I see problems with removing #1 from this list:

Sec. 38-299. - Prohibited activities while driving.

No person shall:

(1) Drive a vehicle while engaged in any activity which interferes with the safe operation of the vehicle;

And attempting to replace it with:

Section 2.

Section 38-315 of Chapter 38 of the Code of the Incorporated County of Los Alamos is repealed in its entirety and replaced with the following:

Section 38-315. – Distracting driving.

(a) No person shall:

(1) Operate a motor vehicle while engaged in any activity which interferes with the safe operation of the vehicle;

Placing "safe operation" only under "distracted driving" leaves a reasonable interpretation that unsafe driving that is not distracted driving does not have an ordinance prohibiting it.

For instance: Driving when too tired resulting in a collision, and I'm sure the police can provide more examples.

Sec 38-299 1) should be kept and amended to: Operate a motor vehicle in any manor which is known to the driver, or should be know to the driver to be unsafe.

This gives the police the ability to determine if a driver is safe to drive.
