

In the Works...

August 2025

Staff Report

L  S ALAM  S
Public Works

ADMINISTRATION

Eric Martinez, Public Works Director

Keith Wilson, Deputy Public Works Director

Louise Romero, Sr. Management Analyst

Rachel Barela, Senior Office Specialist

STATS Update

Adopt-A-Road – 10 Segments have been adopted.

The Administration Division serves as the backbone of the Public Works Department, providing essential support and customer service to all its divisions. This includes coordinating budgets, processing payroll, purchasing, managing records, assisting with public information, and ensuring compliance with departmental policies and procedures. The division acts as a central point of contact, responding to internal and external inquiries with professionalism and efficiency. By handling administrative tasks and offering day-to-day operational support, the Administration Division enables the department's field and technical teams to focus on delivering high-quality public services to the community.

Clean Up Los Alamos Day – September 20, 2025

The Los Alamos County Adopt A Road program will join Environmental Services in the Clean-Up Los Alamos Day on Saturday, September 20, 2025, in coordination with National Cleanup Day. This annual event unites residents, families, and community groups to help clear litter from public areas throughout the County.

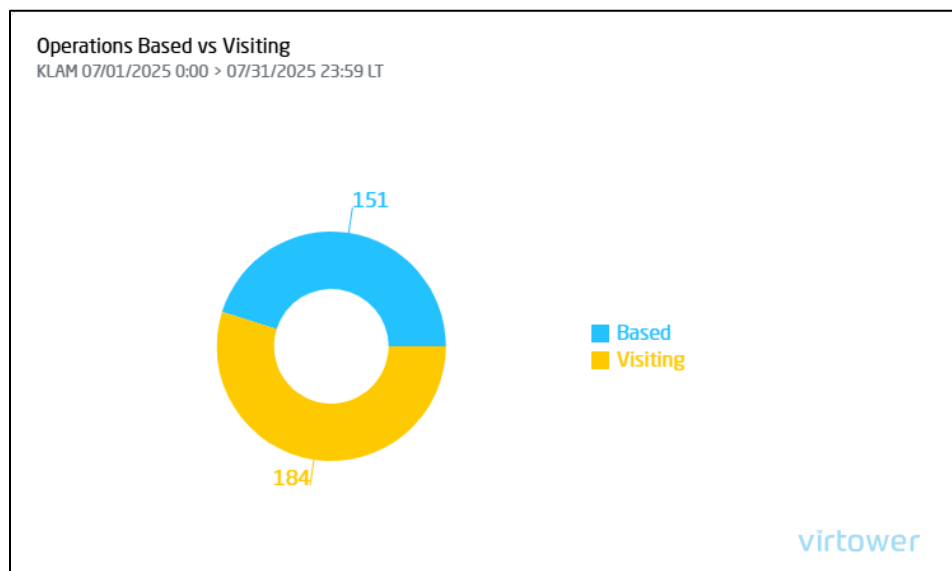

AIRPORT

Gary Goddard, Division Manager

STATS Update

In July 2025, Los Alamos County Airport recorded 335 operations, down slightly from 363 in June. The shift came largely from a decline in visiting aircraft, which fell from 234 operations in June to 184 in July, while based aircraft activity increased from 129 to 151 operations. A notable 89 operations in July were flown by the Classic Air medical helicopter, reflecting its steady role in regional emergency response. The remainder of activity was dominated by local general aviation.

The drop in visiting traffic is likely tied to seasonal weather patterns. July's monsoon storms often bring afternoon thunderstorms across northern New Mexico, discouraging cross-country trips by transient general aviation pilots. Based aircraft, however, were less affected, as local operators can better adjust flight times around the weather. Overall, July's activity reflects stable use of the airport by local pilots and continued strong demand for emergency medical flights, with a modest decline in transient general aviation visitors compared to June.

Projects Update

Several airport improvement projects are progressing. The T-Hangar project is moving forward, bolstered by a recent pledge from the New Mexico DOT to provide an additional \$400,000 to close some of the funding gap caused by rising construction costs. Work is anticipated to begin this fall. The County has also applied for FAA grant funding to design the west end development and Taxiway F relocation, which will include demolition of the outdated hangars on that side of the field. As part of this effort, the County recently purchased one of the west-end hangars from a private owner—four more remain before demolition can proceed.

Community engagement at KLAM also remains strong. On Saturday, August 16th, the airport hosted another event with the Experimental Aircraft Association (EAA), where members gave approximately 11 flights to fellow aviation enthusiasts who don't own aircraft. Following the flights, the Airport Manager and another EAA member, John George, gave a talk in the terminal about a recent trip to AirVenture in Oshkosh, Wisconsin, the world's largest fly-in, which attracted over 10,000 aircraft and more than 700,000 attendees this year. The visit provided fresh ideas to enhance the County Airport's own annual Open House, reinforcing KLAM's commitment to both aviation development and community connection.

