudy1.4.2018

#### **PURPOSE**

The open air ice rink in Los Alamos County is a cherished facility that gets heavy use during the winter months. Partly due to the lack of shade, the duration of the ice skating season and the quality of the ice is less than optimal, particularly for hockey team schedules. Los Alamos County desires to cover the ice rink to help extend the season from November 15 - March 15.

To help quantify the impact of solar exposure on the ice rink, Los Alamos County has conducted a shade study to assess the potential to shade the ice with various shade structures. The following is a preliminary study of the average solar exposure of the Los Alamos Ice Rink during the winter season. The study tests a number of different shade structure concepts to determine which structure would provide the best coverage for the smallest budget.

#### **FINDINGS:**

- Without a shade structure to cover the ice, the ice rink receives on average between 4 and 10 hours of direct sunlight during the winter months.
- This study focuses on the use of prefabricated or custom tensile fabric structures. Tensile fabric structures use lightweight but durable covers that are stretched over metal structures. Prefabricated structures come at lower price points but limit any customizing of the design.
- The most basic shade structure, Option 1, is the most costeffective option. This option, however, will not provide maximum protection from the sun. This concept also eliminates 'open air' character of the ice rink.
- The prefabricated Option 2b has a higher price point but provides more shade and maintains some of the 'open air' character. This option may provide the best combination of sun protection, while also allowing some of the ice rink's unique character to be preserved.

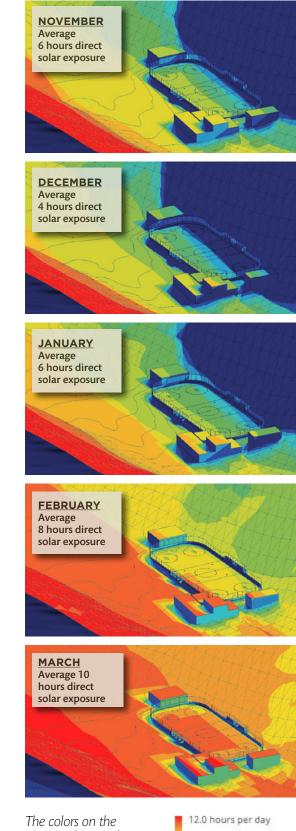

#### ICE RINK SOLAR EXPOSURE

Graphics to the right illustrate the average daily exposure to sunlight during a month.

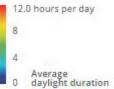

The colors indicate how much sunlight each specific area of the study site is exposed to on an average day during that month.

#### DISCLAIMER

This study examines a number of shade structure concepts accompanied by an opinion of probable cost to construct the structures. All costs are based on preliminary concepts and do not include lighting, site development or soft costs and need to be adjusted as the structure is designed.

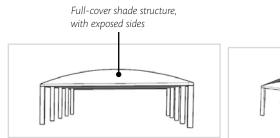

The colors on the images above indicate the average sun exposure for the given month

March 29, 2018

L:\16-0093.001LosAlamosBondProjects\Design\ExistingFacilitiesProjects\\ceRinkImprovements\ShadeStudy1.4.2018

# LOS ALAMOS COUNTY ICE RINK - SHADE STUDY

# OPTION 1: FULL-COVER SHADE STRUCTURE

This shade structure covers the entire ice rink. The structure measures approximately  $200 \times 100$  feet, and 37 feet in height.

As the study indicates, in February and March, the southeastern corner of the ice rink would receive some sunlight during February and March.

## **OPINION OF PROBABLE COST**

| Type of<br>Structure       | Cost/ Sq.<br>ft. | Total Area<br>(sq. ft.) | Cost                         |
|----------------------------|------------------|-------------------------|------------------------------|
| Prefabricated<br>Structure | \$25-\$28        | 20,000                  | \$500,000 -<br>\$560,000     |
| Custom<br>Structure        | \$110-\$125      | 20,000                  | \$2,200,000 -<br>\$2,500,000 |

# PROS AND CONS

#### **Prefabricated Structure**

#### 🕐 Pros

- Straight forward concept; can utilize
- Prefabricated "off the shelf" product.
- Reduced construction time
- Least expensive option

#### 🕡 Cons

- Ice rink would lose 'open air' character
- Not customizable
- Reduced protection from sun

