

Draft Wildlife Ordinance

Sec. 32-7. - Placement and maintenance of containers.

(a) It shall be the responsibility of every person owning or controlling any building, house or grounds or any other place of habitation or business to have and maintain in reasonably good repair one or more solid waste and/or recycling containers of the kind and character prescribed or furnished by the county.

(b) Containers provided by the county are the property of the county and shall not be removed from the property to which the container was assigned by the county.

(c) Roll-carts are to be removed from streets and sidewalks and neatly stowed by the end of the day of collection and set out for collection no earlier than 5:00 a.m. the day prior to of scheduled collection. Wildlife resistant roll-carts must have their mechanism disengaged at the time of set out.

(1) Violations of placement times. A violation of this ordinance only accrues when the resident's failure of the above actions result in a wildlife disturbance of the trash container. An official warning will be issued for a first time violations. Penalties will then escalate to a fine of \$50 for the second violation and \$200 for additional violations. However, if a violator does not currently employ a wildlife resistant roll-cart, they may request a wildlife resistant roll-cart be exchanged for their current roll-cart in lieu of paying a fine.

(Ord. No. 02-071, § 3, 1-24-2006)