CAPITAL PROJECTS & FACILITIES

Capital Projects

Los Alamos County is working on a variety of projects that support quality of life, infrastructure, and economic development initiatives.

The front nine holes at the Golf Course continue open for golf play. Staff have confirmed that the front nine part of the course is holding up well and will be making a slight adjustment to the schedule to extend play hours.

The 60% design packet for the Manhattan Project Dormitory Renovation is under review by the State Historical Preservation Office for review and comment.

An article about the coming Manhattan Project Dormitory Renovation was published by the Albuquerque Business First Journal.

<https://www.bizjournals.com/albuquerque/news/2025/08/05/manhattan-project-building-conversion.html>

Entitlements process for the new Fire Station 4 have been successfully completed. The project team kicked off the Design Development phase of the project.

Facilities (Preventative Maintenance)

STATS Update

Current WOs in queue = 179

New WO since last report = 48

Completed WO = 95

After hours WO = 7

Emergency WO = 3

CUSTODIAL

Bob Feagans, Division Manager

Meeting Our Goals

The Custodial Division continues to promote innovative approaches, conscientious stewardship and outstanding customer service while delivering clean and safe results to the County.

Our division also promotes outstanding customer service support through the Fuller Lodge Reservations Office, helping customers reserve and plan their events at County indoor facilities.

News & Updates

Reservations for the month of August continued to remain strong and every Saturday is booked over the next few months.

Looking Ahead

The Division currently has one vacant position which should be filled by the end of the month.

STATS Update

Supporting public events countywide.

Fuller Lodge – 61

White Rock Activity Center – 20

White Rock Fire Station – 1

White Rock Town Hall – 0

Municipal Building – 44

ENGINEERING

Eric Ulibarri, County Engineer

Bids were received for the Denver Steels Phase II project with an award being requested by the council on August 26. Construction is anticipated to begin this year and continue into Summer 2026. Staff have been involved in assisting with Pinon and Chamisa Elementary schools, inspecting work involved in reconstruction of the Pinon Elementary School access road, and providing support for striping operations for pedestrian infrastructure.

The Los Alamos County Pedestrian Master Plan was presented to Transportation Board in August and was recommended for adoption by the board. Staff will request final adoption at council on August 26.

A Canyon Rim Trail feasibility presentation was held at the council work session on August 19. The presentation explored options for extending the trail farther west towards the Los Alamos Medical Center.

Staff have executed a task order with an engineering on-call to develop conceptual design documents for re-alignment of Longview Drive.

The presentation for the Pedestrian Master Plan to the Transportation Board received public comment which helps in finalization of the plan. Ongoing construction projects like Bathtub Row require consistent outreach to the public including impacted residents, businesses, Los Alamos Public Schools, and LANL/DOE. This coordination is critical to successful project execution.

Looking Ahead

Multiple projects are being prepared for the upcoming construction year: Canyon Rim Trail from Knecht to 15th Street, Finch Street, Trinity Drive Safety and ADA, and NM-4 Multi-Use Trail and Crossing are all anticipated to be advertised for bids in Fall 2025 with construction continuing through the 2026 calendar year.

Staff are also actively involved in reviewing developer applications, conducting inspections, approval of construction permits, and design reviews. Some recent project reviews include the 20th Street Development, Guesthouse Hotel at the old Hilltop House site, Women's Dormitory Building, Hills Apartments/35th Street Realignment project, Century Bank, Sherwood Rounds off Longview Drive, Arboleda and the redevelopment of the Motel 6 building.

As part of the "Operation Save the Bears" initiative, Environmental Services delivered 260 dumpsters to the business community and 1,000 roll carts to residential customers during the first wave of the program. In December 2024, Environmental Services received an additional 1,154 Kodiak Bear-Resistant Carts and has since distributed more than 1,000 to residents that requested one. Another order has been placed to ensure availability for residents requesting one.

Bear sightings are on the rise, and we've received an increasing number of reports about trash carts being raided. To help prevent wildlife encounters and keep our neighborhoods safe, residents are encouraged to consider using bear-resistant trash carts. If you're interested in requesting one, please visit www.losalamosnm.us/gogreen to submit a request.

Upcoming Events - Clean Up Los Alamos Day – September 20, 2025

Environmental Services will be coordinating Clean Up Los Alamos Day on Saturday, September 20, 2025, in alignment with National CleanUp Day. This annual event brings together residents, families, and community organizations to remove litter from public spaces across Los Alamos County.

