1. Why would you like to serve on this particular Board?

I am eager for some involvement in civic design and government in general. I am particularly interested in matters involving local traffic and our mass transit system. I believe that the current state of Los Alamos traffic control & transit is a positive aspect of our community. I would like to participate in the maintenance and improvement of the local transportation systems.

2. What volunteer or professional activities have you participated in that could apply to this appointment?

I am a mechanical engineer at LANL. I can read and understand reports, drawings, and plans. Previously, I was a university lecturer, and I gained experience in developing technical explanations and conflict resolution. Very recently, I have joined the LANL Traffic Safety Learning Team.

3. The time involved may be 10-15 hrs per month or more. Are you able to serve the volunteer hours and attend training needed to perform your duties as an appointee?

Yes. I work full time at LANL and am amply available in evening hours.

4. What would you like to accomplish during your tenure on this Board or Commission? (Please identify any special interests you have that led you to become interested in serving on this Board or Commission.)

I have no specific goals, at this time. Optimistically, I hope to help contribute to generally safer and reduced motor vehicle traffic in Los Alamos County.

5. Have you had any direct or indirect involvement with this Board or Commission or with the County staff supporting this Board or Commission or County Councilors? If so, please explain.

I have met a couple of the current board members. I know Brian O'Neil from our academic careers. I have met Khal Spencer through the LANL bicycle users group.

6. Are there any issue or matters, financial or otherwise, that you are now or might become involved in that may come before the Board or Commission for which you seek appointment?

To the best of my knowledge, there are no such issues. As mentioned above, I am involved with the LANL Traffic Safety Learning Team and Bicycle Users Group. There may be similar issues considered amongst these groups.
