

**General Information**

All County Board and Commission members must be residents of Los Alamos County. Lodgers’ Tax Advisory Board members, except the at-large community member, do not need to be residents if they are employed/represent an attraction or hotel.

Once a resident fills out and submits this application, an interview is scheduled with the B&C's County Council liaison, the relevant staff liaison, and the B&C Chair. After the interviews, the applicants' names are presented to the full Council during a regularly scheduled Council meeting, where a vote is taken regarding the appointment of each applicant. Each applicant will be notified if they are appointed or not.

**Interests & Experiences**

**Why would you like to serve on this particular Board or Commission?**

My passion is sustainability and regeneration. I was part of the team at University of Texas at Arlington who developed the MS in Sustainability under their School of Urban Planning. Fortunately, over the past two decades the steps around sustainability has gone from strictly a 'do good' moment, to also making strong economic sense. The math finally works and I would very much like to be part of helping Los Alamos County be a leader in the region around 'how to do that'.

**What would you like to accomplish during your tenure on this Board or Commission? (Please identify any special interests you have that led you to become interested in serving on this Board or Commission.)**

---

I am a big believer in roadmaps. If citizens understand where they are going and why - the ability to create success and milestones increase dramatically. Sustainability is a tool to improve quality of life. I would like to be part of building on what has been done and improve that tool.

**Have you had any direct or indirect involvement with this Board or Commission or with the County staff supporting this Board or Commission or County Councilors? If so, please explain.**

---

No

**What volunteer or professional activities have you participated in that could apply to this appointment?**

---

My work on University of Texas' team to design and develop a Master's Degree in Sustainability taught me the value of systems, connections, circular thinking, strategic design, and collaboration. It always takes a village - no matter the task at hand. As I am now on the County's Health Council - there are many synergistic parallels that I would like to explore.

**The time involved may be 10-15 hours per month or more. Are you able to serve the volunteer hours and attend training needed to perform your duties as an appointee?**

---

Yes,

**Are there any issue or matters, financial or otherwise, that you are now or might become involved in that may come before the Board or Commission for which you seek appointment?**

Not that I am aware of.

#	Question/Documented Response
1	<p>Please tell us a little about yourself and then describe your experience, education, and training that qualify you for this Board or Commission.</p> <p>Works in real estate, 2nd largest real estate company in the US. Gained interest in sustainability in early 90s, earned a Masters in environmental sustainability. Early on member of LEED, spent time in Washington, DC. MBA in Sustainability with business focus instead of science focus. Helped develop curriculum at University of Arlington. We can't sustain, we must regenerate. Moved to NM 11 years ago. How do we have growth without water. Moved to LA, 3 months ago. She sits on Health Council board. Okay with serving on two boards.</p>
2	<p>What do you believe are the greatest issues facing the County? What do you believe are the greatest issues facing the Board/commission you applied for? [Note to interview panel: If the answer to this question appears to be off base with Council's position, please explore a little more.]</p> <p>Los Alamos County is invisible, it's seen as a military complex. The board itself, not sure of the mission. We have a good water supply. Education is a role of this board.          Joe Chandler added - ESB serves as direction of the Council. ESB's role is to advise and educate. Sustainability has \$\$ allocated to tasks, it is evolving.</p>
3	<p>How do you perceive the role of County Boards and Commissions in local government?</p> <p>Boards in general are about education, help the community understand what the board does. Provide resources to support the mission. The Council has a to rely on boards to understand stuff. Specialty boards can assist with this. Ex. First mtg at Health Council meeting, she asked how many people need help? 2,000 people. Give council tools to make educated decisions.</p>
4	<p>What specific skills do you feel are important for effective Board or Commission members? Which ones do you possess?</p> <p>Listen and connect dots. Bring in network of knowledge. As a member, she can bring in expertise. She has a broad network. Reverse engineer, don't duplicate efforts. (Strongest tool in tool box - reverse engineer).</p>
5	<p>What could you do, specifically, to foster a collaborative relationship between staff and the Board or Commission on which you would like to serve?</p> <p>Creating consistent conversation, it's so easy to have conversations during crisis, once a month, lunch and learn. Appreciating that we all need to row in the same direction no matter what your role is. Health Council and ESB have complimentary goals.</p>

6	<p>Have you served on any Boards, Commissions or Committees (not only County B&amp;Cs – but also church groups, non-profit boards, school committees, etc.) within the last five years? What do you think was your greatest contribution during your tenure?</p> <p>Was recently appointed to County Health Council. Sits on Santa Fe Airport Board - it should be an economic driver for whole region. Will help develop master plan for airport. Has sat on many boards for children advocacy, helping veterans transition from soldier to green tech. Vision North Tex - created master plan and flow master plan around DFW airport. Boards are highly underated. She likes boards. They are highly connected.</p>
