A. Update on the Legal Landscape for Codes from Judge Allen

Chair Ozment introduced Judge Allen and invited her to the podium to give her presentation to the board. Judge Allen told the board some of her legal background in JLab and Teen Court. She stressed her judicial philosophy and the importance of remaining impartial when hearing a case. Judge Allen reviewed the court and police forms associated with criminal cases, citations, and summons. She also explained the sentencing options, disposition of 2018 code charges and cases, and common legal definitions related to cases. She reported that codes cases have never resulted in jail time and in only two cases was a fine levied. Mr. Andrus explained that in the future the charging document will pare down the number of offenses to focus on only the most egregious violations. The board asked questions and received responses from Judge Allen and Mr. Andrus.