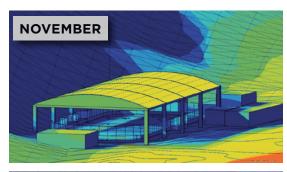

# **Custom Structure**

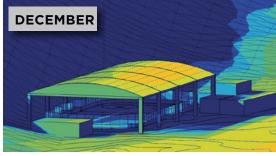

#### 🕐 Pros

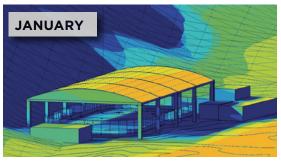

Customizable, able to respond to unique site conditions
Nicer design

# Cons

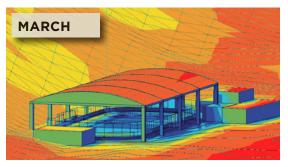

- Ice rink would lose 'open air' character
- More expensive
- Reduced protection from sun (no side panels to block sun)

The colors on the images above indicate the average sun exposure for the given month

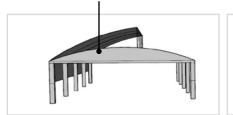

# March 29, 2018

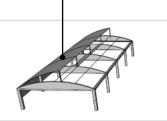

L:\16-0093.001LosAlamosBondProjects\Design\ExistingFacilitiesProjects\ceRinkImprovements\ShadeStudy1.4.2018

# LOS ALAMOS COUNTY ICE RINK - SHADE STUDY

Side panels for additional protection from the sun

Cantilevered partial shade structure

# OPTION 2A: PARTIALLY COVERED SHADE STRUCTURE

This shade structure covers the ice rink partially, leaving a portion open to maintain some of the 'open air' character. The structure measures approximately 191 x 100 feet, and approximately 55 feet in height.

Little sun exposure is experienced during February and March

# **OPINION OF PROBABLE COST**

| Type of<br>Structure       | Cost/ Sq.<br>ft. | Total Area<br>(sq. ft.) | Cost                         |
|----------------------------|------------------|-------------------------|------------------------------|
| Prefabricated<br>Structure | \$30-\$38        | 20,000                  | \$600,000<br>-\$760,000      |
| Custom<br>Structure        | \$110-\$125      | 20,000                  | \$2,200,000 -<br>\$2,500,000 |

# PROS AND CONS

#### **Prefabricated Structure**

#### 🕐 Pros

- Reduced construction time
- Less expensive
- Partially maintains 'open air character
- 🗍 Cons
  - Not customizable
  - Added cost through increased trussing

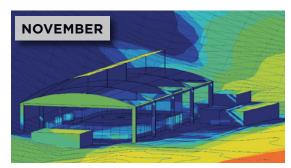

#### **Custom Structure**

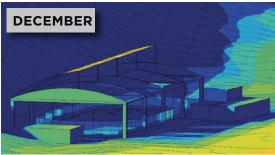

#### 🖰 Pros

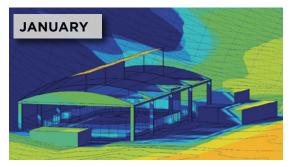

- Customizable, able to respond to unique site conditions
- Nicer design
- Partially maintains 'open air character

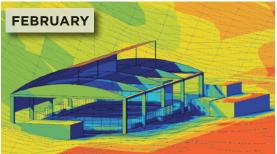

#### 🗍 Cons

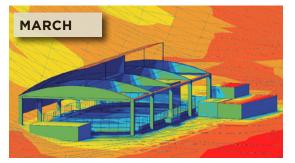

More expensive

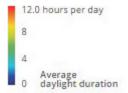

The colors on the images above indicate the average sun exposure for the given month

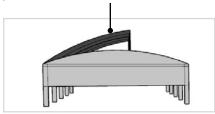

March 29, 2018

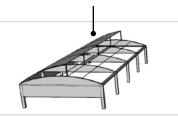

L:\16-0093.001LosAlamosBondProjects\Design\ExistingFacilitiesProjects\lceRinkImprovements\ShadeStudy1.4.2018

# LOS ALAMOS COUNTY ICE RINK - SHADE STUDY

Additional side panels for additional protection from the sun

Cantilevered partial shade structure

# OPTION 2B: PARTIALLY COVERED SHADE STRUCTURE

This shade structure covers the ice rink partially, leaving a portion open to maintain some of the 'open air' character. The structure measures approximately 191 x 100 feet, and approximately 55 feet in height.

For this version, a side panel on the east was added to further protect the ice rink from sun penetration during the months of February and March.

This cover provides more shade, while maintaining even more of the 'open air' character.

