

ITF Report from KokHeong McNaughton (from April 17th to May 7th)

- **4/17/25 Senior Center Board.** Chair Katie Fry noted that the Betty Ehart Senior Center may have an opportunity to create an accessible nature observation space outside the great room. The Board discussed the budget and planned their annual meeting on May 15th occurring after the lunch hour at both locations. The center needs ~\$75,000/yr in donations for their annual programming.
- **4/17/25 Environment Sustainability Board.** County Sustainability Manager Angelica Gurulu presented the EV Charging plan and County Fleet Conversion study. The group also finalized their Earth Day plan for the Earth Day Festival to be held at PEEC on Saturday April 26th from 10 am to 2 pm.
- **Accessibility Working Group's** next Zoom meeting will be held the first Wednesday of May (May 7) from 6-7 PM. The focus for this upcoming meeting will be on Envisioning what LA County would look like if there were no obstacles toward inclusivity for each of the groups that we collectively represent. I shared with the group the link to Craig Martin's presentation from our last ITF meeting on April 16.
