Title

Review of Virtual Platforms for Resource Directory

Body

Review of various platforms other communities are using as their Resource Directory to Community Members:

Chaves County - CCHC took over operation of Chaves County's 211 information line in 2019.

Colfax County - In 2020, The Colfax County Health Council partnered with the DWI & Substance Abuse Prevention Program to create a Community Mental/Behavioral Health and Substance Abuse Resources Guide. This information was vital to share throughout the community during the COVID-19 pandemic. This list was comprised of all mental/behavioral health, alcohol, and substance abuse counseling services available in Colfax and surrounding communities.

Valencia County - <https://www.communitywellnesscouncil.org/community-resources>

What have we learned from COVID-19 and things to keep in mind: in-equity in access to virtual platforms and broadband internet accessibility when considering a virtual resource library, considering who would maintain the virtual platform, information we are looking to have on the platform - program information/contact information, events, etc.
