52.	State Road 4 Trail Access Point	107
53.	Mountain Meadows-Chamisa Trail Access Point	109
54.	Cañada del Buey Trail Access Point #2	111
55.	Blue Dot Trailhead	113

### i. Key Terminology

Component	Definition
Directional Signage	Signage that directs trail users to the trail and provides general information on the trail direction, length, and connections to other trails.
Informational Kiosk	A kiosk that includes the trail name, general trail usage rules, operational announcements, and a trail overview map
Trail ID Signage	A sign that includes the trailhead name for a trailhead and the trail name for trail access points to the trailhead/trail access. The sign should be larger so that the trail access or trailhead can easily be distinguished and located.
Trail Access Point	A point of connection to a trail or trail system. A trail access point at minimum should include Directional Signage and a Trail ID Sign. Other amenities could include dog waste stations, trash respectable, seating, and a informational kiosk.
Trail, Multi-Use	An accessible trail that is separated from the road and provides recreational opportunities or connection to walkers, bikers, rollerbladers, and equestrian users. Paths that make a circuit within a single site are "Loop Walks."
Trail, Primitive	A trail, unpaved, located within a park or natural area that provides recreational opportunities or connections to users. Minimal surface improvements that may or may not meet accessibility standards.
Trailhead	A designated staging area at a trail access point. The trailhead should include a Trail ID sign, Directional Signage, Informational Kiosk, parking, trash receptacles, and dog waste stations. Trailheads may also include restrooms drinking water, shade, and seating.

### ii. Trailhead Assessment - Overall Approach

Each trailhead or trail access point was scored in the following four (4) categories:

- 1. Evaluation of Comfort and Convenience Features
- 2. Evaluation of Trailhead Design and Ambiance
- 3. Neighborhood Score
- 4. Community Score

### (1) Evaluation of Comfort and Convenience Features

This inventory evaluates features that provide comfort and convenience to the users. These are components that a user might not go to the trailhead specifically to use but are things which enhance the users' experience by making it a nicer place to be. The presence of features such as shade, seating, and restrooms have the effect of increasing the value of the trailhead or trail access point. Assessment includes documentation and evaluation of the following 11 components:

- 1. Trail ID Signage
- 2. Parking
- 3. Directional Signage
- 4. Shade
- 5. Informational Kiosk
- 6. Trash Receptacles
- 7. Restrooms

- 8. Lights
- 9. Seating
- 10. Water Fountain
- 11. Dog Pick-Up Station

Comfort and Convenience Features are scored using the following rating system:

**0** = Not Functioning or Not Present; **1** = Below Expectations; **2** = Meets Expectations; **3** = Exceeds Expectations.

**Overall Comfort and Convenience Score Rubric:** 0 to 11 = 1.1; 12 - 24 = 1.2; 25 - 36 = 1.3

### (2) Evaluation of Trailhead Design and Ambiance

Using the same scoring system that is used for components, the quality of overall *Design and Ambiance* was evaluated. The quality of the users' experience is enhanced by a pleasant setting and good design and diminished by a lack thereof. Good design not only makes a place look nice, but it also makes it feel safe and pleasant, and encourages people to visit more often and to stay longer.

**Design and Ambiance** are scored using the following rating system:

1 = Below Expectations; 2 = Meets Expectations; 3 = Exceeds Expectations

### (3) Neighborhood Score

Each trailhead or trail access point was evaluated from the perspective of a resident *that lives nearby*. High scoring trailheads are easily accessible to pedestrians in the neighborhood and are unobtrusive to the surrounding neighborhood. Trailheads that do not have a high neighborhood score may not be located within walking distance of residents or may draw large crowds for which parking is not provided.

**Neighborhood Score** uses the following rating system:

1 = Below Expectations; 2 = Meets Expectations; 3 = Exceeds Expectations

### (4) Community Score

Trailheads or trail access points were evaluated from the perspective of residents *in the greater community*. High scoring trailheads in this category may be unique within the recreation system, have a broad draw from throughout the community, have the capacity and associated facilities to serve larger crowds, or are in areas that are accessible only by car. For example, low scoring trailheads may have limited parking or controlled access for the broader community.

**Community Score** uses the following rating system:

1 = Below Expectations; 2 = Meets Expectations; 3 = Exceeds Expectations

### (5) Determining an Overall Score for Each Site

In order to compare trailheads and trail access points to one another and develop a prioritized list for improvements, an overall trail score was assigned. This was developed using the following formula.

Total Score = (Overall Comfort & Convenience Score) x (Design & Ambiance Score) x (Average of Neighborhood & Community Scores)

## 1. Canyon Rim Trailhead

#### East Road

**Evaluation of Comfort and Convenience Features** 

Component	Count	Condition, Comfort & Convenience Score (0-3)
Trailhead Signage	1	2
Parking	1	2
Directional Signage	0	0
Shade	0	0
Informational Kiosk	1	1
Trash Receptacles	1	2
Restrooms	1	2
Lights	1	2
Seating	1	2
Water Fountain	0	0
Dog Pick-Up Station	1	2
TOTAL	8	15

### **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance & Design Score (1-3)	
Trailhead/Trail Access Point	2	

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
<b>Location &amp; Trail Access</b>	2	2
Trail Connections	3	3
AVERAGE	2.5	

### **Comments:**

- Bathrooms are not ADA accessible
- Ample parking area and convenient connection to trail that crosses E Rd (below-grade) to Co-op grocery store on north side
- Kiosk signage is weathered and hard to read

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Spacious parking lot includes ADA spot

Trailhead amenities; trail adopted by Co-op

Below-grade connection across East Rd (502)

Signage is weathered and text-heavy

## 2. Canyon Rim Trail Access Point

### East Road near Fire Station

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	0	0
Shade	1	2
Informational Kiosk	1	1
Trash Receptacles	1	2
Restrooms	0	0
Lights	0	0
Seating	1	2
Water Fountain	0	0
Dog Pick-Up Station	1	2
TOTAL	6	11

### **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	2

### **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	2	2
AVERAGE	2	

### **Comments:**

- ADA access ramp from nearby parking area
- Dense tree canopy creates a comfortable and scenic access point and seating area
- Unclear whether nearby parking at Fire Station is an intended shared use lot for trail access

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Access point with trail connection beyond

Scenic forest views and dense canopy

Unclear parking permission at Fire Station

## 3. East Park Trailhead

#### At East Park

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	1	2
Directional Signage	1	2
Shade	1	2
Informational Kiosk	1	1
Trash Receptacles	1	2
Restrooms	1	2
Lights	1	2
Seating	1	2
Water Fountain	0	0
Dog Pick-Up Station	1	2
TOTAL	10	19

## **Evaluation of Trailhead Design and Ambiance**

3	Overall Ambiance & Design (1-3)	
Trailhead/Trail Access Point	2	

## **Neighborhood & Community Score**

Criteria	Neighborhood Score	Community Score
	(1-3)	(1-3)
Location & Trail Access	2	3
Trail Connections	2	2
AVERAGE	2.3	

## **Comments:**

- Shared parking with Animal Shelter
- Shared amenities with East Park shade structure, mini golf, playground

