

## **DRAFT OPEN FORUM SURVEY QUESTIONS**

Starting July 2018, a Yard Trimming roll cart will be available to residents who participate in weekly curbside roll-cart collection. The Yard Trimming roll cart is voluntary and there will be no additional cost to the resident. The Yard Trimming roll cart is for organic yard trimmings only, which includes short branches, flowers, grass clippings, leaves, pine needles and pine cones.

This initiative will save almost 15% of our waste from being sent to the landfill. The yard trimmings will be composted into high quality garden and landscaping materials and will be made available for free to residents to use.

In order to conserve resources and reduce cost, Environmental Services is exploring opportunities collect recycle and yard trimmings more efficiently and sustainably. This is where the residents need to give us information. We want to continue to encourage residents to recycle all materials possible, with this in mind, please take the survey below.

**Question: Yard trimmings will be collected at curbside, March through November of every year, and tree recycling will be collected in January as usual. Would your household be able to continue to recycle the maximum amount of plastic, aluminum, paper and cardboard and have curbside pick-up for these materials reduced to every other week to accommodate for yard trimmings collection?**

**1) Yes**

**2) No**

**If no:**

- a) I need a larger recycle roll cart**
- b) I need an additional recycle roll cart**
- c) I don't have space available to have a larger and/or additional recycle roll cart**
- d) I am not interested in the program**
- e) Other: Write in answer**

**\*\*Respondent must select one answer only.**

**Comments and thoughts: (have a comment box at the bottom**

**Thank you,**
