1. CALL TO ORDER - ROLL CALL

Vice-Chair, Heather Ward, called the meeting to order at 5:33 pm. The following members were in attendance:

Present: Vice-Chair Ward, Member Rogers, Member MacDonald, Member Leochell, and Member Parson

Absent: Chair Cantrup and Member Benson

2. PUBLIC COMMENT

None

3. APPROVAL OF AGENDA

A motion was made by Member Rodgers, seconded by Member Leochell, that the agenda be approved as presented.

The motion passed unanimously

4. APPROVAL OF MINUTES

Approval of the October 8, 2020, Environmental Sustainability Board Minutes

<u>Presenters:</u> Angelica Gurule and Lisa Cantrup

Attachments: A - Draft ESB Minutes October 8, 2020

A motion was made by Member Loechell, seconded by Member Rodgers, that the October 8, 2020 minutes be approved as presented.

The motion passed unanimously.

Approval of the October 15, 2020, Environmental Sustainability Board Minutes

<u>Presenters:</u> Angelica Gurule and Lisa Cantrup

Attachments: B -Draft ESB Minute October 15, 2020

A motion was made by Member Leochell, seconded by Member Rodgers, that the October 15, 2020 minutes be approved as presented.

The motion passed unanimously.

5. BOARD BUSINESS

Collective Impact of the 2020 People's EcoChallenge & Recognition of Award Winners

Presenters: Lisa Cantrup

Attachments: D - 2020 People's EcoChallenge Collective Impact Presentation

Office Specialist, Sara Martinez, presented the collective impact of the 2020 People's EcoChallenge. She also recognized the award winners. The People's EcoChallenge is a 21-day environmental and social engagement program that encourages participants to create new habits that will support a healthier environment, community and overall wellness. Amidst the challenges of the COVID pandemic, our community still showed up to the challenge! There were three teams in New Mexico and two teams were in Los Alamos County, with participation from 40 community members. The #91 ranking team in the USA was Chamisa Green Team with 28 members and 3,532 points and #129 was the Los Alamos Team comprised of 12 ESB and Zero Waste team members with 2,030 points.

Bayo Canyon Composting Operation Update by Jack Richardson

Presenters: Jack Richardson and Lisa Cantrup

Attachments: C - Bayo Canyon Compost Facility Update to ESB

Deputy Utility Manager, Jack Richardson, provided an update on the Composting Operation located at Bayo Canyon. . Los Alamos County composts the biosolids from the waste water treatment plant and yard trimmings at this composting facility. This program allows the County to divert yard trimmings from the landfill and manager biosolids locally. The finished product is nutrient rich and available to all residents and businesses.

Review the County Council Approved FY21 ESB Work Plan

Presenters: Angelica Gurule

Attachments: F - County Council Approved FY21 ESB Workplan

Los Alamos County Council approved the Environmental Sustainability Board work plan on November 11, 2020. The ESB reviewed the approved FY21 Workplan.

6. REPORTS

A. Chair's Report - Lisa Cantrup

None

B. Board Member Reports

None

C. Liaison's Reports

1). Board of Public Utilities - Erik Loechell

Member Leochell reported that the Board of Public Utilities presented an update on the Los Alamos Green program. They gave an update on the scale nuclear modular reactor project that originally had 50 members but had 9 member drop out. BPU also discussed the Farmington Coal Fire plant closure in 2022. The Los Alamos Public Utility reviewed their first quarter to and their report is in parallel to what the Environmental Sustainability Board is working towards.

2). Planning and Zoning Commission - Vacant

None

3). Transportation Board - Heather Ward

Vice-Chair Ward reported that the Planning and Zoning Board presented on the Urban Trail project being completed in 2022. This project will improve mobility

Minutes

downtown.

4). Parks and Recreation Board - Heidi Rogers

Member Rodgers reported that the Parks and Recreation board talked about the progress and updates on the Trails and parks. They have also invited Member Rodgers to present to the board on December 10, 2020 about RoundUp.

5). Community Development Advisory Board - Vacant

None

6). County Council Liaison - David Izraelevitz

Councilor Izraelevitz reported that the ESB work plan was approved by the County Council and explained how work plans that come to them work. He also commented that County Council has notice how much the ESB actively solicitants public input on numerous projects. Also, that the yard trimming program that started July 2018 is a very popular program.