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Trail access (beyond bollards)

Shared shade structure with park

Weathered, text heavy signage

Shared parking with Animal Shelter

## 4. Graduation Canyon Trail Access

At Pine St Playlot

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	0	0
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	2

## **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

### **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	3	1
Trail Connections	3	1
AVERAGE	2	_

### **Comments:**

- Limited signage and distinguishing trailhead features make this access point difficult to locate
- Unstriped cul-de-sac makes it unclear where parking is available for trail access
- Lack of standard trail/directional signage
- Primitive, rugged trail; yet very scenic

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Parking & trail access (next to orange fencing)

Trail access is unclear

Trail access sign

Rugged yet very scenic trail

## 5. Pueblo Canyon Rim Trail Access

### Canyon Rd

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	1
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	3

### **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance & Design (1-3)	
Trailhead/Trail Access Point	1	

### **Neighborhood & Community Score**

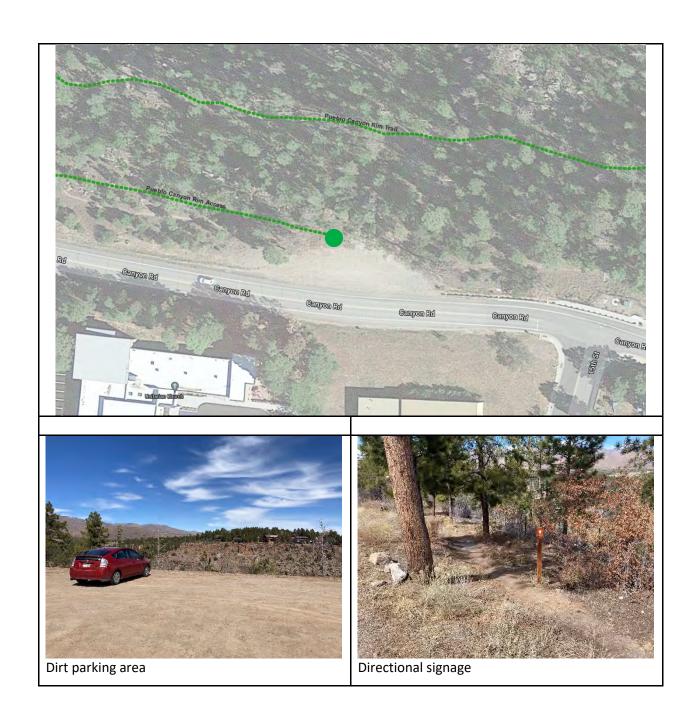

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	2	2
AVERAGE	2	_

### **Comments:**

- This access point does not show up as a GIS point
- Lack of standard trail/directional signage
- Undeveloped parking area

## Recommended Classification (Trailhead or Trail Access Point):

Trail access Point

## 6. Kinnikinnik Park Trailhead

At Los Alamos County Aquatic Center

**Evaluation of Comfort and Convenience Features** 

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	1	2
Directional Signage	1	2
Shade	1	2
Informational Kiosk	1	1
Trash Receptacles	1	1
Restrooms	1*	2
Lights	1	2
Seating	1	2
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	9	16

<sup>\*</sup> Restrooms associated with Aquatic Center

**Evaluation of Trailhead Design and Ambiance** 

3	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	2

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	3
Trail Connections	2	2
AVERAGE	2.3	

### **Comments:**

- Ample parking at Aquatic Center
- Rugged yet scenic loop trail
- Lack of directional signage at trailhead

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

## 7. Bell Trail Trailhead

## On Omega Road

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	0	0
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	0	0

## **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

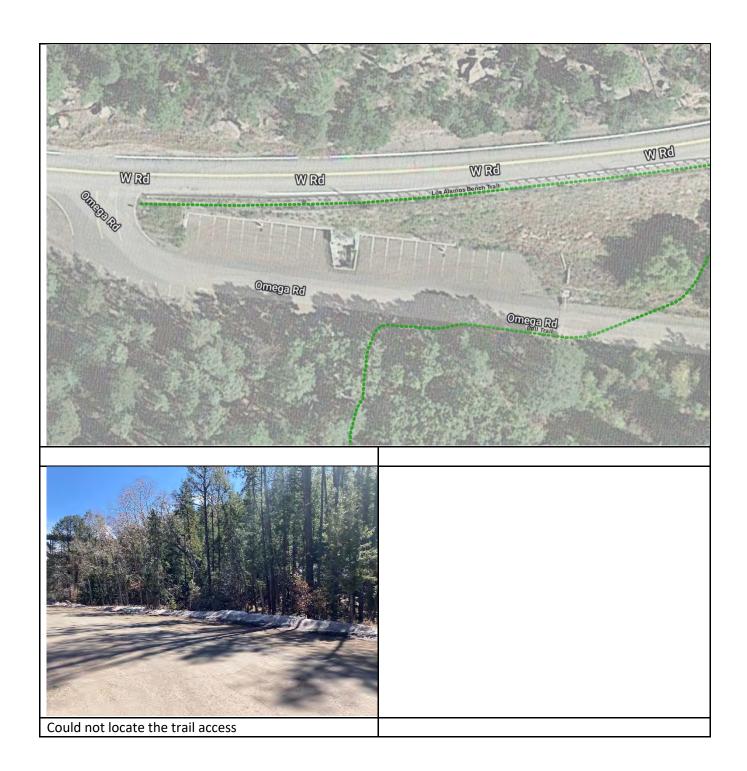

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
<b>Location &amp; Trail Access</b>	1	2
Trail Connections	1	2
AVERAGE	1.5	

### **Comments:**

- Could not locate the trail access
- Lack of standard trail/directional signage
- Undeveloped parking area
- No trailhead amenities
- There is ample space to develop a trailhead staging area

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

### 8. Quemazon Trailhead

At Quemazon Trail Rd, near Trinity Dr

**Evaluation of Comfort and Convenience Features** 

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	1	2
Directional Signage	0	0
Shade	1	2
Informational Kiosk	1	2
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	4	8

### **Evaluation of Trailhead Design and Ambiance**

3	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	2

## Neighborhood & Community Score

Criteria	Neighborhood Score	Community Score (1-3)
	(1-3)	(1-5)
Location & Trail Access	2	2
Trail Connections	2	2
AVERAGE	2	-

### **Comments:**

- Rugged trail with mulched parking lot
- Lack of signage and distinguishing amenities make trail access difficult to locate
- With access to a number of trails west of town, this should be a high priority for amenity improvements that make it a trailhead rather than just a trail access point

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Sign from Quemazon Trail Road

Parking area

Kiosk and trail access

Kiosk with updated trail map

## 9. Perimeter Trail Access Point

At 4<sup>7th</sup> St

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	1	1
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	1

### **Evaluation of Trailhead Design and Ambiance**

3	
	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

Criteria	Neighborhood Score	Community Score
	(1-3)	(1-3)
Location & Trail Access	2	1
Trail Connections	2	2
AVERAGE	1.75	

### **Comments:**

- Stairs to trail access point
- Very minimal trail access point with on-street parking available
- Convenient for nearby neighbors to access trail system to the west

