LOS ALAMOS

VISION

Los Alamos is a world-renowned community where discovery and innovation are inspired by its dramatic history. Extraordinary educational, recreational, and cultural opportunities abound in a vibrant and welcoming small-town atmosphere situated in a magnificent mountain setting.

INTRODUCTION

Los Alamos County Council, with input from County staff and community members, reviewed and updated the 2024 strategic plan and subsequently adopted these five goals and 22 objectives for 2025. The goals and objectives address issues that are important to the community and the governance of essential functions. They are tools to help maintain a focus on important and challenging issues. They are not all-inclusive of the broad scope of the County's work and investments.

While all 22 objectives are important, the top five rankings in the National Community Survey, conducted in August/September 2024, are effective, efficient, and reliable services; local business; housing; fiscal stewardship; and communication and engagement. Notably, the survey's 74 percent overall rating of County services is a statistically significant increase of 10 percent over the 2022 rating. Highest performing areas are public safety, natural environment, parks and recreation, mobility, and arts and culture. Lowest performing areas are economy (quality and variety of businesses and services), affordability (housing, food, health care and services), and community design (appearance, new development, and housing options).

Concrete actions for addressing each of the 22 objectives will be determined, in the context of community survey input and all ongoing County efforts, for making and communicating progress and identifying challenges throughout the year. Many of the actions will come from existing plans listed at the end of this document, which can be found on the County's website using the search function. An electronic performance dashboard, also available on the County's website, captures the scope of County actions to address each of the objectives and to enable measurements to be assigned and tracked.

A high-level summary of the progress made toward the 2025 strategic goals and objectives will be provided in the State of the County Annual Report in January 2026.