D. Team Reports

1). Los Alamos Public Schools Team - Angelica Gurule

Environmental Services Manager Angelica Gurule reported that the Environmental Service Division Co-hosted with Los Alamos Public Schools this year's Recycle Art Fair and Fashion Show virtually. She also reported that County Council are looking into purchasing reusable utensils for LAPS for the next school year.

2). Zero Waste Los Alamos - Alesia Benson/Sara Martinez

Office Specialist Sara Martinez reported that the Zero Waste team discussed how the virtual Recycle Art Fair and Fashion went and how it could improve. They also continued their discussion on Backyard Composting education. Katie Leonard mentioned the Citizen Petition to request Los Alamos County Council to appoint a task force to make recommendations to align with the State of New Mexico's Climate Change Plan. Future events for the Zero Waste team include a Food Waste Webinar in January as well as presentations about how recycling is being handled now.

7. STAFF REPORT

Environmental Services Business, Operation and Event Update

Presenters: Angelica Gurule

Environmental Services Angelica Gurules gave the ESB and update about what is going on in the Environmental Service's division. This included:

- soliciting proposals to perform a Food Waste Composting Feasibility study and Design Service
- The Eco Station transfer station ventilation system

- Household Hazardous Waste site improvements
- Recycle Art Fair and Fashion Show
- Yard trimming participation

Friedman Recycling conducting a recycle audit on December 2, 2020.

October 2020 Residential Sustainability Report

Presenters: Angelica Gurule

Attachments: E- Residential Sustainability Report - October 2020

N/A

8. PREVIEW OF UPCOMING AGENDA ITEMS

Environmental Sustainability Board reviewed and discussed the October 2020 Residential Sustainability Report. The data now includes more data and graphs that will demonstrate overall diversion as a result of the new yard trimming program which began July 9, 2018.

9. ADJOURNMENT

With no objection the Environmental Sustainability Board adjourned at 7:04 pm.

If you are an individual with a disability who is in need of a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing or meeting, please contact the County Human Resources Division at 662-8040 at least one week prior to the meeting or as soon as possible. Public documents, including the agenda and minutes can be provided in various accessible formats. Please contact the personnel in the Community Services Administration Office at 662-8163 if a summary or other type of accessible format is needed.

Title

Election of Environmental Sustainability Board Chair and Vice-chair

..Suggested Motion

I move that [insert name] be appointed Environmental Sustainability Board Chair, with a term date beginning January 2021 and ending December 2021.

I move that [insert name] be appointed Environmental Sustainability Vice-chair, with a term date beginning January 2021 and ending December 2021.

Body

The Boards & Commissions Rules indicate that each Board shall annually elect a Chair and Vice-chair from among its members. The Chair and Vice-chair will serve at the pleasure of the Board and will be eligible for election to subsequent terms.

The existing Chair shall call for nominations for Chair, followed by Board comments, and then a vote. The same process applies for the election of a Vice-chair.

Title

The Discards Hierarchy Presentation

Recommended Action Motion

N/A

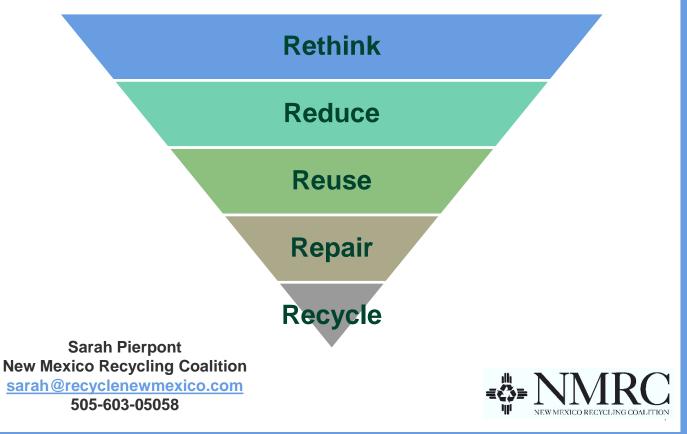

Body

New Mexico Recycling Coalition Executive Director, Sarah Pierpont will provide the Environmental Sustainability Board an update on the local and global recycling market. In the presentation she will delve into where are exports recycle materials going since China closed its doors and the problem with plastics. She also provides solutions for this dynamic recycle market such as reduce, reuse and zero waste.