Residential Sustainability Report

Service Period: July 2025

LOS ALAMOS

July Diversion Rate: 32%

The diversion rate is the percent of recyclable and compostable material diverted from the landfill.

Monthly Collection Report

Traffic and Streets Administrative Staff processed 11 permits from July 20 through August 18, 2025. Staff extended 3 permits. Staff processes Traffic Control, Excavation and Curb Cut applications for county workers, county contracted companies, and private companies.

Crews have been actively installing crosswalks throughout school zones and designated safe routes across the county. This includes the installation of a temporary crosswalk on Meadow Lane at the newly constructed Chamisa Elementary School. In coordination with other teams, the crew also relocated a school flasher at the new campus.

Crews recently completed asphalt excavation, preparation, and paving along 35th Street between Villa Street and Diamond Drive. Additionally concrete repairs were also carried out in the same area and along Alhambra Drive in White Rock.

Crews have been working collaboratively to clear vegetation along roadways, pathways leading to schools and parks, around traffic signs, ACT bus stops, and countywide sidewalks. This ongoing maintenance will continue through the fall to prepare for the new school year and upcoming regional events, including the Burning of Zozobra, Santa Fe Fiestas, and the International Balloon Fiesta.

In preparation for seasonal weather changes, teams are also clearing drainage systems to help prevent flooding on roadways and adjacent private properties during rainfall.

Crews have supported multiple interdepartmental projects, including clearing storage sheds at the airport and installing a streetlight visor at the intersection of Arizona Avenue and 45th Street. Trenched and installed conduit to relocate a bollard light on Bathtub Row. Crews have been conducting night patrols in White Rock to identify malfunctioning streetlights. Identified issues are logged into the work order system to track and prioritize repairs.

Lastly, crews provided traffic control support for the Los Alamos County Triathlon and are currently preparing to support the upcoming Bear Festival, sponsored by the Pajarito Environmental Education Center (PEEC) and the Los Alamos County Nature Center.

TRANSPORTATION BOARD

The next Transportation Board meeting is scheduled for September 4, 2025.

NEW STAFF & PROMOTIONS

Serafin Mendez was recently promoted from a Summer Student to a Casual Employee with Traffic and Streets. Serafin is a Senior at Pojoaque Valley High School. He plays basketball and interviewed with several colleges to attend college on a scholarship.

ANNIVERSARIES & RETIREMENTS

Atomic City Transit would like to congratulate the following employees on their employment anniversaries.

July 2025

- Daniel Gutierrez – 11 years of service
- Elias Vigil – 1 year of service
- Andrew Norwood – 1 year of service

PROJECTS

Los Alamos Little Theatre.

Work is underway to install a fire suppression system.

The contractor is installing piping in the ceiling for the fire suppression water distribution throughout the building.

Los Alamos Ice Rink Chiller Replacement.

The piping that supplies refrigerant from the chiller to the outdoors air condenser has been completed.

The contractor is conducting preliminary pressure tests to verify the hermeticity of the piping.

DIVISION VACANCIES

His office

Celebrating 25 Years of Service: Chris Ocaña

On August 20, 1999, Chris Ocaña walked through the gates of 3701 E. Jemez Road—back when it was still a landfill and long before it became the ECO Transfer Station. At the time, the idea of reaching retirement felt, in Chris’s words, “like it was going to be forever.” Fast forward to today, and here he is celebrating his 25th PERA birthday, wondering how it all went by so quickly. With a chuckle, Chris jokes, “In 25 years of commuting from El Rito with my wife, we’ve worn out two cars and now I’m working on my third.” His commute is estimated annually at 32,760 miles, times that by 25 years... 819,000 miles currently.

Chris isn’t done yet, though. His next goal is to hit 26 years and 8 months before officially hanging up his gloves, safety vest, boots, and hard hat for good.

He began his County career as a yard laborer before moving up to Equipment Operator and eventually Senior Equipment Operator, where he has spent most of his career. Along the way, Chris has pretty much run every machine with wheels, claws, or buckets including compactors, shu-pak units, side loaders, skid steers, transfer station loaders, front end loaders, and of course, his specialty: the grapple (formerly known as “quarterly pickup”). He even led the grinding operation, proving there’s not much in solid waste operations that Chris hasn’t tackled.

During his 25 years, Chris has seen plenty of co-workers, managers, and retirees come and go, but he has been a steady presence through it all. Meanwhile, at home, he and his wife raised their daughter and are now enjoying life as proud grandparents to a 12-year-old grandson and an energetic 18-month-old granddaughter.

