Dear Councilor Ryti,

I know you have two request coming before the County Council this evening regarding variance request for carports in neighborhoods where most residents have no covered parking. Two charges in the County Development Code for the staff and the P&Z Commission in Article 1 Division 4 of the code are: (i) Provide for harmonious development in the county; (n) Control and abate the unsightly use of buildings or land. I hope that in remanding these back to the commission you will gain assurances from staff that they take those requirements more seriously than they did when I was on the commission.

The approval of these carports for dubious claims of hardship will establish a precedent for similar unharmonious unsightly structures which alter the neighborhoods character and massing to be approved throughout the western neighborhood. In addition, if you take a drive through the western area in Los Alamos and some areas of White Rock you'll notice cars and RV's illegally parked in lawn areas along with equipment and trash piled up in driveways suggesting the county compliance staff is already overwhelmed with code violations. These carports will provide even more opportunities for residents to pile up junk that doesn't fit in their homes next the the sidewalk and public right of ways.

A few photos for evidence of what has already been allowed:

Please ask yourself if you'd like to live across the street from any of this, and if you think it is harmonious with your vision of Los Alamos. Apparently Count P&Z staff is OK with it as it was presented to the P&Z Commission without any recommended restrictions.

Sincerely and with great appreciation for your dedication to the county.

EASEMENT

Bayo Canyon, New Mexico FUSRAP Site

The Incorporated County of Los Alamos, a political subdivision of the State of New Mexico, hereinafter referred to as (Grantor), for the sum of \$10 and other valuable consideration, receipt of which is hereby acknowledged does hereby grant access, subject to the terms and conditions herein set forth, to the Bayo Canyon, New Mexico, Formerly Utilized Sites Remedial Action Program (FUSRAP) Site (Site) through an easement in, upon, over, under and across the Site, as further defined below, to the **UNITED STATES OF AMERICA** (Grantee), represented by the U.S. Department of Energy, Office of Legacy Management (DOE).

1. The Site, as described in Exhibit A, referenced herein and incorporated hereto, was formerly owned by Grantee, under the jurisdictional control of the United States Atomic Energy Commission (now DOE). The Site was transferred to the County of Los Alamos, State of New Mexico via quitclaim deed recorded on July 5, 1967, with the Clerk of Los Alamos County, New Mexico in Misc. Book 8, at Page 277, as Document No. 12200, Los Alamos County records. Grantor is the current fee simple owner of Site located in Los Alamos County, New Mexico and Santa Fe County, New Mexico.

2. The Site was designated in 1976 for remedial action under FUSRAP in view of small amounts of subsurface contamination remaining from high explosives experiments involving radioactive materials conducted there during the period 1944-61. A radiological survey of the site conducted by the Los Alamos Scientific Laboratory in 1976-77 identified three areas of subsurface strontium-90 contamination in excess of the criterion level. The selected remedial action was based on extensive radiological characterization and comprehensive engineering assessments. The selected remedial action comprised the emplacement of six permanent monuments around a 0.6-ha (1.5-acre) area containing the contamination and the filing of deed restrictions for this Site.

3. Grantor and Grantee agree and acknowledge that this Easement is necessary in order to protect human health and the environment. The purpose of this Easement is to prohibit excavation of the Site, except as described below, to ensure that the remedy remains protective, and Grantee retains the right of access to perform Site activities to support long term protectiveness.

4. Until the year 2142, the Grantor grants to Grantee the exclusive right of access, including rights of ingress and egress in, upon, over, under and across the Site to perform project activities related to inspections and site maintenance, if needed, and maintenance of markers or signs on the Site. This includes but is not limited to Grantee's right to make excavations of any type, including grading, ditching, or drilling, upon any part of the Site.

5. The Grantor for itself, its successors and assigns, agrees that for the protection of the environment, people, and property, Grantor is prohibited and shall prohibit others from exercising the Grantee's exclusive right to make excavations at the Site. Said land is part of Site No. 66, Bayo Canyon Parcel, as described in the Quitclaim Deed recorded on July 5, 1967, with the Clerk of Los Alamos County, New Mexico in Misc. Book 8, at Page 277, as Document No. 12200, Los Alamos County records.

