Request for an ADA Modification

Title II ADA Policy

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990, as amended ("ADA"), the Incorporated County of Los Alamos ("County") will not discriminate against qualified individuals with disabilities on the basis of disability in the provision of the County's services, programs, or activities.

The County is committed to full compliance with ADA, Section 504 of the Rehabilitation Act of 1973, as amended (Section 504), and all related regulations, laws, executive orders, and directives.

The purpose of this ADA Policy is to provide the process to request modifications to County programs, services, and activities; and to establish a grievance procedure for anyone to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by the County.

It is also the County's policy to provide County staff with a fundamental understanding of the ADA, so they may facilitate participation by individuals with qualifying disabilities in County programs and services with or without reasonable accommodation.

Americans with Disabilities Act Notice

With the adoption of the ADA Audit Transition Plan in July 2022, a process and procedure has been developed so Los Alamos County can continually address accessibility barriers. The Request for an ADA Modification for Community Members document is available via a paper copy, electronically and through an online form. For more information about this process, please reach out to any a County employee for assistance with filling out the paperwork.

[ADA Access and Inclusion Solutions Process](#)[Request Form](#)

Los Alamos County is committed to making all reasonable efforts to ensure that its facilities, programs, and services are accessible to and usable by all people, including those with disabilities. The ADA Access and Inclusion Solutions Process may be used by any individual who believes that a Los Alamos County program, service, or facility is not available to them because of their disability.

Process Steps

1. Submit a written request for a solution.