When asked what advice he’d give to new employees, Chris kept it simple:

“Be a good worker and a safe employee. Work hard, do what’s asked of you, get along with everyone, and be helpful. You’ll need a lot of patience at first it feels like forever in the beginning but before you know it, the years fly by.”

Having supervised Chris for nearly eight years, I can proudly say he's an outstanding Transfer Station operator. He's humble, dependable, easygoing, and the kind of employee who never argues and always pitches in. And on top of that, he's also the go-to guy for green chile stew at our division luncheons!!

As for favorite memories, Chris admits that nothing beats the day he got a **brand-new loader**: "That new loader smell made my job so much easier." Still, what really stands out to him is his current crew: "This team is different, it's a good group of people who help each other out and get along."

Looking back, Chris is proudest of three things: learning all the equipment, never getting hurt on the job, and being able to go home safely every single day.

Congratulations to Chris Ocaña on 25 years of service with Los Alamos County—and here's to his final climb toward retirement!

Fleet Mechanics Kudos!

Huge shoutout to the incredible Fleet Mechanic team! Despite being down *one position out of seven* for several months, they've continued to push through with unwavering dedication and top-tier performance.

This month, the team knocked on the door of a major milestone — and *smashed it*. For the first time, they surpassed **300 work orders received**, hitting a record **333**! Even more impressive? Of those, only **62 remain open** — a massive testament to their efficiency, teamwork, and grit.

Your hard work doesn't go unnoticed. Thank you for keeping everything rolling, literally and figuratively. Let's give it up for our fleet champions!

From: Chris Cude

To: Martinez, Vicente <vicente.martinez@lacnm.us>

Subject: Electrical work at Fuller Lodge

Mr. Martinez,

I just wanted to pass along my compliments regarding the facility electricians' work over at Fuller Lodge. I volunteer with the clay studio over there and have had occasion to interact with Rick Garcia and his crew a couple of times now, and they have been reliably efficient and effective on every occasion. They recently tracked down a weak breaker for us and went above and beyond to keep us up and running while the replacement part was on order. A pleasure to work with, and they do a great job.

Thanks,
Chris Cude

CAPITAL IMPROVEMENT PROJECTS UPDATES – ENGINEERING

Los Alamos County is working on a variety of projects that support quality of life, infrastructure, and economic development initiatives. A summary of the project and additional information can be found on our website – <https://lacnm.com/PW-Projects>.

Project Name	Dept(s)	Update
NM-4 Crossing and Multi-Use Trail	PW	This project will create an at-grade crossing of NM State Road 4 in White Rock at the Mirador Subdivision and provide both new multi-use trail infrastructure and reconstructed trail infrastructure in the Pinon Park area. The county received grant funding from NMDOT for this project with design being finalized by Bohannon Huston Inc. The project will be advertised for construction later this year with construction anticipated to begin in late 2025 and continue through 2026.
Trinity Drive Safety and ADA	PW	This project is the result of a 2016 road safety audit and has been awarded grant funding from the Federal Highway Safety Improvement Program by NMDOT. A resolution of support was made by Council on September 10 approving a Hybrid Road Diet, one of the alternatives presented by the engineer. The design is being finalized with construction anticipated to begin in late 2025 and continue through 2026.
Finch Street	PW	This project design was completed by an on-call engineering firm. The project is anticipated to be advertised for bids in late 2025. Council approved an agreement with the Los Alamos Medical Center for the transfer of land for the construction of the Finch Street project in August 2023. Construction is anticipated to begin in late 2025 and continue through 2026.
Canyon Rim Trail Phase III	PW	The project design and right-of-way (ROW) acquisitions are underway from Knecht Street to 15 th Street. The design is being completed by an on-call engineering firm. The project is anticipated to be advertised for bids in Fall 2025 with construction occurring in 2026. Completion of the trail design from 15 th Street to 20 th Street is pending ROW acquisitions.
Bathtub Row-Peach Nectar	PW	Construction continues by TLC Plumbing and Utility after a winter suspension and is anticipated for completion in late Summer 2025. This is a joint project with the Department of Public Utilities and includes full road reconstruction along with utility upgrades.

Denver Steels Phase II	PW	This is a joint project with the Department of Public Utilities and includes full road reconstruction along with utility upgrades. The project is anticipated to begin construction in late 2025 and continue through 2026.
NM-4 Crossing and Multi-Use Trail	PW	This project will create an at-grade crossing of NM State Road 4 in White Rock at the Mirador Subdivision and provide both new multi-use trail infrastructure and reconstructed trail infrastructure in the Pinon Park area. The county received grant funding from NMDOT for this project with design being finalized by Bohannon Huston Inc. The project will be advertised for construction later this year with construction anticipated to begin in late 2025 and continue through 2026.