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Trail access view from 47<sup>th</sup> St

Trail sign and view of trail

## 10. Upper Pueblo Trail Access Point

On north side of North Rd

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	1	1
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	3

### **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance & Design (1-3)
	Design (1-5)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	1	2
AVERAGE	1.25	

### **Comments:**

- Scenic trail into canyon area
- Parking access located at intersection of N Rd & Diamond Dr making the access to the trail difficult
- Parking is limited

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

No on- or off-street parking available

Paved drive leads to trail access

Scenic overlook at trail access; directional sign

View of trail looking west from access point

## 11. Upper Pueblo Canyon Trail Access Point

On west side of North Rd

**Evaluation of Comfort and Convenience Features** 

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	1
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	3

## **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

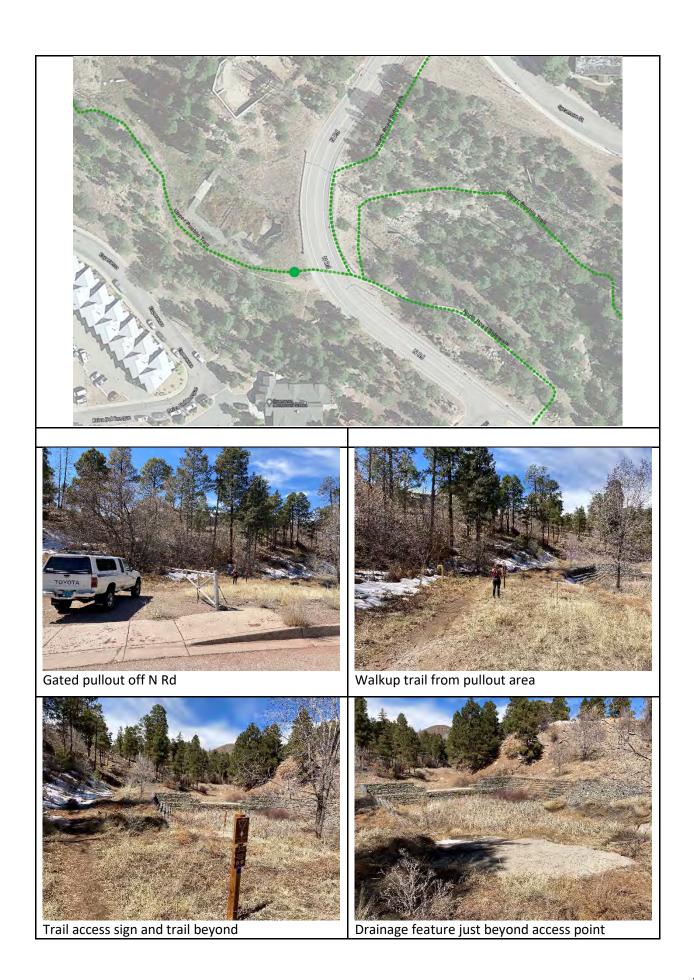

Criteria	Neighborhood Score	<b>Community Score</b>
	(1-3)	(1-3)
Location & Trail Access	1	1
Trail Connections	1	1
AVERAGE	1	_

### **Comments:**

- Scenic access point to upper canyon trails
- Undeveloped, small parking area
- Access to parking is difficult making access limited
- Lack of standard trail signage

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

## 12. North Pueblo Trail Access Point

At 48<sup>th</sup> St

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	2

## **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	2

## **Neighborhood & Community Score**

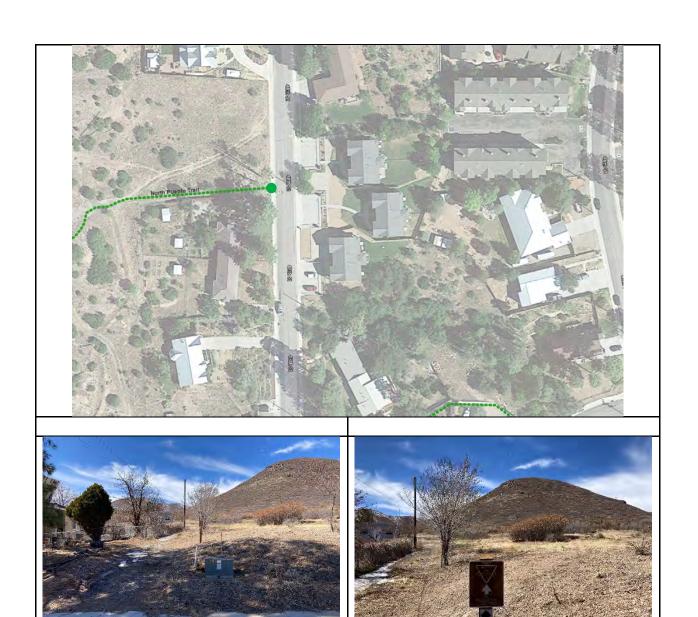

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	1
Trail Connections	2	1
AVERAGE	1.5	

### **Comments:**

- Scenic access point to upper trails
- Limited signage and distinguishing trailhead features make this access point difficult to locate
- Lack of standard trail signage
- On-street parking

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Trail sign and view beyond

## 13. Perimeter Trail Access Point

From Yucca St Total Score: 1.7

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	1	1
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	1

## **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

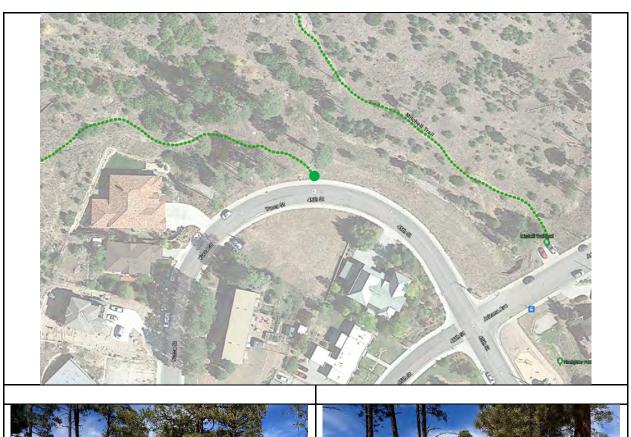

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	1
Trail Connections	2	1
AVERAGE	1.5	1

### **Comments:**

- Limited signage and distinguishing trailhead features make this access point difficult to locate
- On-street parking
- Lack of standard trail signage

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

From on-street parking on Yucca/45<sup>th</sup> St

Directional signage

## 14. Mitchell Trailhead

### On Arizona Ave

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	1	2
Directional Signage	1	2
Shade	1	2
Informational Kiosk	1	2
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	1	1
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	6	11