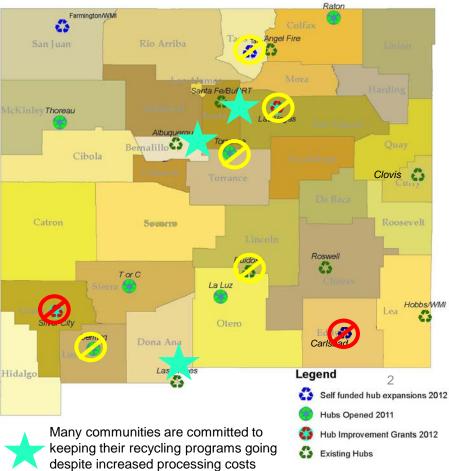

Attachments

C - The Discards Hierarchy Presentation by Sarah Pierpont

The Discards Hierarchy

New Mexico Hub and Spoke Recycling

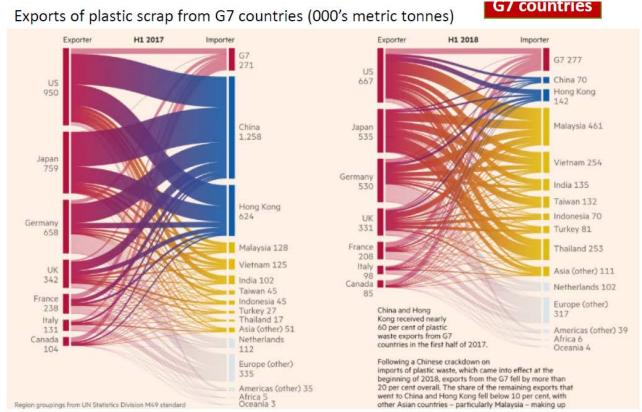

Rethink

When it comes to the global waste crisis, we're trying to reduce, reuse, repair and recycle an unmanageable volume and type of material

We need to refuse to continue within this broken system and RETHINK the way we manage consumptions and materials

Who wants this? NO ONE. Could it be turned into anything else in this state? NO.

Where are exports going after China closed its doors? Plastics

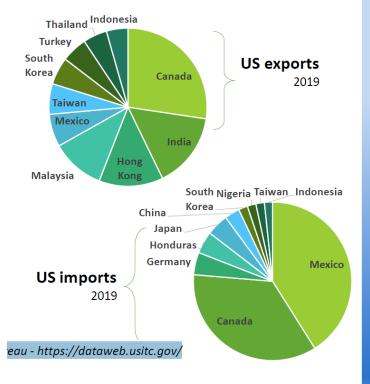

China rec'd 60% of plastic waste exports from G7 Countries in early 2017, following NS G7 plastic exports fell by more than 20% overall & the amount going to China fell below 10%

Source: The Financial Times - https://www.ft.com/content/360e2524-d71a-11e8-a854-33d6f82e62f8

Where are exports going after China closed its doors? Plastics

- In 2019, the U.S. exported about 667,000 metric tons of plastic scrap worth over \$279 million.
- The same year, the U.S. imported 399,000 metric tons of plastic scrap valued at more than \$226 million.

Source: U.S. International Trade Commission and U.S. Census Bureau -https://dataweb.usitc.gov/

Background

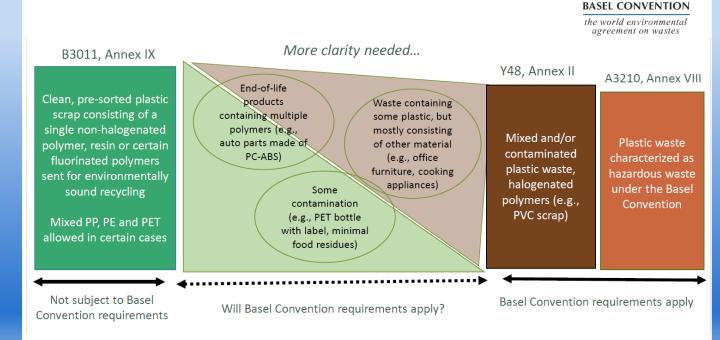

- In 2016, China imported about half of all plastic scrap intended for recycling globally (Brooks et al., 2018).
- Export flows changed when China implemented strict import restrictions on recyclables, including plasti in 2017.

