5. BOARD BUSINESS

[11015-18](#) Recycle Coach

Presenters: Philo Shelton

Attachments: [C - Recycle Coach Comparison](#)

In April/May 2016, Los Alamos County Council granted \$48,000 budget authority to

Recycle Bank points program that is an incentive based marketing program to promote recycling and help to reduce waste generation."

Environmental Services started the necessary procurement process and had challenges upon the realization that this type of service would violate the Anti Donation Clause.

Early 2018, the ESB members requested more information regarding Recycle Coach, which is being utilized by neighboring communities including Santa Fe and Albuquerque. In June 2018, the ESB received a presentation about the many services that could be provided by Recycle Coach for one-tenth of the cost in comparison to Recycle Bank.

The services are primarily focused on education and outreach, provide alerts for trash, recycle and yard trimming collection dates, and other valuable features that would help improve overall customer service and experience. Also, there are no foreseen problems that would violate the Anti Donation Clause.

A motion was made by Member Rogers, seconded by Member Barns, that the ESB recommend to County Council to utilize Recycle Coach services and pay the additional \$100/year for text capability. instead of Recycle Bank services.

The motion passed unanimously.

Yard Trimming Roll Cart Program Update

Presenters: James Robinson

The new yard trimming program began July 9th. To date, 2,500 households have received yard trimming roll carts and 17.04 tons were collected in the first week. The amount of yard trimmings collected diverted one truckload from Rio Rancho Landfill. There are additional requests for 700 more yard trimming roll carts, and staff has placed an order with the supplier for an additional 724 roll carts which will, unfortunately, have a two month lead time. Los Alamos County also received a RAID grant from NMED Solid Waste Bureau, in the amount of \$31,704 which will fund an additional 600-650 yard trimming roll carts depending on plastic resin rates.

Staff has fielded many calls and emails regarding the alternating collection for yard trimming and recycle collection. These contacts have resulted in requests to upgrade the size of recycling roll cart or provide additional recycle roll carts to residents given the every other week collection schedule. At this point, we have depleted all 96-gallon recycle roll carts and have one hundred 64-gallon roll carts left to distribute. Staff is in the process of ordering more 96-gallon recycle roll carts.