### **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	2

## **Neighborhood & Community Score**

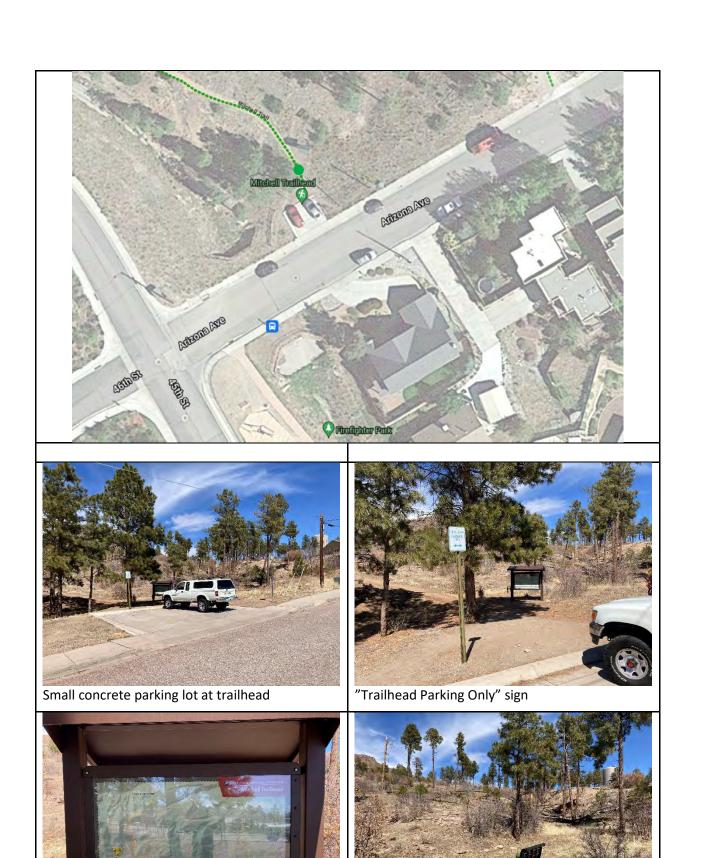

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	2	2
AVERAGE	2	

### **Comments:**

- Small but convenient trailhead for the northwest area of town
- Good shade coverage provided by established pines
- Two off-street parking spaces
- More seating could add comfort and provide a more useable trailhead

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Kiosk with updated trail map

"In memory of" seating just beyond trailhead

## 15. Nina Marsh Tennis Court Trail Access Point

Access to Upper Walnut Trail

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	1
Directional Signage	1	1
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	1	2
Restrooms	0	0
Lights	0	0
Seating	1	1
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	4	5

## **Evaluation of Trailhead Design and Ambiance**

3	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

### **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	2	1
AVERAGE	1.25	

### **Comments:**

- Minimal-amenity trail access point with shared parking at Nina Marsh tennis court
- Trail connects north and south ends of neighborhood with public tennis court; trailhead amenities could add functionality and presence to this small park
- Lack of standard trail signage
- Has space to accommodate a trailhead

### Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Unstriped parking at base of access road

Access road looking up from tennis court

Seating at tennis court

Limited trail signage at access point

## 16. Upper Walnut Trail Access Point

At 35<sup>th</sup> St

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	0	0
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	0	0

# **Evaluation of Trailhead Design and Ambiance**

3	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	1	1
AVERAGE	1	

## **Comments:**

- Narrow access trail between private property
- Lack of signage and distinguishing amenities makes trail access difficult to locate
- Lack of standard trail/directional signage

# Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

## 17. Upper Walnut Trail Access Point (2)

At upper 35<sup>th</sup> St

## **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	2

## **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

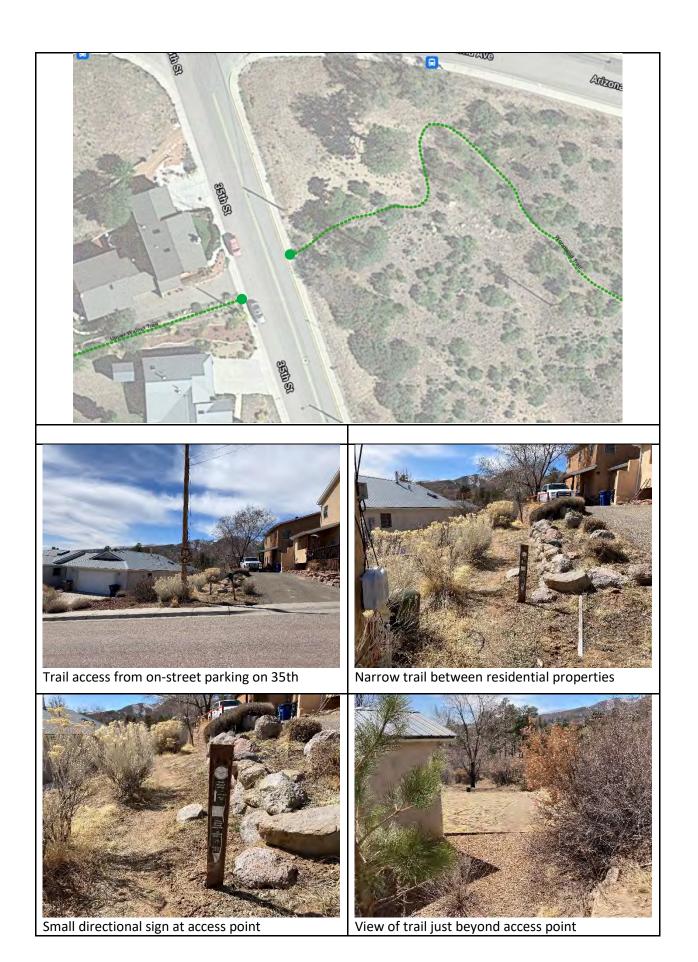

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	2	1
AVERAGE	1.25	

### **Comments:**

- Narrow access trail between private property
- Lack of standard trail signage

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

### 18. Woodland Trailhead

#### At Arizona Ave

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	0	0
Directional Signage	1	1
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	3

### **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

#### **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	1
Trail Connections	2	1
AVERAGE	1.5	

### **Comments:**

- Scenic overlook along with connections to trails north and south of Arizona Ave make this a high-priority candidate for trailhead improvements including off-street parking
- Lack of standard trail/directional signage

# Recommended Classification (Trailhead or Trail Access Point):

Trailhead

On-street parking along Arizona Ave

Signage and scenic trail overlook beyond

Boulders mark opening to Woodland Trail

Trail access across the street (Arizona Ave)

## 19. Woodland Trail Access Point

At Fire Station on Range Rd

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0

Location & Trail Access	1	1
Trail Connections	2	1
AVERAGE	1.25	

### **Comments:**

- Two minimal-amenity trail access points with potential shared parking at Fire Station
- North of parking lot access is to Woodland Trail; east across Range Rd access is to Dot Grant Trail and Dot Grant Sidewalk
- Lack of standard trail signage

## Recommended Classification (Trailhead or Trail Access Point):

Trail Access Point

## 20. Perimeter Trail Access Point

## Along Maple Dr

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	2

### **Evaluation of Trailhead Design and Ambiance**

3	
	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

Criteria	Neighborhood Score	<b>Community Score</b>
	(1-3)	(1-3)
Location & Trail Access	2	1
Trail Connections	2	1
AVERAGE	1.5	

### **Comments:**

- Minimal-amenity trail access point
- On-street parking along Maple Dr is difficult due to road geometry
- Lack of standard trail signage

# Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Trail signage and rugged, scenic Perimeter Trail

