20834-25 Piñon School Trail Connection Project & NM4 Crossing & Multi-Use Trail Improvement Projects Update

Presenter: John Stricklan, Engineering Project Manager

John Stricklan provided an update covering the project background, funding sources, existing conditions, and the overall project schedule.

Project Scope:

Los Alamos County has secured Congestion Mitigation and Air Quality Improvement (CMAQ) funding from the New Mexico DOT to design and construct a new multi-use trail along the north side of NM 4, as well as to reconstruct the existing multi-use trail along the south side of NM 4. These improvements will connect to a new enhanced midblock at-grade crossing located between La Vista Drive and Sherwood Boulevard in White Rock. The project also includes reducing the westbound lanes on NM 4 from two lanes to one and installing a Pedestrian Hybrid Beacon (HAWK) to improve safety at the new crossing.

Additional work includes building a trail network within Piñon Park-County-owned open space-featuring new trail alignments and reconstruction of selected existing trails originally built in the late 1980s that have deteriorated and no longer meet ADA standards. In total, the project will construct approximately 2,500 feet of new multi-use trail and reconstruct about 3,500 feet of existing trail along NM 4 and within Piñon Park.

The County has also obtained an easement from Los Alamos Public Schools to reconstruct the existing trail along the west side of Piñon School, from Piñon Park to Grand Canyon Drive. Federal construction funding has been secured for this portion of the trail network.

20835-25 Review FY26 Transportation Board Work Plan

Chair Hampton will review and revise the draft work plan. The item will be placed on the December agenda as an action item. Members will review and approve the work plan before it is submitted for Council approval.
