Dear Chelsea,

A sculptor friend passed on the information about your Call for Artists. I am a North Carolina artist, but I have been represented by Ventana Gallery in Santa Fe for approximately 15 years. I was in Santa Fe for a show at Ventana last week.

I have sculpted many cats through the years. I am very familiar with African Lions, I have been studying them for most of my life, in zoos and in the wild in various countries in Southern and East African.

I would love to have the opportunity create an African lion bronze sculpture for the Los Alamos Police Station.

Best regards,

A handwritten signature in grey ink, appearing to be 'R Martin', with a stylized flourish at the end.

## Professional Summary

Through my career, I have split my time between creating fine art sculptures and product design/development for various niche markets. I have earned top honors from the Society of Animal Artists, National Sculpture Society and The Salisbury Sculpture Show. In 2018, I was honored to receive the Kayamoja Wildlife Artist of the Year at the Kayamoja International Wildlife Art Exposition (Windhoek, Namibia). My work is included in the collections of the North Carolina Zoo, Brookgreen Gardens and the Leigh Yawkey Woodson Art Museum, as well as many foreign and domestic private collections. I am a Signature Member of the Society of Animal Artists and a Fellow of the National Sculpture Society.