## 21. Rendija Canyon Trail Access Point

### Along Range Rd

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	4

### **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

### **Neighborhood & Community Score**

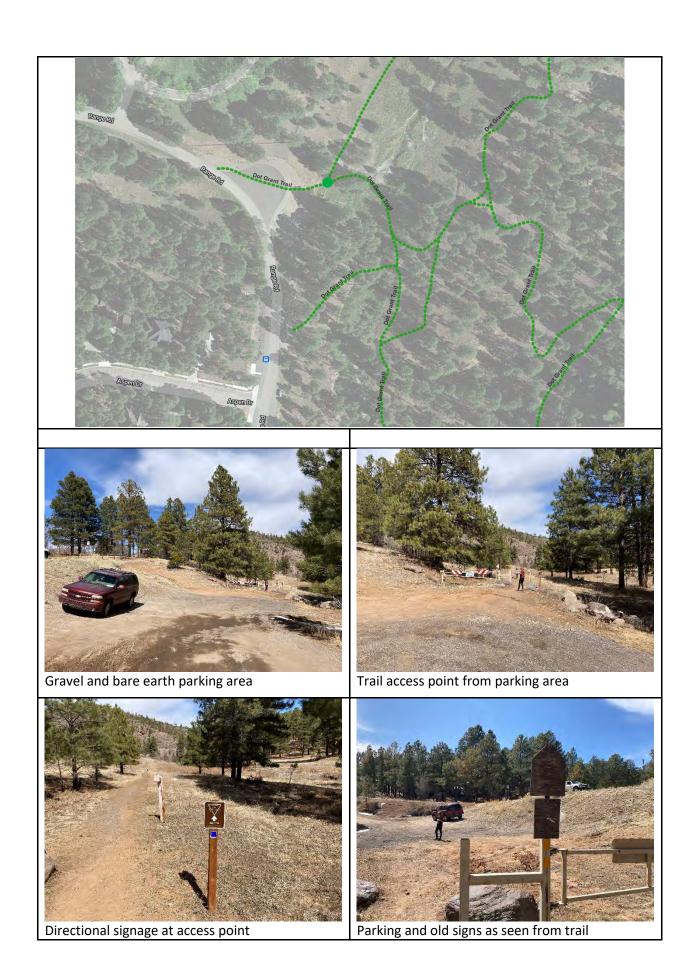

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	2 2	
AVERAGE	1.5	

### **Comments:**

- As a primary access point to the Rendija Canyon Trail and with an existing undeveloped parking area, this access point could be a high priority candidate for trailhead amenity improvements
- Currently this trailhead lacks most amenities and proper/standard signage

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

#### 22. Name:

### 23. Bayo Canyon Trailhead

### Along N Mesa Rd

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	1	2
Directional Signage	1	2
Shade	1	2
Informational Kiosk	1	2
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	5	10

### **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

### **Neighborhood & Community Score**

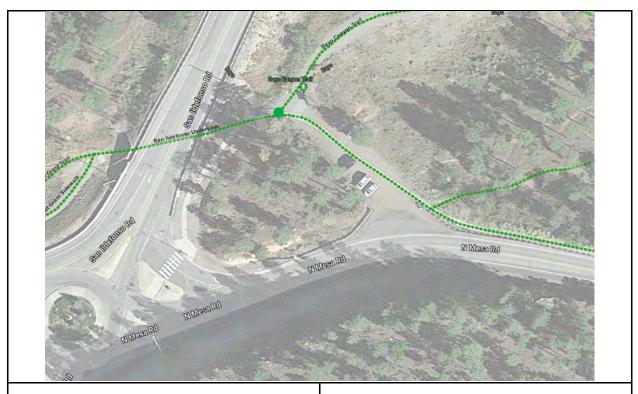

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	3	3
AVERAGE	2.5	

#### **Comments:**

- Signage to trailhead is present heading west on N Mesa Rd but additional signage along Diamond Dr could help orient motorists
- Connection to San Ildefonso underpass serves as major connection to trails west of San Ildefonso Rd, making this a higher priority candidate for trailhead improvements like parking, seating, restrooms

### Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Sign along N Mesa Rd (heading west)

Gravel parking area

Kiosk with updated trail map

Connection to San Ildefonso ped underpass

## 24. Pajarito Trailhead

## On Rendija Rd

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	1
Parking	1	2
Directional Signage	1	2
Shade	1	2
Informational Kiosk	1	1
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0

Dog Pick-Up Station	0	0
TOTAL	5	8

## **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	2

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	3 3	
AVERAGE	2.5	

### **Comments:**

- Large parking lot capable of handling group events
- Dense forest canopy surrounding trailhead creates a unique trailhead with a secluded forest feel
- Lack of standard signage and confusing access to trail

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Ample parking lot at trailhead

Kiosk sign at trail entrance - tells canyon history

Directional signage near trail entrance

Directional signage close up – Forest Map

## 25. Barranca Crossing Trail Access Point

## Along Barranca Rd

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0

### **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	3	3
AVERAGE	2	

### **Comments:**

- Undefined parking area along Barranca Rd
- Lack of standard signage
- Primary connection to trails northeast of town, scenic views throughout, and existing parking area make trailhead a high-priority candidate for trailhead amenity improvements including parking and seating

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

## 28. Bayo Canyon Trail Access Point

#### At North Mesa Stables

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	0	0
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	4

## **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	1

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	2	2
AVERAGE	1.5	

### **Comments:**

- Minimal-amenity trail access point
- Potential parking area near trail access, but could be prohibited by other uses
- Lack of signage and distinguishing amenities make trail access difficult to locate

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Trailhead sign on N Mesa Rd

Trail access between stables and manure pile

Adorable goats at stable adjacent trail access

### 29. Kwage Mesa Trailhead

#### At North Mesa Park

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	1	2
Shade	0	0
Informational Kiosk	1	1
Trash Receptacles	0	0
Restrooms	0	1
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	3	6

## **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

#### **Neighborhood & Community Score**

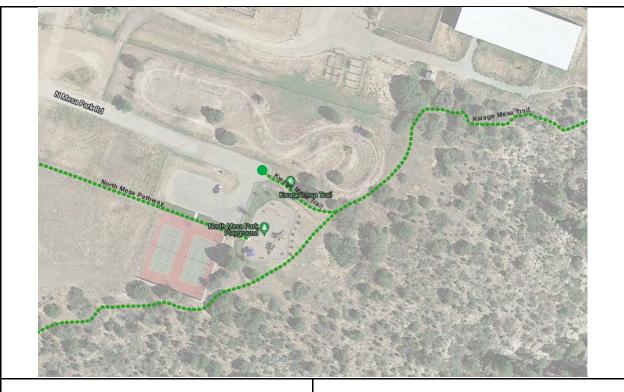

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	2	2
AVERAGE	2	

### **Comments:**

- Shared amenities with park and playground including parking make this a group-friendly trailhead
- Need for directional signage for both trails and restroom location (at Brewer Arena)
- As one of few trailheads for trails east of town, may be higher-priority candidate for trailhead improvements (including shade and seating)

