

Lodgers' Tax Advisory Board Working Group

The purpose should be as follows:

With an information-finding mission, this group will meet over the course of five months to explore other tourism plans that are for areas similar in size and/or demographic to Los Alamos County.

The working group will meet monthly and is expected to report back to LTAB with an update each month. Any public solicitation of feedback/data from organizations and the community needs to be approved by the Chair.

This working group will provide a final report to LTAB by early December 2025 with their findings. The working group's findings and report will be imperative to determining the board's work plan in 2026 and understanding how tourism impacts communities like Los Alamos County.
