Los Alamos County Open Call For Art

C/O Father Theophan

Los Alamos County

1000 Central Avenue

Los Alamos, NM 87544

Please accept the following proposal for the purchase of my photography to be displayed in the Los Alamos Airport. There is nothing like a photograph to show the beauty of Los Alamos and the surrounding areas.

The image is the view that you see when you are on final approach to the Los Alamos Airport. It shows the runway and the surrounding area.

After meeting with Father Theophan we both decided that a 48" X 96" would be the best size for the area in mind, which is the West facing wall on the left as you exit the airport.

The finished product would be a digital chromogenic print on Fuji Crystal archive material. The photograph would then have a pressure sensitive UV "Mac Tac" over lamination mounted to "Dibond Aluminum" with a ¾" thick wood museum hanger on the back (see Exhibit A). This is a museum quality process. This will be delivered to you and installed by your maintenance staff with my supervision. The estimated price would be \$6600.00.

Thank you for this opportunity and I look forward to providing this beautiful image for the community of Los Alamos to enjoy.

Sincerely,

Don Taylor