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

N Mesa Park Rd and parking area

Empty kiosk and directional sign at trailhead

Restroom and interpretive sign at trail start

Restrooms further down trail at Brewer Arena

## 30. North Pueblo Bench Trail Access Point

### At Walnut Street Playlot

#### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	1	2

## **Evaluation of Trailhead Design and Ambiance**

9	
	Overall Ambiance & Design (1-3)
Trailhead/Trail Access Point	1

### **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	1
Trail Connections	1	1
AVERAGE	1	

### **Comments:**

- Shared amenities with park and playground including parking increase potential user groups for this trail access point
- Directional signage is not located at trail access from park, but further into the trail. This makes it very difficult to determine trail location and access

### Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

## 31. Homestead Crossing Trail Access Point

At 33<sup>rd</sup> St

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	1	2
Parking	0	0
Directional Signage	0	0
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0

TOTAL	6	13

# **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	2

## **Neighborhood & Community Score**

Criteria	Neighborhood Score	<b>Community Score</b>
	(1-3)	(1-3)
Location & Trail Access	1	3
Trail Connections	2 3	
AVERAGE	2.25	

## **Comments:**

- Unable to access trailhead during site visit; road closed past ski area
- Observations from Google Earth and Street View. Shared amenities with Camp May group campground site, including: small parking area, restrooms, trash, directional signage, shade canopy from established trees

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

Camp May Rd closed at ski area, ¼ mile from trail

Trailhead as seen from Google Street View as access road was closed at time of site visit. Amenities present – restrooms, seating, trash, directional signage

# 37. South Perimeter Trailhead

On West Jemez Rd

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	1	2
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0
Seating	0	0
Water Fountain	0	0
Dog Pick-Up Station	0	0
TOTAL	2	4

# **Evaluation of Trailhead Design and Ambiance**

	Overall Ambiance &
	Design (1-3)
Trailhead/Trail Access Point	1

### **Neighborhood & Community Score**

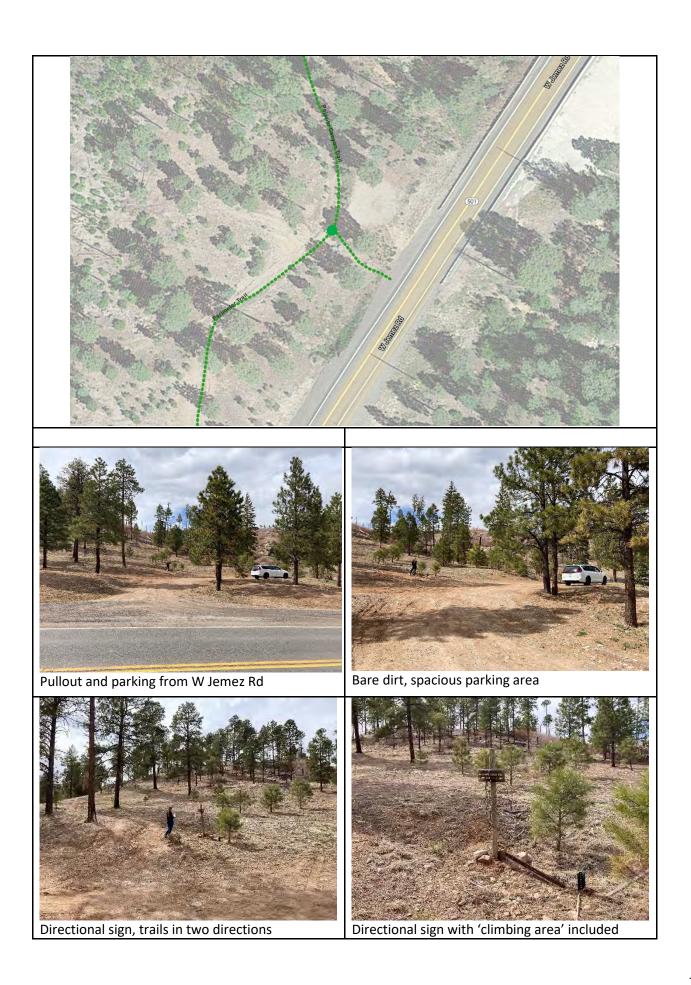

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
<b>Location &amp; Trail Access</b>	1	2
Trail Connections	1	2
AVERAGE	1.5	

## **Comments:**

- Ample parking with surrounding mature pine trees makes for a scenic trail access
- Limited street signage, trail signage and any trail access distinguishing features make this access difficult to locate
- Unique opportunity to highlight the 'climbing area' assessed from this trail access

# Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

## 38. Cañon del Valle Trail Access Point

On West Jemez Rd

### **Evaluation of Comfort and Convenience Features**

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	1	2
Directional Signage	0	0
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0
Lights	0	0

### **Neighborhood & Community Score**

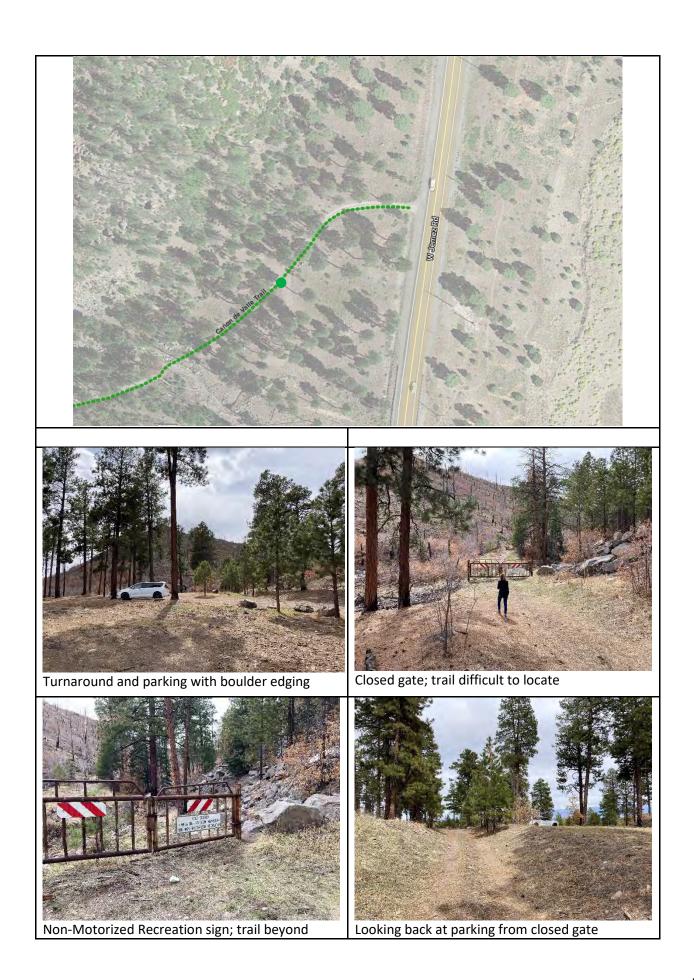

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	1	2
Trail Connections	1	2
AVERAGE	1.5	

## **Comments:**

- Minimal access point with updated gate and newer trail map sign
- Limited street and trail signage, ill-defined parking make this trail access point difficult to locate
- Directional signage at parking area would help orient users to access road
- Available space for parking and the existing trail connections makes this trail access a candidate for trailhead improvements

