

Community Services Department Ashley Pond Shade Structures Proposal

Project Background

- Funding Allocated - \$100K
- Install two (2) shade shelters at Ashley Pond
- Shelters will be ADA Accessible
- Both Shelters will be placed at the main parking area where it is naturally inviting for park user to rest and enjoy the beautiful views
- The shelters will be a welcomed location for families/visitor's enjoyment during gatherings and summer concert series
- Shelter options / steel, wood combination

Project Timelines

- June/July - Select vendors and begin the procurement process
- August - Begin planning stages of shelter builds
- September - Begin the process immediately following the conclusion of the summer concert series
- October/November - Shelter install complete

Proposed Shade Structure - Landscape Image / Locations A & B

Ashley Pond Icehouse - Existing Structure

Ashley Pond Shade Structures Proposal - Steel Shelter

Single-tier, 24-gauge metal roofing, factory applied powder coat finish on all steel components, 4:12 roof pitch. Columns are available in steel with a stone wrap.

Ashley Pond Shade Structures Proposal - Wood Shelter

Cedar Forest Products uses glue-laminated timber, or glulam (highly innovative construction material). The roof is available with standard asphalt shingles, 29-gauge Max Rib Roofing and 26-gauge MED-LOK metal roofing. The natural beauty enriches the landscape in any setting. Columns are available in wood, steel and with a stone wrap.