- Concerns about capacity of 'new' importing countries to dispose of residual waste from recycling in an environmentally sound manner.
- The Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal (1992), is an international treaty that was designed to reduce the movements of hazardous waste between nations, and specifically to prevent transfer of hazardous waste from developed to less developed countries. Entered into force in 1992; 187 Parties.
- U.S. is a Signatory, but not a Party to the Basel Convention
- Starting on January 1, 2021, exports of most plastic scrap (i.e., plastic recyclables) will be included in the Basel Convention.

New Basel Convention – Unresolved Questions

Exports must meet a very narrow and strict set of criteria to be classified as not subject to Basel requirements

Anticipated impact: Confusion by the regulated community on technical issues and procedural requirements. EPA anticipates receiving export/import notifications for non-hazardous plastic scrap even though the amendments do not change U.S. export and import waste requirements.

Anticipated impact: Significant limits on the market for U.S. plastic scrap

Anticipated impact: Reduced U.S. exports for plastic recycling will likely lead to increased disposal of plastic scrap in domestic landfills.

Anticipated impact: Significant adverse impacts on U.S. recycling programs that have benefitted from the revenue generated by higher value plastic scrap exports.

Anticipated impact: Closer examination of current U.S. plastic processing capacity

*These changes could lead to greater incentives to improve the efficiency of the U.S. recycling system and develop domestic markets.

What do you do first? Turn off the faucet or grab a mop?

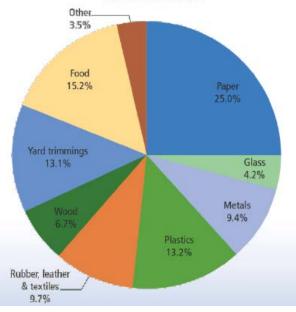

Zero Waste is a Concept that Covers Rethink, Reduce, Reuse, Repair & Recycle

- Zero Waste International Alliance Definition: Zero Waste is a goal that is ethical, economical, efficient and visionary, to guide people in changing their lifestyles and practices to emulate sustainable natural cycles, where all discarded materials are designed to become resources for others to use.
- Zero Waste means designing and managing products and processes to systematically avoid and eliminate the volume and toxicity of waste and materials, conserve and recover all resources, and not burn or bury them (Pollution Prevention!)
- Implementing Zero Waste will eliminate all discharges to land, water or air that are a threat to planetary, human, animal or plant health
 Divert 90% and No Burn, No Bury. This means waste to energy is NOT Zero Waste.

Zero Waste – Current Starting Point

Organics - The Low Hanging Fruit

Figure 4. Total MSW Generation (by material), 2017 267.8 Million Tons

Wearly 30% of America's Municipal Solid Waste is organic material.

When landfilled organic materials decompose without oxygen to make methane, a greenhouse gas at least 21% more potent than CO2

Use City's biannual yard debris curbside clean up

Start your own backyard composting system

Don't want to do it yourself? Utilize businesses, such as Reunity
10

Resources

Zero Waste/Reduce - INDIVIDUAL level

Zero Waste/Rethink & Reduce – SYSTEM ATIC level

Rethink - Extended Producer Responsibility (EPR)

Extended Producer Responsibility (EPR) is a mandatory type of product stewardship that includes, at a minimum, the requirement that the producer's responsibility for their product extends to post-consumer management of that product and its packaging. There are two related features of EPR policy: (1) shifting financial and management responsibility, with government oversight, upstream to the producer and away from the public sector; and (2) providing incentives to producers to incorporate environmental considerations into the design of their products and packaging.

Example: Mattress, Carpet, Paint or Other Items Required to Be Taken Back Through Industry Paid For Efforts, PACKAGING

Shell's New est "Cracking" Plant in Pennsylvania 1 million tons of new plastic each year.