## Recommended Classification (Trailhead or Trail Access Point):

**Trail Access Point** 

Access gate and kiosk

Kiosk with updated trail map and trail info

## 46. Water Canyon Overlook Trail Access Point

On State Road 4, Gate 10

	Design (1-3)	
Trailhead/Trail Access Point	2	

## **Neighborhood & Community Score**

Criteria	Neighborhood Score (1-3)	Community Score (1-3)
Location & Trail Access	2	2
Trail Connections	2	2
AVERAGE	2	

## **Comments:**

- Trailhead along State Road 4 with shaded seating, signage, and a large shade structure
- Ample parking in what is potentially a commercial lot with open connection to trailhead area
- Lack of directional signage, map make it unclear where the trail connection leads

# Recommended Classification (Trailhead or Trail Access Point):

Trailhead

N Mesa Park Rd and parking area

Empty kiosk and directional sign at trailhead

Restroom and interpretive sign at trail start

## 52. State Road 4 Trail Access Point

At the White Rock on Rover Blvd and State Road 4

**Evaluation of Comfort and Convenience Features** 

Component	Count	Condition, Comfort & Convenience (0-3)
Trailhead Signage	0	0
Parking	0	0
Directional Signage	0	0
Shade	0	0
Informational Kiosk	0	0
Trash Receptacles	0	0
Restrooms	0	0

Location & Trail Access	2	3
Trail Connections	2	3
AVERAGE	2.5	

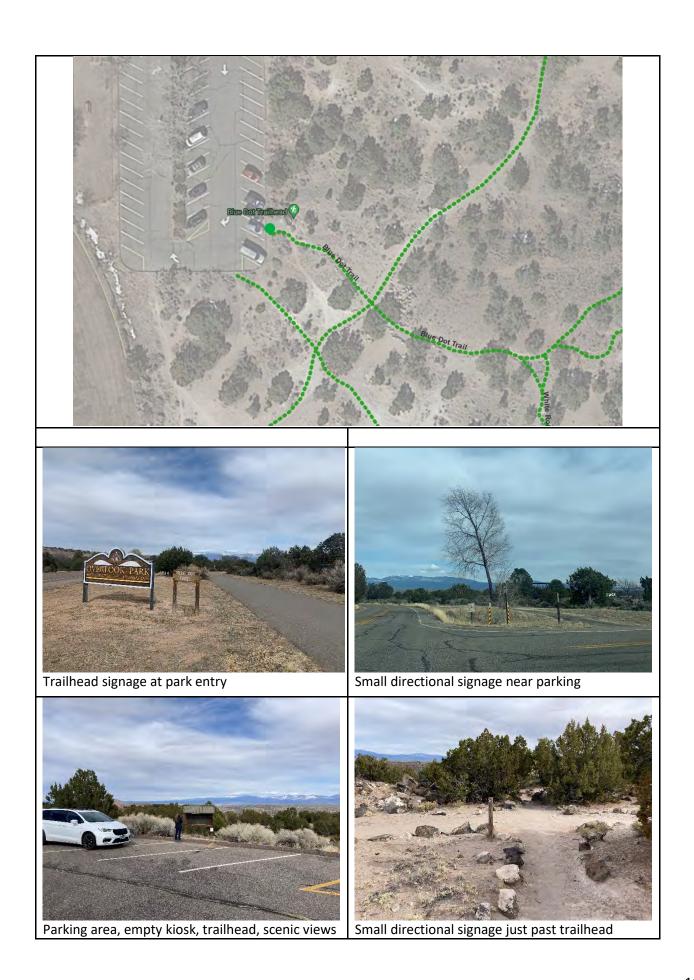

## **Comments:**

- Shared amenities with park including parking make this a group-friendly trailhead
- Scenic views from trailhead and nearby trail connections
- With multiple trail connections, existing park amenities, a high-priority candidate for trailhead amenity improvements, including signage, seating, waste, pet station

## Recommended Classification (Trailhead or Trail Access Point):

Trailhead

**Total Score: 5.5** 

Appendix H -	Descriptions	of Proposed	Additions to	Network
--------------	--------------	-------------	--------------	---------

## PART 1

# TRAIL MANAGEMENT PLAN: TRAIL ASSESSMENTS AND NEEDS

## PROPOSED ADDITIONS TO LOS ALAMOS COUNTY TRAIL NETWORK

#### Overview

Although the Los Alamos Trail Network is extensive and well-maintained, several additions to the system would address needs of trail users or simply make sections of the system more inviting to users.

Opinion surveys of trail users consistently point out that by far users prefer loop trips to out-and-back adventures. The disjointed nature of the finger mesas on the Pajarito Plateau has left many trails connected to the network in only a single location. The Los Alamos Trail Network has several gaps that when filled would create an extensive collection of possible loop trips. In other locations, existing roads provide a route to trail users where a more sustainable trail would better serve all types of trail enthusiasts. And in some locations, future acquisition of land by the County through purchase or transfer would provide the opportunity for expansion of the trail network.

#### Proposed additions to the Los Alamos Trail Network:

- 1. Quemazon Stacked Loops
- 2. Pueblo Canyon Trail Extension
- 3. Perimeter Connectors
- 4. Walnut Canyon to Walnut Rim
- 5. Otowi-Deer Trap-Kwage Mesa Connectors
- 6. Rendija Addition
- 7. Canyon Rim Trail Extension

## Quemazon Stacked Loops

The Quemazon Trail area is immediately adjacent to the Western Area and is a popular spot for both neighborhood residents and other trail users. To increase the recreational opportunities for users, a small network of stacked loops should be created. Stacked loops provide users with options for the length of their trip, the difficulty of their trip, and provide variety for the many daily users that utilize trails in their neigh-borhoods.

Two connecting trails are proposed to loop with the Quemazon Nature Trail and the Quemazon Trail. The first connector would be located just above the first cliff band on the trail. The second is adjacent to the Santa Fe National Forest boundary.

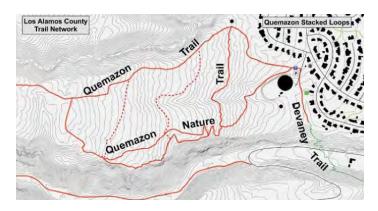

In conjunction with the existing trails in the area, the two proposed connectors would give trail users the choice between loops of one-half mile, one mile, 1.5 miles, and 2 miles. Improvements to the canyon edge route roughed-in by Mountain Elementary in 2006 would provide another option with very different views along the trail.

Segments of the proposed trails could be incorporated into the Quemazon Nature Trail as additional stops for environmental education.

Trail length: 2500 feet

Two additional connector trails on the Quemazon Nature Trail system would provide for a variety of trip lengths and offer opportunities for establishing "contempative trails" in the area.

