I do not believe this Public Art project on the Justice Center is a good use of public funds.	I believe that having such a beautiful piece of art in a location where the lanes merge is a distraction--especially to visitors, that may not know the road constricts.	I don't mind the location, but not everyone will always agree with the location. Something still needs to be done with the golf course wall.
No	I prefer the dynamic color of Local Flora & Fauna 1. Number 3 is my least favorite as the background of the mural matches the wall.	Maybe a more realistic background

If you're going to spend this money on art, it should be tasteful and complimentary to the beauty of our community. Some may say the historical factor is added to everything but I think some kind of inclusion of imagery such as main gate or other things related to Los Alamos's founding could make it feel more community based

I'd love to see a bear or mountain lion. A flock of geese in the sky?

Community based art wall	Option 3 with some amendments, if possible, using some cultural references rather than more flora & fauna. Culture is a societal construct and the design doesn't seem related to 'culture.' "...various species, including primates, birds, and even insects, exhibit cultural behaviors such as tool use, communication, and food preparation methods that are passed down through generations." (AI generated from Wikipedia and Psychology Today). Or perhaps not call it Cultural References but something like "Serene Southwest".	118884279525
I would rather see the wall blank, then spend the money on this project	The choppy abstract with skewed scale among the elements isn't my preference so I would say "relative scale" and maybe "flow" between elements.	I really like all 3, but option 2 is my favorite.
Longtime resident over 20 years	The 'first glance' is that this is more of an arid desert scene, not the mountainous vistas we actually see surrounding this community.	118885865136

This location should be used for community or the same as the location below the bridge by the co-op	I prefer the more abstract example. These large bright pictures remind me of a coloring book.	Ponderosa Pines and Aspens
This seems like a horrible waste of money and will be much better suited elsewhere in the community.	Science or History would be a better option.	118887192101

Don't have a preferred design.	118884119248	I have never seen a roadrunner in Los Alamos. Maybe they are in the outskirts, but the presence of the roadrunner in every mural I think is incorrect. In Mural 3, I would rather see a deer or whiptail lizard; and an acorn woodpecker, instead of the roadrunner.
Keep what's left of the beautiful natural environment.	n/a	See above. I very much support a mural in town, but the contents can be more accurate in my opinion. I had a hard time deciding between Mural 2 and 3, but I like the muted tones of the canyon walls background in Mural 3. I think it fits better in Los Alamos, and what we see from town.

Deer are the unofficial mascot of Los Alamos , where are they ? Or do we just see to many in real life ?	I think art is great, but I've worked with nonprofits and government organizations to realize mural projects in Santa Fe and Taos and your budget is way too high, indicating you are wasting money or being taken advantage of and therefore irresponsible. You should hire an artist that is an indigenous person/member of a local Pueblo community. Your design proposals are without meaning or message and empty of any real impact, like so much of what this town produces or approves. Do better, push yourselves and serve our other community. <p>In my opinion painting a mural in town is not a terrible idea , but let's have some better examples . We as a community don't have to rush into things just because the council has money burning a hole in their pockets . Maybe we should just save our money and not paint a mural at all . I'm sure there are better ways for Los Alamos County to spend my tax dollars if they would just put their minds to it . <p>I hope this is a joke and you are not seriously considering spending \$55,000 on a mural. Upon entering the town, at the roundabout, everyone is immediately greeted by an eyesore from a razed hotel. How about focusing on doing something with that dump? And Marimac "shopping center" has a bunch of boarded up old businesses - another dump. And the old CB Fox is "boarded up" - another dump. And don't get me going on how many businesses/buildings near the White Rock Smith's are abandoned - another dump. <p>We should not spend taxpayer dollars on art when we have higher priorities, such as housing and businesses in Los Alamos</p> <p>118893638267</p> <p>Does not depict Los Alamos, or jive with the feel of the town</p> <p>Does not fit the feel</p> <p>Just don't</p> <p>Not the kind of art we want or need</p>		<p>Maybe a prairie flower because it's the first flower of spring here every year</p> <p>No</p> <p>118884186180</p> <p>Maybe some mountains.</p> <p>No</p> <p>118884221556</p> <p>a bear</p> <p>Get rid of the scribble on the deer</p> <p>118884243235</p> <p>Love the raven</p> <p>Overall I prefer the more traditional #2, but the #1 design has apricots and deer and cactus that are wonderful. Something from the lab, like a satellite comm dish or the bridge? The #2 butterfly is too large! Move the tanager down there and put in a smaller butterfly up.</p> <p>118884616476</p> <p>It would be neat to include petroglyphs somehow in Option 2</p> <p>118885946252</p> <p>Like #1 choices of flora and fauna but without the scribbles.</p> <p>Remove the scribbles that seem to act as an eraser.</p> <p>Would like to see a bear, pinion jay, and a petroglyph.</p> <p>118888639560</p> <p>I am not sure if this survey will be used just to pick one of the 3 options or to provide feedback to the artist.</p> <p>I like the canyon image- including the Sangre de Cristos would seem appropriate too</p>

		<p>I like this location over the golf course. It has greater visibility and accessibility</p> <p>I love the local landscape and the roadrunner - I would prefer fewer images and better incorporation of the images into the design as a whole</p> <p>I really like the concept but I'll admit that I think the designs are falling a bit short. The images feel disjointed to me. The one with the bikes for example flowed together much better.</p> <p>I support the project but would like to see updated designs based on feedback. I do like that public concerns over the location were heard and acted upon and I like the new location</p> <p>It captures Northern New Mexico but nothing in the design feels special to Los Alamos except for the one view but if it hadn't said it was the Anderson overlook, I wouldn't have known it</p>
		<p>118893222643</p> <p>Don't like the right panels of #s 1 and 2. Looks unfinished.</p> <p>I would like #1 better if the white section with blue ribbon would be replaced with flora or more birds and would change my vote.</p> <p>Mountains Not sure. Think it's a good project but needs some adjustments.</p>
