

YCC AND VOLUNTEER PROJECTS 2019

YCC TRAIL MAINTENANCE

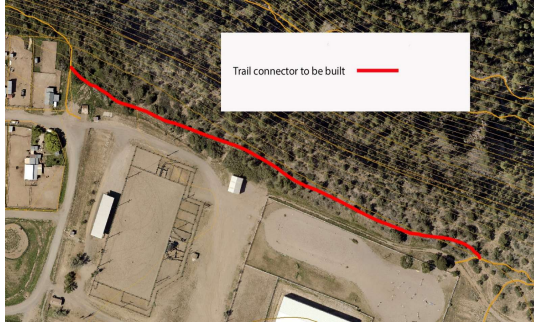

- The YCC crew will begin the season learning trail maintenance techniques, such as installing water bars, rock walls, out sloping and pruning.
- Trails we will be working on:
 - Pueblo Canyon Rim Trail
 - Dot Grant Trail
 - Bayo Canyon Trail
 - Perimeter Trail
 - Camp Hamilton Trail

YCC TRAIL BUILDING PROJECTS

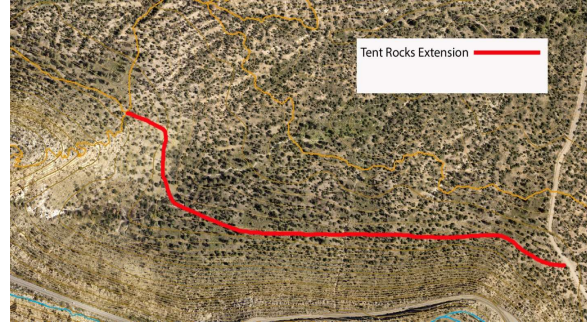

Water Bar Trail - N. Kwage Mesa Trail Connector

- The goal of this project is to build a safe and sustainable connector trail (.25) between the Water Bar Trail and N. Kwage Mesa Trail. This will allow trail users to bypass the Rodeo Ground access road. Also, trail maintenance techniques (water bars and rock steps) will be applied on the water bar trail to improve drainage.

Tent Rocks Extension Trail

- The goal of this project is to build a safe and sustainable extension of the Tent Rocks Trail (which was built by the 2016 YCC Crew) which would connect to the access road. This will also setup the opportunity to build the last leg of on Tent Rocks Trail to connect to the Trailhead located at St Rt 4 and NM 502. This will allow trail users to by-pass the access road. Also, trail maintenance techniques (water bars and rock steps) will be applied on the Camp Hamilton Trail to improve drainage and to control erosion.

VOLUNTEER PROJECTS

Pose Lodge Trail

- The goal of this project is to build a safe and sustainable multi use access into Bayo Canyon.
- Existing trail corridor needs to be improved to follow Los Alamos County Trail standards.
- Volunteer event will be in June

TUFF RIDERS PROJECTS

- Install bridge over culvert on School Canyon Rim Trail
- Monthly trail maintenance
 - Perimeter Trail
 - Woodland Trail
 - Pueblo Canyon Rim Trail
 - Bayo Canyon Trail