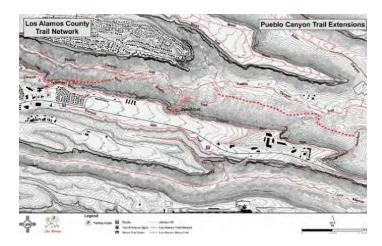

## Pueblo Canyon Trail Extensions

Pueblo Canyon offers an opportunity for longer, more adventurous trips within the Townsite. Currently the spine of the trail network in the canyon is the access road in the canyon bottom, usually called the Pueblo Canyon Trail. Recently, the Tent Rocks Trail has offered a more scenic and more recreational experience in the canyon. Still, until 2011 the only two access/egress points in the canyon were located 4 miles apart. Making a loop trip required a long time commitment. The addition of the Zipline Trail offered a cut-off for a 5-mile loop.

An additional rim-to-bottom route near Graduation Canyon would establish opportunities for several loop trips of varying lengths, as well as providing another trailhead for users of the Pueblo Canyon network. Proposed is a trail traversing from the pour-off in Graduation Canyon below East Park to the Tent Rocks Trail near its western end. This trail would allow easy access to the canyon bottom from East Park. It would create a challenging 3-mile loop with the Zipline Trail, a 5-mile trip with the Camp Hamilton Trail, and a 4-mile loop with the Ranch School Trail.

The popularity of the Tent Rocks Trail could be increased by extending it to the east. This proposal would connect that trail with the Camp Hamilton Trail The trail would traverse land currently owned by he Depart-ment of Energy but that is slated for transfer

to the County in the near future. The trail would leave the Tent Rocks Trail about halfway up its eastern ascent and contour to the east through ponderosa pine stands. It would meet the Camp Hamilton Trail, which would be part of a loop closed by the Pueblo Canyon Rim Trail.

Trail length: Zipline Two, 4000 feet

Tent Rocks Extension, 7000 feet

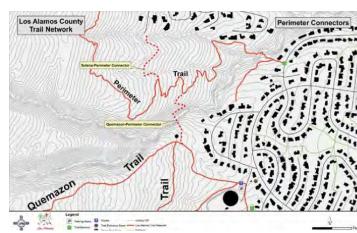

## Perimeter Connectors

The Perimeter Trail would benefit from adding two short connecting trails, one north to Solana in Quemazon Communities, the other meeting with the Quemazon Trail to the south. The Solana connection would not only provide for additional loop trips, but would help solve a long-standing problem of illegal use of old trails that now are located on private land. This short connection would leave the Solana cul-de-sac and contour to join the Perimeter as it heads across a rocky slope south of Quemazon Communities.

A vital missing link in the trail network is an easy connection between the Perimeter and Quemazon trails. Such a link would cross the south fork of Pueblo Canyon which is currently part of the Santa Fe National Forest. This narrow strip of land is a possible sale parcel and could be acquired by the County in the future. Acquisition would permit crossing the canyon with a trail connection. Because the canyon walls are steep, the link would be best served by a bridge with two short feeder trails on either side of the canyon.

Trail length: Solana to Perimeter: 900 feet

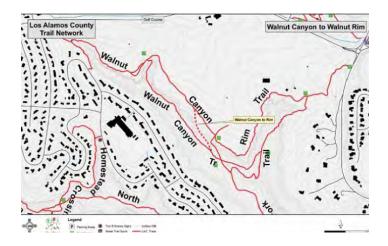

Quemazon Trail to Perimeter: from 700 to 1500 feet

## Walnut Canyon to Walnut Rim

The most direct route for trail users traveling between the north rim of Walnut Canyon and the canyon bottom is the hot and dusty Walnut Canyon Utility Road. The road is steep and has a surface of loose pumice dust and rock. This segment of the trail network could be enhanced by construction of a single-track trail between the canyon bottom and the rim.

Trail length: 600 feet

## Otowi-Deer Trap-Kwage Mesa Connectors

As the trail network developed over the years, the easy trails were located in the canyon bottoms or along the flat mesa tops. This has led to a series of disjointed linear trail corridors with few loop possibilities. This proposal would link Deer Trap Mesa on the north with Kwage Mesa on the south, traversing Barrancas and Bayo canyons to create several new loop opportunities for trail users.

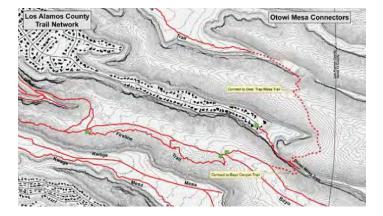

A connection between the Deer Trap Mesa South Arm Trail and the Otowi Mesa Trail would angle along the foot of Otowi Mesa. The descent from Otowi Mesa to the north is readily accomplished on the rocky slope. The trail would then skirt below Los Pueblos and bear west to head up Barrancas Canyon. A natural break in the cliff is located about a half-mile up canyon. The trail would ascend the slopes and connect with the trails on Deer Trap Mesa.

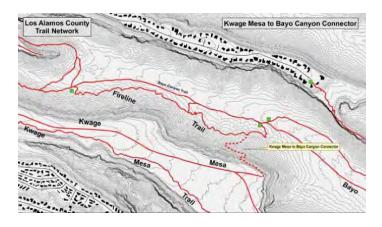

In the low saddle on Otowi Mesa below the east end of Los Pueblos, an old route leads down the cliff into Bayo Canyon. This route does not meet current safety standards, but it could be used as a gateway to develop a more modern and safe connection between the mesa top and the canyon bottom.

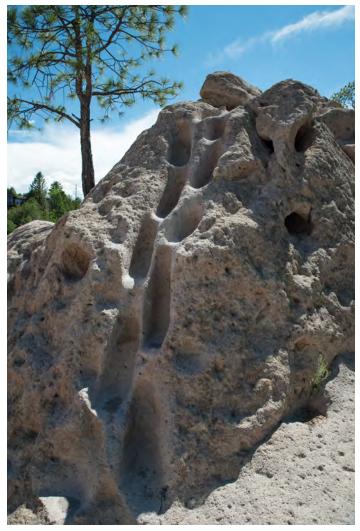

To complete this mesa and canyon trail system, a switchback trail down the north face of Kwage Mesa could be constructed to meet the Fireline Trail. The terrain in this area is more gentle than on other mesas and trail construction would be relatively easy.

**Trail length:** Deer Trap to Otowi: 6000 feet Otowi Mesa to Bayo Canyon: 300 feet

Kwage Mesa to Bayo Canyon: 2000 feet

## Canyon Rim Trail Extension

The Los Alamos County Canyon Rim Trail project will provide a scenic, safe, and easily accessible trail corridor along the south edge of Los Alamos Mesa. The hard-surface, universally accessible trail will serve the community by providing recreational opportunities for all citizens, particularly families; providing an alternative transportation route between the downtown area and the growing facilities, both County and private, immediately south of the Los Alamos Airport; and providing a scenic attraction that will draw visitors to Los Alamos.

The Canyon Rim Trail is a hard-surface pathway suitable for concurrent use by walkers, bicycles, baby strollers, runners, and wheelchairs. The pathway is 10 feet wide and the grade will remain below 5 percent. Parking and information will be provided at both ends of the pathway. Rest stops with benches will be developed at scenic observation points along the route. The initial phase of the Canyon Rim Trail between the eastern County line and East Park is complete.

The Canyon Rim Trail should be extended into the downtown area. For details, see the Canyon Rim Trail Master Plan.

Trail length: Canyon Rim Trail to 15th Street, 8000 feet
