General Funds: Most cash belonging to all funds (excluding certain segregated and restricted cash and investment balances) is pooled into one common account to optimize investment opportunities. Each fund whose monies are deposited in the pooled cash account has equity therein. Interest earned on the

investment of these monies is allocated to substantially all of the County's funds based upon relative equity at year-end. Funds that are solely funded by transfers from the general fund and certain grant funds may not receive interest income. Significant negative balances incurred in pooled cash at year-end are treated as interfund receivables of the General Fund and interfund payables of the deficit fund, except where the deficit fund has liquid investments to offset the deficit in pooled cash. In such cases, the investments are shown net of the pooled cash deficit.

Capital Projects Permanent Funds: The Capital Projects Permanent Fund accounts for amounts set aside by the County Council and the County Charter for capital projects. These amounts are designated for long-term investing. The real value of the fund principal is required by County Charter to be maintained at an annual level that keeps pace with the implicit price deflator for the gross domestic product (GDP). The permanent fund has a portion of fund balance Restricted for Income Stabilization in accordance with County Code Sec. 20-361. This arrangement establishes a cushion in the fund, to allow market fluctuations affect the stabilization balance without impacting the real value of principal.
