

# Ed Grothus Sunflower

Public comment from 10/12/18 Evening of Arts and Culture

The sunflower installation is a great idea—love that it's essentially made from recycled materials and would be on display at a very appropriate location—the Eco-Station! –Lauren McDaniel

I think it would be great to have the Sunflower in Los Alamos. Ed had such a presence in Los Alamos for many years that it would be nice to recognize him in a non-controversial way.

I think the location is perfect! The piece is delightful and will be a great enhancement to the area.

This seems like a very important piece of Los Alamos history. The Eco Station sounds like a great location. I'd love to see this preserved! --Carrie Walker

I saw the photograph of Ed Grothus's "Sunflower" sculpture at the Evening of Arts and Culture, and I like the look of it. I hope the County will accept it and install it somewhere appropriate. – Howard Barnum

I think the suggestion location is a good idea. –Mary Hubek

Would be nice to have something done by Ed Grothus, who was a real local character! Especially something non-political. And he was a great recycler himself.

Yes, this is part of Los Alamos history! And it's bright and beautiful. Please restore it and install it prominently where we can all enjoy it and think about its meaning(s). At recycling center would be fine. –Nona Girardi