Reduce 🗸

- Eight states—California, Connecticut, Delaw are, Haw aii, Maine, New York, Oregon and Vermont (also straws and Styrofoam coffee cups and take out containers)—have banned single-use plastic bags.
- In NM Cities of Santa Fe, Albuquerque, Bernalillo County (includes Styrofoam take out containers and straws) and Silver City have some sort of single-use plastic ban (paused due to COVID)
- Cities of Carlsbad and Las Cruces considering bag bans
 Individual businesses banning single use plastic

Our Individual Actions & Demands are creating a Tipping Point for Systems Change

BREAK FREE FROM PLASTIC POLLUTION ACT Introduced by Senator Tom Udall and Representative Alan Lowenthal

Break Free From Plastic Pollution Act

Source Reduction

- O Plastic Carry-Out Bags 10 cent fee on all other Carry-out bags
- O Plastic Utensils
- Styrofoam food and drinkware
- Styrofoam coolers & shipping packaging (medical exceptions)
- Straws available upon request

Producer Responsibility

- Packaging, containers, food service products & paper All materials (plastic, glass, metal, paper) - Regardless of recyclability/compostability
- Producer Responsibility Organizations (PRO)
- Collection/Reuse/Recycling Targets
- Major investment in U.S. domestic recycling/composting infrastructure

National Container Deposit

- 10-cent national refund for all beverage containers All material (plastic, glass, metal)
- O Modeled off Oregon's bottle bill Producers use unclaimed deposits for investment in recycling
- Existing state programs can continue or harmonize

Break Free From Plastic Pollution Act

Post Consumer Recycled Content from US Sources

- O Plastic beverage bottles 25% by 2025, 30% by 2030, 50% by 2035, 80% by 2040
- Other covered products/beverage containers
- EPA and National Institute of Standards and Technology set percentages

Recycling

- Define recycling and recyclable Processing capacity in U.S. and geographical distribution
- Standardize product labels
- Standardize receptacle labeling

Plastic Waste Exports

- Ban on export of plastic waste, scrap and pairings to developing countries.
- Export permitted to OECD countries (Organization for Economic Co-operation and Development)

Other Provisions

- O Cigarette Butts Electronic Cigarette Cartridges Derelict Fishing Gear
- Protect State Action
- Temporary Pause on New Plastic Production Facilities Up to three years while Federal Agencies study impacts and update regulations

Break Free From Plastic Pollution Act – Next Steps

Senator Jeff Merkley (D Oregon) taking the lead in the senate now following Udall's retirement

Blueprint for adoption on the state/local level

The Town of Mansfield, CT passed a Break Free from Plastic Pollution Resolution on November 23, 2020

A coalition of 550+ diverse organizations created <u>a plan</u> <u>outlining the eight executive actions</u> President Biden can take, with or without Congress, to fight the plastic pollution crisis.

#PLASTIC FREEPRESIDENT How the president can solve the plastic pollution crisis

Outlines 8 Steps the President can do to reduce plastic waste via Executive Action

Presidential Plastics Action Plan

www.plasticfreepresident.org

- 1. Use the purchasing power of the federal government to eliminate single-use plastic items and replace them with reusable products.
- 2. Suspend and deny permits for new or expanded plastic production facilities, associated infrastructure projects, and exports.
- 3. Make corporate polluters pay and reject false solutions
- 4. Advance environmental justice in petrochemical corridors.
- 5. Update existing federal regulations to curtail pollution from plastics facilities by using best available science and technology.
- 6. Stop subsidizing plastics producers.
- 7. Join international efforts to address the global plastic pollution crisis through new and strengthened multilateral agreements.
- 8...Reduce and mitigate the impacts of discarded and lost fishing gear.

Reuse & Repair

NMRC received USDA funding this month to work with rural communities to physically implement the grassroots waste reduction solutions, including reuse centers, Fix It Clinics, back yard composting trainings & zero waste efforts.

As Concerned Citizens What Can We Do?

Chowledge is power. Host a litter clean up and Brand Audit in your neighborhood – learn more at <u>https://www.breakfreefromplastic.org/brandaudittoolkit/</u>

Compost your food scraps and yard waste

Recycle Correctly!

Support Zero Waste Policy

- Single use plastic bans
- Break Free From Plastic Pollution Act

After your training, print the france (held) Data Carri and follow fleese steps to recard the information below about each plastic item. Use this helpful visual guide to identify the type of product and type of material for each piesc of plastic trady you find.