CAPITAL IMPROVEMENT PROJECTS UPDATES – FACILITIES CAPITAL IMPROVEMENT PROJECTS UPDATES – FACILITIES

A summary of the project and additional information can be found at the County website –

<https://www.losalamosnm.us/Government/Departments-and-Divisions/Public-Works/Capital-Projects-Facilities-Division-Projects>.

Project Name	Dept	Update
Golf Course Electric Cart Conversion	PW, CSD	Construction completed. Electric golf carts started operations in July. Project is closeout phase.
Asset Management Software for Facilities	PW	Staff continue the verification of equipment naming and locations on the floor plans. Steup of accounts for crews in progress.
Benchmarking Building Utility Consumption	PW	No activities to report in July
Emergency Dispatch CRAC Unit	PD	Design professional finalizing 100% drawings.
Women's Dormitory Building Renovation	PW	60% design packet sent to SHPO for review and comment. Results of the review expected by mid- to end of September.
Capital Outlay Grant Application for Betty Ehart Senior Center	PW, CSD, AS-FIN	ALTSD announced the award of \$1,000,000 to the project on August 7. Staff are preparing the final scope of work for ALTSD review and approval.
Golf Course Site Improvements	PW, CSD	Project team maintains a close watch to the overall course conditions and the grow-in progress of the turf. Staff are amending the designer contract for additional services to perform on-site review of turf grow-in, assessment of course conditioning, and the prescription of any corrective measures that may be needed.

Ice Rink Temporary Chiller	PW, CSD	Temporary chiller has been removed from the ice rink. The project is in closeout phase.
Ice Rink Permanent Chiller Replacement	PW, CSD	The mechanical contractor completed building the piping by connecting the condenser and the chiller. Preliminary pressure testing under way.
Ice Rink Floor Replacement and Shade Structure	PW, CSD	On June 10, County Council approved moving forward with design development of the mono-sloped pre-engineered structure.
Fire Station 3 Snow Melt System Replacement	PW, FD	Project team is considering possible design changes to improve system reliability and potential construction cost savings.
Emergency Operations Center (EOC)	PW, PD, FD	Grant funding was suspended by Department of Homeland Security. County Emergency Management will seek alternative funding and grants for this project.
Fire Station 4 Replacement	PW, FD	Entitlements process successfully completed. The planning and Zoning Commission approved the site plan on August 13, 2025. Project team kicked off the design development phase.
Mesa Public Library Siding Replacement	PW	Project is in warranty period. Staff are monitoring the siding panels for possible cracks.
Aquatic Center Olympic Pool Restoration	PW, CSD	Architect is reviewing pool materials submittals.
Betty Ehart Senior Center Renovation	PW, CSD	Staff are reviewing schematic design documents.
Los Alamos Little Theatre Fire Suppression and Asbestos Abatement.	PW, CSD	The contractor is installing the piping for the fire suppression system.
Betty Ehart Senior Center HVAC Replacement	PW, CSD	Project was awarded \$1M by the State Aging and Long-Term Services Department. Project team is reviewing fee proposal to develop construction documents.
Installation of EV chargers	Sustainability, PW	Staff held pre-construction meeting with the contractor on August 14. Construction is expected to begin in mid-September.
Fire Station 3 Showers Renovation	PW, FD	Submittals for tiles, water proofing, and pans under review. Contractor is finalizing the construction schedule.
Aquatic Center Pool Replacement Pumps Design	PW, CSD	Staff are reviewing the Retro-commissioning report.
PCS Fuel Farm Upgrades	PW	PCS fuel farm is back to normal operation. Project is in closeout phase.
Justice Center Parking Lot Lights Replacement	PW	Staff are evaluating alternatives to procure electrical contractor services for this project.
PCS Salt Bins Rust Correction	PW	Project team is reviewing the 90% drawings.
PCS Bus Canopy Snowmelt System	PW	Designer is finalizing the 100% drawings. There are two other projects in the planning phase at this location. Staff are exploring the possibility of combining the three projects in search of construction/cost efficiencies.

Brewer Arena Grandstand	PW/ CSD	Construction drawings sent out to on-call contractors for pricing.
Social Services Action Center	PW/ CSD	Staff is waiting on recommendation from the County Health Council on the space needs for the Action Center.
Justice Center Rainwater Drain Correction	PD/ PW	A task order has been routed for signature. Contractor anticipates beginning work in early September