#### **OPINION OF PROBABLE COST**

| Type of<br>Structure    | Cost/ Sq.<br>ft. | Total Area<br>(sq. ft.) | Cost                         |
|-------------------------|------------------|-------------------------|------------------------------|
| Prefabricated structure | \$35-\$45        | 20,000                  | \$700,000 -<br>\$900,000     |
| Custom<br>Structure     | \$110-\$125      | 20,000                  | \$2,200,000 -<br>\$2,500,000 |

#### PROS AND CONS

#### **Prefabricated Structure**

#### 🖰 Pros

- Reduced construction time
- Partially maintains 'open air character
- Increased protection from sun

#### 🗍 Cons

- Not customizable
- Added cost through increased trussing
- More expensive than standard prefabricated option

#### **Custom Structure**

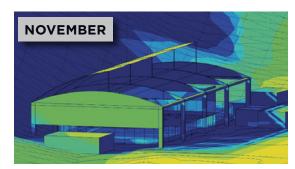

#### 🕐 Pros

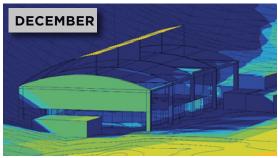

- Customizable, able to respond to unique site conditions
- Nicer design
- Partially maintains 'open air character

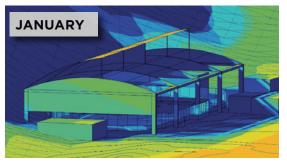

#### 🗍 Cons

- More expensive
- March 29, 2018

 $\label{eq:linear} L:\label{eq:linear} L:\lab$ 

The colors on the images above indicate the average sun exposure for the given month

#### **OPTION 3:**

#### Retractable shade roof structure

This option considers a retractable roof option. The retractable roof would allow the user to adjust the roof opening and respond to different weather conditions. This option was not studied to the same level of detail as the other options. The shading impact would be roughly equivalent to Option 1.

#### **Opinion of Probable Cost**

| Type of             | Cost/ Sq.   | Total Area | Cost                         |
|---------------------|-------------|------------|------------------------------|
| Structure           | ft.         | (sq. ft.)  |                              |
| Retractable<br>Roof | \$150-\$200 | 20,000     | \$3,000,000 -<br>\$4,000,000 |

#### PROS AND CONS

#### **Retractable Roof Structure**

- 🕐 Pros
  - Maintains 'open air' character
- 🗇 Cons
  - Most expensive option
  - Increased maintenance costs

Listening Session - Parks Rules Pertaining to Dogs **Body** 

In June of 2015, the Parks and Recreation Board tackled the mulit-faceted discussion of park rules pertaining to dogs. The discussion addressed concerns regadin the Animal Control Ordinance and dogs off leash in County Parks or athletic fields. In addition, an Open Forum discussion on "Rules for Dogs in County Parks" was also made available to take public comment.

A July listening session reviewed present Animal Control Ordinance in relation to parks, athletic fields, trails, dog parks, dog training fields and voice and sight control areas. The discussion and Open Forum input indicated that Los Alamos citizens want to be dog friendly and to share County parks, fields and trains pursuant to a common vision as outlined by code.

In August, the Parks and Recreation Board concluded that the public supports remaining a dog friendly community within our existing rules and regulations. Alternatives exist to improve this community vision via education, enforcement and facility improvements. Based on public comment and feedback, five initial recommendations are presented below.

1. New signage to clarify Dog Training Zones, Dog Training Fields and Voice and Sight Control areas as they now exist, including the informational phone number for the Parks Division and the Dispatch phone number for improved customer service.

2. The "No Dogs on Playing Field" signs on Overlook sports fields will be removed and replaced with park entry signage that enforces the leash law message throughout the Overlook Park area.

3. Designation of Dara Jones Soccer Field as a "Dog Training Field" that is scheduled for group events via the Parks Field User meetings will continue. The Westside Pedestrian gate will be removed so that unofficial dog park activities do not occur.

4. Further Los Alamos Dog Obedience Club (LADOC) involvement reflecting the group's contractual obligations to the County for providing their services of obedience training classes, workshops along with information and guidance to dog owners of the area. Together the County staff and LADOC will work to increase the awareness of the rules and regulations and how Los Alamos County can truly be a dog friendly community.

#### 5. Dog Parks

o Parks staff will continue their maintenance efforts in the dog parks paying close attention to the items brought forward through this public process.

o The North Mesa Dog Park will be reviewed to see when irrigation and seeding efforts can begin.

o Enlargement of the East Park, Dog Park along with improved access will be reviewed and undertaken as time and budgets allow.

o Further community planning will need to be done for additional dog park development while building on neighborhood activities to date.

