Options for Los Alamos County Airport

The artwork images below are to just show how the artwork could be installed and they could be on any wall, I just prefer that wall since it is smaller and has no direct light. They can be hung together on one wall or separately on two walls.

I can install the artworks with no framing or canvas and they will be hung with a wood slat that slips into a cloth sleeve on the back of the artwork and then screwed into the wall.

The artworks can also be mounted on canvas, either black or white, on wooden stretcher bars and hung like a painting. The images below show on stretchers/canvas that is only about 1" larger than the artwork size and then also shown are with larger stretchers/canvas about 2 - 3" around the artwork (also used for the framed images). For the black option, I plan to cover stretched white canvas with black line and stitch the artworks to the linen.

If you choose to have them framed, we can do the narrow black canvas. Frame can be a dark color if preferred.

Moonrise Jemez **18 x 28.5 inches**

Moonrise, Jemez on wall with no canvas/framing - \$1400

Moonrise, Jemez
Narrow black canvas, wooden stretcher bars
19" x 30" x 1.5"
