Subject: Re: Kids Triathlon

Hi Dianne

This is quite belated, but I wanted to thank you and all the staff and volunteers involved in the Kids Triathlon. It was very well organized which clearly took a lot of effort on top of an already full/long/early day and I just wanted you all to know how much that extra effort means to the kids participating and their families. It was a huge goal for my sons (ages 5 and 7) and an enormous confidence-booster for both to be able to complete it. It's inspiring me to consider training for an adult triathlon; kids lead the way! They were their t-shirts 80% of the time and are always excited to tell people how

they got them, and the medals, the medals. The medals are really special to them. It's just so great that you put this on and I hope it continues, we will certainly continue to participate if so! (And spread the word to our SF friends, it's well worth the drive up!)

Thanks,

Juliana