It was also recommended that the Board conduct periodic listening sessions, to hear from residents on a review of the rules and regulations. This formal opportunity would provide feedback for further adjustments or refinements needed to continue to balance the needs of dog owners and park/field users. This agenda item fulfills that recommendation while providing an opportunity to evaluate how multi-use maximizes varied public use of our parks and open space amenities.

Parks, Recreation, Open Space Program Report Body Brian Brogan will present the PROS Program Report to the Board Attachments A - PROS Program Report

# Parks, Recreation, Open Space Division April 2018

# **Aquatics**

# Dive In Movie – April 13th, 55 participants

The Aquatic Center showed the movie, Jumanji: Welcome to the Jungle, on the big screen while families enjoyed the movie the cast of inflatable animals at times got carried away and got sent to timeout for the ruckus behavior. Inner tubes, popcorn, drinks and snacks were provided.

# Walkup Aquatic Center – Cheers to 30 Years! April 25th, 405 participants

The Walkup Aquatic Center celebrated its 30<sup>th</sup> year in service. 405 people participated throughout the day, which included cake, refreshments, and commemorative wristbands were provided for all who attended. What a joy to flashback to 1988 and share stories with each other. Cheers to 30 years and to 30 more years of new memories.

Attachment A

# Easter Egg Hunt at Los Alamos Golf Course – April 1, 2018, 850 participants

With the unseasonable warm weather, the golf staff has been able to get out early and start aerating the greens to get the best possible turf conditions for the season

# Los Alamos High School JV Tournament – April 4, 2018, 61 players

Varsity team Spring Invitational – April 16, 2018, 96 players. The Varsity team held its Spring

Invitational. Schools came from as far north as Raton and as far east as Tucumcari.

# **Opening Breakfast Tournament – April 8, 2018, 36 players**

**US Kids Golf Program** – in progress. Local youth playing cow pasture pool. Participants in the program play games to learn basic golf skills.

Registration for National Jelly Bean Day – drawing held on April 22, 2018. Local resident taking a guess as to how many jelly beans are in the jar.

# **Open Space**

## Earth Day Volunteer Project – April 22, 2018, 50+ volunteers

In collaboration with Los Alamos Nature Canter, 50+ volunteers helped removal invasive Siberian Elm trees, gather trash scattered by bears and help restore a short cut trail that was causing erosion issues.

# **Recreation**

# National Jelly Bean Day – April 22<sup>nd,</sup> 2018, ~ 700 participants

The jelly bean contests were a huge success as participants submitted entries at the Aquatic Center, Golf Course, Social Services, White Rock Branch and Mesa Public Libraries, and the Fuller Lodge Art Center. Winners got to choose the jar of jelly beans, a private swim lesson, private golf lessons, or a Beanboozled jelly bean game.

# New Mexico Recreation and Park Association (NMRPA) State Award Winners

At the annual NMRPA State Conference from April 11 - 13, 2018, the Parks, Recreation and Open Space Division received two awards:

# Ed Chismar Young Professional of the Year – Open Space Specialist Eric Peterson

Eric Peterson was recognized by his peers in the industry as a recognized leader and advocate who has demonstrated outstanding efforts to forward parks and recreation through educating and activating the public in our community and at the state and national level.

# Parks Design Award – White Rock Visitor Center Demonstration Garden

This project was headed-up by Los Alamos County's Green Team and is a shining example of volunteers coming together to create beauty out of a weed-infested lot that highlights environmental stewardship, arts and culture, and enhances the quality of life in our community.

# Ice Rink

# Los Alamos Derby Dames – Practices began April 1<sup>st</sup>; 1<sup>st</sup> Bout on April 14<sup>th</sup>

Women's Roller Derby practices at the Ice Rink on Sunday, Tuesday and Thursday nights. They kicked off their season with a bout against Front Range Roller Derby from Denver, CO.

# Los Alamos Cherry Bombs – Practices began April 2<sup>nd</sup>; 1<sup>st</sup> Mini-Bout on April 14<sup>th</sup>

Youth Roller Derby practices at the Ice Rink on Monday and Friday nights. They kicked off their season with a mini-bout against the Rocky Mountain Roller Punks from Denver, CO.

# <u>Parks</u>

The Parks Division has started construction of the first phase of the Columbarium at Guaje Pines Cemetery. The columbarium is for placement of cremated remains in above ground storage which is a new addition for our cemetery. We have removed the sod, moved existing irrigation and are currently digging for the columbarium footing and the ADA access. The concrete columbarium will be delivered in the following weeks from the manufacturers in Monroe, Washington. The Parks Division will follow up with landscaping to compliment the new addition to the cemetery.