Title

Environmental Services Business, Operation and Event Update

...Suggested Motion

N/A

Body

Environmental Services operates as an enterprise fund which provides solid waste services to businesses and residents of the community. The ESB receives routine updates regarding business and operations, as well as future outreach opportunities.

- 1. Environmental Services solicited proposals to perform a Food Waste Composting Feasibility Study and Design Services. Environmental Services has selected a consultant and is in the process of drafting the contract.
- 2. The Eco Station transfer station ventilation system construction project was completed. Five fans were replaced with adequately sized fans that promote better air quality and visibility.
- 3. Currently working on Household Hazardous Waste site improvements.
- 4. The yard trimming program participation rate is 69% or 4,726 households. Approximately, 1,100.89 tons of yard trimmings were collected in 2020.
- 5. Friedman Recycling has postponed the recycle audit originally scheduled for December 2, 2020 due to reduced staffing levels.
- 6. There was a fire incident at the Eco Station on Thanksgiving Eve involving a transport trailer. LAFD responded quickly and doused the trailer and mitigated the fire. The following morning LAFD and ES staff investigated the event. Although the origin could not be determined with 100% certainty, the suspected cause of the incident was hot ash from a fireplace. ES staff have published press releases and info graphics to bring awareness to the fire danger of hot ash as well as lithium ion batteries.
- 7. Recycle Coach was launched December 2019 and has been live for one year. Staff is

currently promoting Recycle Coach to increase participation. There are 629 mobile users, 5,918 web users, 67 communication users, and 504 calendar users for a grand total of 7,118 users. There have been 113,168 interactions with the recycle coach tool. The number one interaction is for reminders, then notifications and next material searches. The number one searched item is household batteries, followed by Styrofoam containers and latex paints.

8. Currently recruiting for a new ESB member.

November 2020 Residential Sustainability Report

Recommended Action Motion

N/A

Body

The ESB will review and discuss the November 2020 Residential Sustainability Report. The data now includes more data and graphs that will demonstrate overall diversion as a result of the new yard trimming program which began July 9, 2018.

Most recent additions to the report include greenhouse gas emissions reduced by recycling and composting.

Attachments

D - Residential Sustainability Report - November 2020

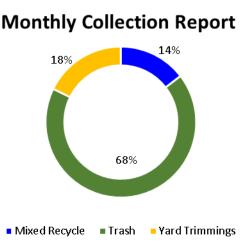

Residential Sustainability Report

Service Period: November 2020

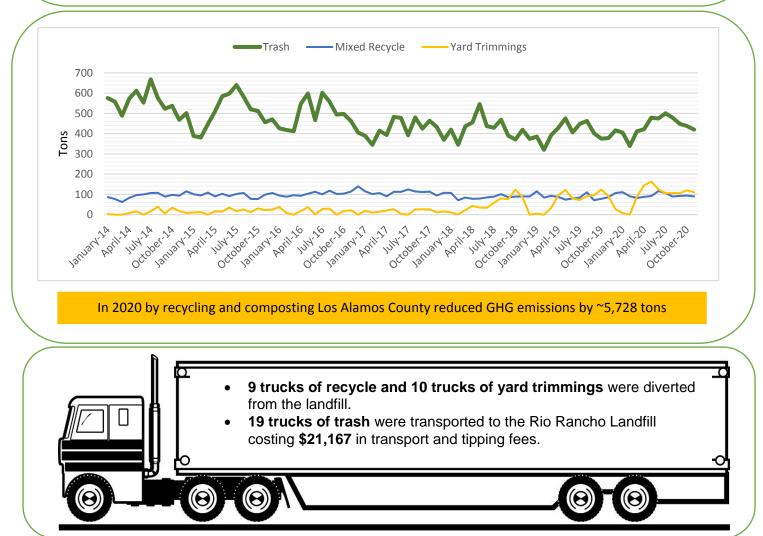

November Diversion Rate: 32%

The diversion rate is the percent of recyclable and compostable material diverted from the landfill.

In November by recycling and composting Los Alamos County reduced GHG emissions by ~525 tons

For more information contact Environmental Services Division at 505.662.8163 or email solidwaste@lacnm.us