6. Notwithstanding Paragraph 5 of this Easement, Grantor, its successors and assigns may excavate (which includes grading, ditching, or drilling) to a depth no lower than elevation 6620 ft. MSL, for the purpose of installing, constructing, maintaining, repairing, replacing, or relocating roads and utilities within the Site.

7. All current and future purchasers, lessees, or possessors of any relevant portion of the Site shall be deemed by their purchase, leasing, or possession of the Site to be notified of this Easement and agree for and among themselves, their heirs, successors, and assigns, that rights, conditions, and restrictions, as herein established, must be adhered to and their interest in the Site shall be subject to the rights, conditions, and restrictions contained herein.

8. The Grantor agrees that this Easement set out herein shall be recorded and incorporated by reference in each and all deeds and leases of any portion of the Site. This Easement shall be recorded by the Grantee in the Los Alamos County Clerk's Office .

9. Said Easement, including but not limited to its rights, conditions, and restrictions, are conveyed by Grantor subject to existing easements for public roads and highways, public utilities, and pipelines.

10. Grantee, its successors and assigns agrees to notify Grantor within seventy-two (72) hours of any required access to the Site. Grantee will coordinate access with Grantor, its successors or assigns, to minimize interference of their use and enjoyment of the Site.

11. Grantor, its successors or assigns, shall notify the Grantee by certified mail or electronic means, at least thirty (30) days prior to any conveyance, or intent to convey any interest in the Site.

12. Grantee, its successors and assigns, agrees that it shall obtain all necessary permits, licenses, and approvals in connection with the activities to be conducted by the Grantee on the Site.

13. The rights, conditions, and restrictions detailed in this Easement, or any portion of them, may, from time to time, be removed from the Site or portions thereof, at the sole discretion of the

Grantee, when the Grantee has determined that the Site meets regulatory standards, otherwise the rights, conditions, and restrictions of this Easement shall continue in effect.

14. Whenever any Party to this Easement seeks to give or serve notice, demand, or other communication with respect to this Easement, such notice, demand, or communication shall be in writing and shall be sent simultaneously to an authorized representative of Grantor and to the Grantee, by electronic means or certified mail with return receipt requested.

BAYO CANYON SITE

A PORTION OF SECTION 13, T.19N., R.6E., AND SECTION 7
T.19N., R.7E., N.M.P.M. IN LOS ALAMOS AND SANTA FE COUNTIES

Narrative

The Bayo Canyon Site was surveyed and monumented by Gary Dawson, NMPLS #7014, completed on the 4th of September, 1982. The record of survey was not filed with either Santa Fe county or Los Alamos county, but a surveyor's certificate was provided with legal descriptions and is a part of the "Final Report on Remedial Action at the Bayo Canyon Site" currently in the US Department of Energy Office of Legacy Management's official records. The legal descriptions are utilized in this retracement survey and are considered the primary description for restrictive covenants as outlined in said Final Report. This resurvey finds that the monuments as called for in aforesaid legal descriptions substantially match the location and description of monuments found at the Bayo Canyon Site.

Legal Description Parcel A, as prepared by NMPLS #7014:

All that part of Bayo Canyon parcel of the survey of eastern Los Alamos County tracts and parcels, County of Los Alamos, State of New Mexico, the plat of said survey filed for record in the Office of the County Clerk of Los Alamos County, New Mexico, in Plat Book 1, page 59, on the 16th day of August, 1965, as Document No. 4552, and being located in S. 13, T.19N, R.6E, N.M.P.M., which part may be described as follows:

Commencing at a point on the east boundary of said Bayo Canyon parcel, also being the county line common to Los Alamos and Santa Fe counties, which point lies N07°05'55"E, 505.27 feet more or less, from a U.S.G.L.O. brass cap marking the southwest corner of Section 7, T.19N., R.7E.; thence S62°21'12"W, 56.94 feet to a brass cap "E" set in concrete; thence N26°38'32"W, 205.79 feet to brass cap "F", set in concrete; thence N25°48'21"W, 210.26 feet to brass cap "A", set in concrete; thence N63°29'35"E, 154.67 feet to brass cap "B", set in concrete; thence S26°28'31"E, 205.62 to brass cap "C", set in concrete; thence S25°45'47"E, 60.42 feet to a point on the east boundary of said Bayo Canyon parcel; thence S07°05'55"W, 178.74 feet along said east boundary, to the point and place of beginning.

Containing 1.318 acres more or less
